High In The Andes A Spiritual Adventure:

High in the Andes William Michael Kaufman, 2018-01-08 High in the Andes is a spiritual adventure novel charting the fantastic events that happen to its main character Narada. On an archeological tour through the ruins of Peru he stumbles across a secret and mysterious attraction. Beyond his wildest amazement, Narada is actually drawn back to his former Incan colleagues of the priestly class with whom he lived 450 years ago. Therein begins an extraordinary process of self-discovery, reflection, and ancient memory recall as Narada receives the esoteric teachings of this highly evolved group of spiritual masters, including discussions on forgiveness, energy, healing, meditation, reincarnation, and more. Readers will recognize in Narada's story the struggles common to many seekers on the path of spiritual development. They will identify with him as he strives to understand the teachings and find their own innate wisdom reflected back. **The Story of Ada: a Spiritual**

Journey Through Dreams Mavis Aldridge PhD, 2014-08-01 The Story of Ada was fueled by a yearning to understand more deeply who Ada really is beyond external appearances. From early adolescence to maturity, multiple dreams formed a hidden current of energy behind many of Ada's professional activities, dreams which kept whispering their messages of something more, even when for lack of understanding she ignored them. While recording three volumes, Sparked by the comment of a friend, Ada in her retirement years went on a relentless inner quest during which she realized that her dreams were all along a subconscious spiritual lifeline supporting her on her life's journey and revealing hidden aspects of herself which had inhibited her soul growth. Her arduous explorations culminated in an illuminating discovery of her personal elusive why of so many dreams. A blueprint for others to understand dreams as expressions of loving grace. Carolyn Tricomi PhD Applause and congratulations. An amazing job of collecting dreams and tracking Ada's growth. Connie Kaplan PhD An amazing document of deep symbolic and spiritual experience. Lillian Baumann PhD **An Exploration of Truth** William M. Kaufman, 2008-05

Have you ever wondered if someone's telling you the truth? As a licensed psychotherapist, the author's presented daily with stories of people's lives from which he needs to tease out the truth, not just a challenge for counselors and therapists but for all of us. We're all constantly presented with portrayals of the truth from news accounts to media reports, memoirs, the justice system, medical establishment, and daily interactions with friends and strangers. Many of us want the truth to be handed to us so we do not have to search within for it. Often we don't know how to search within. In each chapter, he presents ways to do that. In AN EXPLORATION OF TRUTH: A Tapestry of Fact and Fiction, William Kaufman presents an uncommon approach to examining the nature of truth. In his dynamic theory of truth, he demonstrates that a deeper understanding of truth exists when we approach it as a process that can never be fixed in any particular dimension. He warns readers to beware of anybody who endeavors to provide them the truth, that it amounts to giving them directions to the treasure at the end of the rainbow. He challenges readers to seek within themselves to discover truth and provides them with the means to go about it. Dr. Kaufman has crafted a unique structure by creating a tapestry that reflects the ways truth laces its way throughout our daily

lives Alternating with chapters that examine each specific area he weaves a story line that provides examples of and integrates those ideas compelling the reader along This book is for readers who are concerned about matters of truth not as something easily presented to them but rather as integral to their process of inner growth people searching for answers and guidance for self discovery

The Haunting of Twenty-First-Century America William J. Birnes, Joel Martin, 2013-12-17 In this companion volume to *The Haunting of America* and *The Haunting of Twentieth Century America* national bestselling authors William J. Birnes and Joel Martin explore today's intellectual and spiritual awakening, one that is challenging traditional belief systems. Birnes and Martin show that though many governments deny the importance of a spiritual component to national policy, even the most conservative governments have based social and financial policy decisions on a profound belief in the existence of the paranormal: ghosts and spirits. From using psychic spying programs to gather intelligence on enemy nations to investigating the use of mind control to impede the abilities of hostile troops, the U.S. government has continuously developed paranormal weapons and tactics alongside their more mundane counterparts. U.S. Presidents from Franklin Pierce through Ronald Reagan regularly relied on the paranormal using trance mediums, channelers, and astrologists to help plan agendas and travel schedules. *The Haunting of Twenty-First-Century America* is unlike any American history you will ever read; it posits that not only is the paranormal more normal than most people think, but that it is driving current events to a new Fourth Culture of the twenty-first century.
