film adaptation of *Frankenstein* directed by James Whale and starring Boris Karloff as the now iconic Monster claims in its credits to be Adapted from the play by Peggy Webling. Webling's play sought to humanize the creature was the first stage adaptation to position *Frankenstein* and his creation as doppelgängers and offered a feminist perspective on scientific efforts to create life without women, ideas that suffuse today's perceptions of *Frankenstein's* monster. The original play script exists in several different versions, only two of which have ever been consulted by scholars; no version has ever been published. Nor have scholars had access to Webling's private papers and correspondence preserved in a family archive, so that the evolution of *Frankenstein* from book to stage to screen has never been fully charted. In *Peggy Webling and the Story behind Frankenstein*, Dorian Gieseler Greenbaum, Webling's great grandniece, and Bruce Graver present the full texts of Webling's unpublished play for the first time. A vital critical edition, this book includes the 1927 British Library *Frankenstein* script used for the first production of the play in Preston, Lancashire; the 1928 *Frankenstein* script in the Library of Congress used for productions in UK provincial theatres from autumn 1928 till 1930; the 1930 *Frankenstein* Prompt Script for the London production and later provincial performances held by the Westminster Archive, London; Webling's private correspondence, including negotiations with theatre managers and Universal Pictures; family letters about the writing and production process; and selected contracts. Text of the chapter *Frankenstein* from Webling's unpublished literary memoir *The Story of a Pen* for additional context. Biography of Webling that bears directly on the sensibilities and skills she brought to the writing of her play. History of how the play came to be written and produced. The relationship of Webling's play to earlier stage and film adaptations. An exploration of playwright and screenwriter John L. Balderston's changes to Webling's play and Whale's borrowings from it in the 1931 film. Offering a new perspective on the genesis of the *Frankenstein* movie, this critical exploration makes available a unique and necessary missing link in the novel's otherwise well-documented transmedia cultural history.

motion detector using msp430 launchpad and pir sensor - Jun 23 2022

web jul 15 2019 the pir sensor stands for passive infrared sensor which can detect many levels of radiations as it is well known that every object emits some radiation and hotter materials emit more radiations than other materials interfacing pir sensor with pic microcontroller iot based security system with voice message using esp8266

design and implementation of pyroelectric infrared sensor based - May 03 2023

web jun 2 2011 this paper evaluates the development of a low cost security system using small pir pyroelectric infrared sensor built around a microcontroller which has low computational requirement and is well suited to surveillance industrial applications and smart environments expand view on ieee

arduino based security system using passive infrared pir motion sensor - Oct 08 2023

web feb 1 2021 this research focuses on how to configure a simple home security framework using a pir sensor passive infrared in light of a microcontroller this safety will work if the pir passive infrared sensor recognizes any individual that would not like to go into the house and afterward the micro controller process and instructs a mobile phone to
