the controversial city planner Robert Moses many well known historical figures made a convincing case for affordable housing in America Despite the movement s lofty ideals the creation of the Projects led to the destruction of low income communities across the country From the Hill District in Pittsburgh to Black Bottom in Detroit predominantly Black neighborhoods were judged only by the quality of their housing Husock looks beyond these neighborhoods physical conditions to their uncounted riches from local artists like August Wilson to vital community institutions As he shares residents stories he honors what they crafted through their own plans rather than those of city planners Husock traces the history of public housing to contemporary debates on the government s role in the housing market Through interviews with residents he reveals how public housing transformed the lives of Americans and the physical faces of cities and towns He ultimately critiques repair and reform efforts making policy recommendations that address the core failings of public housing for the people it was once designed to help Mapping out a better path for policy makers he lays a new foundation for upward mobility in America
