High Crusade The:

The High Crusade Poul Anderson, 2010-09-01 In the year of grace 1345 as Sir Roger Baron de Tourneville is gathering an army to join King Edward III in the war against France a most astonishing event occurs a huge silver ship descends through the sky and lands in a pasture beside the little village of Ansby in northeastern Lincolnshire The Wersgorix whose scouting ship it is are quite expert at taking over planets and having determined from orbit that this one was suitable they initiate standard world conquering procedure Ah but this time it's no mere primitives the Wersgorix seek to enslave they've launched their invasion against free Englishmen In the end only one alien is left alive and Sir Roger's grand vision is born He intends for the creature to fly the ship first to France to aid his King then on to the Holy Land to vanquish the infidel Unfortunately he has not allowed for the treachery of the alien pilot who instead takes the craft to his home planet where he thinks these upstart barbarians will have no choice but to surrender But that knavish alien little understands the indomitable will and clever resourcefulness of Englishmen no matter how great the odds against them At the publisher's request this title is sold without DRM Digital Rights Management

The Night Sky, Updated and Expanded Edition Richard Grossinger, 2014-09-30 Ever since *Homo sapiens* first looked up at the stars we as a species have been looking for meaning in the mysteries of the night sky Over the millennia as our knowledge science and technology developed the stories we told ourselves about the universe and our place in it developed as well In *The Night Sky* Richard Grossinger traces those developments covering multiple aspects of humanity's complex relationship to the cosmos Covering not only astronomy but also cosmology cosmogony astrology and science fiction

he offers us a revelatory look at the firmament through his own telescope fitted with an anthropological lens Throughout his explorations Grossinger continually reflects on the deeper meaning of our changing concepts about the universe and creation offering insight into how each new discovery causes us to redefine the values moralities and aesthetics by which we live He also calls into question the self aggrandizing notion that humanity can and will conquer all and injects our strident confidence in science with a healthy dose of humility and wonder Filled with poetic observation and profound questions *The Night Sky* is a brilliant reflection of humanity's relationship with the cosmos a relationship fed by longing doubt and awe

An Informal History of the Hugos Jo Walton, 2018-08-07 Engaged passionate and consistently entertaining *An Informal History of the Hugos* is a book about the renowned science fiction award for the many who enjoyed Jo Walton's previous collection of writing from Tor.com the Locus Award winning *What Makes This Book So Great* The Hugo Awards named after pioneer science fiction publisher Hugo Gernsback and voted on by members of the World Science Fiction Society have been presented since 1953 They are widely considered the most prestigious awards in science fiction Between 2010 and 2013 Jo Walton wrote a series of posts for Tor.com surveying the Hugo finalists and winners from the award's inception up to the year 2000 Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time Walton's cheerfully opinionated and vastly well informed posts provoked valuable conversation among the field's historians Now these posts lightly revised have been gathered into this book along with a small selection of the comments posted by SF luminaries such as Rich Horton Gardner Dozois and David G Hartwell A remarkable guided tour through the field a kind of nonfiction companion to *Among Others* It's very good It's great New York Times bestselling author Cory Doctorow Boing Boing on *What Makes This Book So Great* **God, Mind and Knowledge** Dr Andrew

Moore, 2014-05-28 The themes of *God Mind and Knowledge* are central to the philosophy of religion but they are now being taken up by professional philosophers who have not previously contributed to the field This book is a collection of original essays by eminent and rising philosophers and it explores the boundaries between philosophy of religion philosophy of mind metaphysics and epistemology Its introduction will make it accessible to newcomers to the field especially those approaching it from theology Many of the book's topics lie at the focal point of debates instigated in part by the so called New Atheists in contemporary culture about whether it is rational to have religious beliefs and the role these beliefs can or should play in the life of individuals and of society **Punch** Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley

Burnand, Owen Seaman, 1922 *Filming the Middle Ages* Bettina Bildhauer, 2013-06-01 In this groundbreaking account of film history Bettina Bildhauer shows how from the earliest silent films to recent blockbusters medieval topics and plots have played an important but overlooked role in the development of cinema *Filming the Middle Ages* is the first book to define medieval films as a group and trace their history from silent film in Weimar Germany to Hollywood and then to recent European co productions Bildhauer provides incisive new interpretations of classics like Murnau's *Faust* and Eisenstein's

Alexander Nevsky and she rediscovers some forgotten works like Douglas Sirk's *Sign of the Pagan* and Asta Nielsen's *Hamlet*. As Bildhauer explains both art house films like *The Seventh Seal* and *The Passion of Joan of Arc* and popular films like *Beowulf* or *The Da Vinci Code* cleverly use the Middle Ages to challenge modern ideas of historical progress to find alternatives to a print dominated culture and even to question what makes us human. *Filming the Middle Ages* pays special attention to medieval animated and detective films and provocatively demonstrates that the invention of cinema itself is considered a return to the Middle Ages by many film theorists and film makers. *Filming the Middle Ages* is ideal reading for medievalists with a stake in the contemporary and film scholars with an interest in the distant past. **Jerusalem Delivered**

Torquato Tasso, 1881 **The Jerusalem Delivered** Torquato Tasso, Jeremiah Holmes Wiffen, 1846 **Strictly Fantasy** Gerald Nachtwey, 2021-05-07 Role playing games seemed to appear of nowhere in the early 1970s and have been a quiet but steady presence in American culture ever since. This new look at the hobby searches for the historical origins of role playing games deep in the imaginative worlds of Western culture. It looks at the earliest fantasy stories from the nineteenth and twentieth centuries at the fans both readers and writers who wanted to bring them to life at the Midwestern landscape and the middle class households that were the hobby's birthplace and at the struggle to find meaning and identity amidst cultural conflicts that drove many people into these communities of play. This book also addresses race, religion, gender, fandom and the place these games have within American capitalism. All the paths of this journey are connected by the very quality that has made fantasy role playing so powerful: it binds the limitless imagination into a strict framework of rules. Far from being an accidental offshoot of marginalized fan communities, role playing games' ability to hold contradictions in dynamic creative tension made them a necessary and central product of the twentieth century. **New Worlds: Before the New Wave, 1960-1964**

John Boston, Damien Broderick, 2013-04-30 In the mid 1960s British science fiction and fantasy were convulsed by the New Wave. This movement emerged from the SF magazines edited by John Carnell. Such brilliant NEW WORLDS and SCIENCE FANTASY writers as J.G. Ballard, Brian W. Aldiss, John Brunner and Michael Moorcock heralded the rise of this new kind of fantastic fiction. John Boston and Damien Broderick's concluding volume of their critical trilogy examines the history and development of these important magazines and the fiction that they championed. By the end of this period 1964 Carnell had set the stage for that major development in UK science fiction: the new wave adventures of the transformed NEW WORLDS under the editorship of Moorcock and had himself shifted gear into the next mode of SF publishing as editor of the paperback anthology series *New Writings in SF*. Boston and Broderick's series will become the definitive critical histories of these important British magazines. Complete with indices of names and titles cited. *Arthur's Magazine* Timothy Shay
