The Representations of Women in the Middle Kingdom Tombs of Officials Lubica Hudáková, 2019-07-22 In The Representations of Women in the Middle Kingdom Tombs of Officials Lubica Hudáková offers an in depth analysis of female iconography in the decorative programme of Middle Kingdom non royal tombs highlighting changes and innovations in comparison to the Old Kingdom Previously considered too uniform the study represents the first systematic investigation of two dimensional images of women and reveals their variability in space and time Hudáková examines the roles appointed to women by analyzing how they are depicted in a variety of contexts Taking into account their postures gestures garments hairstyles size of the body age as well as attributes and tools used by them along with the scene orientation she traces diachronic and diatopic developments and regional traditions in the Middle Kingdom tomb decoration

Ancient Egyptian Tombs Steven Snape, 2011-06-13 This book explores the development of tombs as a cultural phenomenon in ancient Egypt and examines what tombs reveal about ancient Egyptian culture and Egyptians belief in the afterlife Investigates the roles of tombs in the development of funerary practices Draws on a range of data including architecture artifacts and texts Discusses tombs within the context of everyday life in Ancient Egypt Stresses the importance of the tomb as an eternal expression of the self

Prophets, Lovers and Giraffes Orly Goldwasser, 2002 The book's central proposition is that the prominent feature of the hieroglyphic script which Egyptologists call determinatives makes up an elaborate system of classifiers All items of the lexicon take motivated pictorial classifiers By this device the script reflects the map of knowledge organization of ancient Egyptian culture The book aims to reveal the principles and constraints governing the codification of the ancient Egyptian universe in this system There is to date no comprehensive study either in Egyptology or in cognitive linguistics of the hieroglyphic classifiers as a structured system The present work attempts to fill the existing hiatus by bridging the disciplines of Egyptology and cognitive studies using the tools of the latter to elucidate the former and thus perhaps arrive at new perspectives on both From the Egyptological angle the book deals with the ancient Egyptians nomenclature for items in the world and the relationship between lexicon and the knowledge organization However the events occurring in the picture script render cognitive processes visible to our inspection hundreds of years before they have ripened into the Egyptian language This visibility bears directly on a number of crucial questions in cognitive linguistics and ethnobiology The book also includes an introduction to the hieroglyphic script

The Iconography of Humiliation in New Kingdom Egypt Mark D. Janzen, 2024-11-26 This volume analyzes the iconography of bound foreigners on New Kingdom monuments and artifacts to better understand Egyptian perspectives on foreigners and their treatment of prisoners of war Depictions of foreign captives

in humiliating or torturous poses are ubiquitous in Egyptian iconography and reflect the celebratory nature of royal ideology in this case by degrading enemies Egyptologists have scrutinized these scenes for details regarding various military matters but existing scholarly literature offers few studies focused on enemy captives and the sheer physical brutality of the depictions of their bindings Janzen examines the bound foreigner motif in New Kingdom sources demonstrating that these prisoners of war played vital roles in Egyptian ideology and religion Their depictions in bizarre or torturous poses served to reinforce ideological underpinnings of pharaoh's right to rule perpetually ritualizing their defeat and or punishment through the presence of this iconography on ceremonial objects used primarily by the king and on temple walls and monuments The subjugation of foreigners also constituted an important economic function as incorporating prisoners of war into the Egyptian workforce was crucial for economic prosperity and growth in New Kingdom Egypt The volume also explores cross cultural and anthropological parallels placing Egyptian treatment of foreign prisoners in its ancient context The book provides a fascinating study of the subject suitable for scholars and students of Egyptology and ancient history particularly that of New Kingdom Egypt as well as those working on power warfare and violence in the ancient world more broadly The Light of Discovery John D. Wineland, 2007-01-01 The Light of Discovery is a Festschrift honoring Dr Edwin Yamauchi and it focuses on the Mediterranean world The collection is ambitious in terms of time from ancient Egypt to Late Antiquity and wide ranging in topic from astrology and Gnosticism to the Van Kampen Collection of manuscripts in Orlando *The Saqqara Necropolis through the New Kingdom* Nico Staring, 2022-11-28 This book is the first comprehensive monographic treatment of the New Kingdom 1539 1078 BCE necropolis at Saqqara the burial ground of the ancient Egyptian city of Memphis and addresses questions fundamental to understanding the site's development through time For example why were certain areas of the necropolis selected for burial in certain time periods what were the tombs spatial relations to contemporaneous and older monuments and what effect did earlier structures have on the positioning of tombs and structuring of the necropolis in later times This study adopts landscape biography as a conceptual tool to study the long time interaction between people and landscapes Encyclopedia of the Archaeology of Ancient Egypt Kathryn A. Bard, 2005-11-03 This is the first reference work in English ever to present a systematic coverage of the archaeology of this region from the earliest finds of the Palaeolithic period through to the fourth century AD *Atlantis and the Ten Plagues of Egypt* Graham Phillips, 2003-07-23 Shows how a desecrated tomb in the Valley of the Kings holds the key to the true history of the destruction of Atlantis Reveals that Tomb 55 in the Valley of the Kings was designed not to keep intruders out but to trap something inside Provides forensic evidence proving that the mask believed to be the face of Tutankhamun is actually that of his elder brother Smenkhkare In Atlantis and the Ten Plagues of Egypt Graham Phillips explores the excavation of a mysterious and ritually desecrated tomb in the Valley of the Kings Tomb 55 which he contends holds the key to the true history of the destruction of Atlantis Unlike other Egyptian tombs designed to keep intruders out Tomb 55 was constructed to keep something imprisoned within specifically

Smenkhkare the older brother of Tutankhamun who was deemed responsible for the ten plagues in Egyptian history to prevent such tragedies from ever happening again The forensic findings from this tomb coupled with compelling new evidence from the polar ice caps provide sensational evidence that the parting of the Red Sea the deaths of the first born and the other plagues that afflicted Egypt were all actual historical events Core samples from the polar ice caps indicate that a gigantic volcanic eruption took place in the eastern Mediterranean around the time of Amonhotep s reign Other research suggests this to have been the time of the eruption that destroyed the Greek island of Thera one of the likely locations of Atlantis and that the subsequent cataclysm may explain the unusual lack of resistance to the new religion installed by Amonhotep s son Akhenaten when he took power several years later *Who's Who in Ancient Egypt* Michael
