*Phenomenology and the Extreme Sport Experience* Eric Brymer, Robert Schweitzer, 2017-03-27 Understanding the motivations behind those who partake in extreme sports can be difficult for some If the popular conception holds that the incentive behind extreme sports participation is entirely to do with risking one's life then this confusion will continue to exist However an in-depth examination of the phenomenology of the extreme sport experience yields a much more complex picture This book revisits the definition of extreme sports as those activities where a mismanaged mistake or accident would most likely result in death Extreme sports are not necessarily synonymous with risk and participation may not be about risk taking Participants report deep inner transformations that influence world views and meaningfulness feelings of coming home and authentic integration as well as a freedom beyond the everyday Phenomenologically these experiences have been interpreted as transcendent of time other space and body Extreme sport participation therefore points to a more potent life-enhancing endeavour worthy of further investigation This book adopts a broad hermeneutic phenomenological approach to critique the assumed relationship to risk taking the death wish and the concept of No Fear in extreme sports and repositions the experience in a previously unexplored manner This is valuable reading for students and academics interested in Sports Psychology Social Psychology Health Psychology Tourism Leisure Studies and the practical applications of phenomenology

**Fallen Giants** Maurice Isserman, Stewart Angus Weaver, Dee Molenaar, 2010-01-01 In the first comprehensive history of Himalayan mountaineering in 50 years the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds

that gave rise to those expeditions      **The Readers' Advisory Guide to Nonfiction** Neal Wyatt, 2007-05-14 Navigating what at she calls the extravagantly rich world of nonfiction renowned readers advisor RA Wyatt builds readers advisory bridges from fiction to compelling and increasingly popular nonfiction to encompass the library's entire collection She focuses on eight popular categories history true crime true adventure science memoir food cooking travel and sports Within each she explains the scope popularity style major authors and works and the subject's position in readers advisory interviews Wyatt addresses who is reading nonfiction and why while providing RAs with the tools and language to incorporate nonfiction into discussions that point readers to what to read next In easy to follow steps Wyatt Explains the hows and whys of offering fiction and nonfiction suggestions together Illustrates ways to get up to speed fast in nonfiction Shows how to lead readers to a variety of books using her read around and reading map strategies Provides tools to build nonfiction subject guides for the collection This hands on guide includes nonfiction bibliography key authors benchmark books with annotations and core collections It is destined to become the nonfiction bible for readers advisory and collection development helping librarians library workers and patrons select great reading from the entire library collection

**Project Management in Extreme Situations** Monique Aubry, Pascal Lievre, 2016-12-12 The growing complexity of projects today as well as the uncertainty inherent in innovative projects is making obsolete traditional project management practices and procedures which are based on the notion that much about a project is known at its start The current high level of change and complexity confronting organizational leaders and managers requires a new approach to projects so they can be managed flexibly to embrace and exploit change What once used to be considered extreme uncertainty is now the norm and managing planned projects is being replaced by managing projects as they evolve Successfully managing projects in extreme situations such as polar and military expeditions shows how to manage successfully projects in today's turbulent environment Executed under the harshest and most unpredictable conditions these projects are great sources for learning about how to manage unexpected and unforeseen situations as they occur This book presents multiple case studies of managing extreme events as they happened during polar mountain climbing military and rescue expeditions A boat accident in the Arctic is a lesson on how an effective project manager must be ambidextrous on one hand able to follow plans and on the other hand able to abandon those plans when disaster strikes and improvise new ones in response Polar expeditions also illustrate how a team can use weak links to go beyond its usual information network to acquire strategic information Fire and rescues operations illustrate how one team member's knowledge can be transferred to the entire team Military operations provide case material on how teams coordinate and make use of both individual and collective competencies This groundbreaking work pushes the definitions of a project and project management to reveal new insight that benefits researchers academics and the practitioners managing projects in today's challenging and uncertain times      [Landscapes of Leisure](#) S. Gammon, S. Elkington, 2016-01-12 This volume aims to map out the complex relationships leisure has with notions

of place and space in contemporary life Illustrating the transdisciplinarity of this key feature of leisure studies it explores how leisure places and spaces affect personal social and collective identities

*Nature's Altars* Susan R. Schrepfer, 2005-05-02 From the ancient Appalachians to the high Sierra mountains have always symbolized wilderness for Americans Susan Schrepfer unfolds the history of our fascination with high peaks and rugged terrain to tell how mountains have played a dramatic role in shaping American ideas about wilderness and its regulation Delving into memoirs and histories letters and diaries early photos and old maps Schrepfer especially compares male and female mountaineering narratives to show the ways in which gender affected what men and women found to value in rocky heights and how their different perceptions together defined the wilderness preservation movement for the nation The Sierra Club in particular popularized the mystique of America's mountains and Schrepfer uses its history to develop a sweeping interpretation of twentieth century wilderness perceptions and national conservation politics Schrepfer follows men like John Muir Wilderness Society cofounder Robert Marshall and the Sierra Club's own David Brower into the mountains and finds them frequently in the company of women She tells how mountaineering women shaped their lives through high adventure well before the twentieth century participating in Appalachian mountain clubs and joining men as Mazamas mountain goats scaling Oregon's Mount Hood From these expeditions Schrepfer examines how women's ideas language and activism helped shape American environmentalism just as much as men's parsing the Romantic sublime into its respective masculine and feminine components Tracing this history to the 1964 Wilderness Act she also shows how the feminine sublimines continue to flourish in the form of ecofeminism and in exploits like the all woman climb of Annapurna in 1978 By explaining why both women and

men risked their lives in these landscapes how they perceived them and why they wanted to save them Schrepfer also reveals the ways in which religion social class ethnicity and nationality shaped the experience of the natural world Full of engaging stories that shed new light on a history many believe they already know her book adds subtlety and nuance to the oft told annals of the wild and gives readers a new perspective on the wilderness movement and mountaineering The Crucifixion Fleming Rutledge,2017-02-09 Few treatments of the death of Jesus Christ have made a point of accounting for the gruesome degrading public manner of his death by crucifixion a mode of execution so loathsome that the ancient Romans never spoke of it in polite society Rutledge probes all the various themes and motifs used by the New Testament evangelists and apostolic writers to explain the meaning of the cross of Christ She shows how each of the biblical themes contributes to the whole with the Christus Victor motif and the concept of substitution sharing pride of place along with Irenaeus's recapitulation model

**Extreme** Emma Barrett,Paul Martin,2014-10-23 Why do some people risk their lives regularly by placing themselves in extreme and challenging situations For some such as astronauts the extreme environments are part of the job For others they involve the thrill and competition of extreme sports or the achievement of goals such as being the first to reach the South Pole or climb Everest Whether for sport or employment all these people have made the personal choice to put themselves in environments in which there is significant risk What drives such people And what skills and personality traits enable the best to succeed What abilities are shared by the successful mountaineer astronaut caver or long distance solo sailer And are there lessons the rest of us can learn from them The psychology of those who have to cope with extreme conditions has been a matter of much research It is important for example to those planning manned space programmes or the makeup of teams who will spend months in an isolated or hostile environment such as Antarctica to understand the psychological pressures involved and to recognize those best equipped to handle them In *Extreme* Emma Barrett and Paul Martin explore the challenges that people in extreme environments face including pain physical hardship loneliness and friction between individuals and the approaches taken to overcome them Using many fascinating examples and personal accounts they argue that we can all benefit from the insights gained *Cases in Leadership* W.
