Higher Education for American Democracy United States. President's Commission on Higher Education, 1947 Higher Education for American Democracy: Establishing the goals.- v.2. Equalizing and expanding individual opportunity United States. President's Commission on Higher Education, 1947 **Higher Education for Democracy** William G.

Tierney, 2021-07-01 Bronze Winner 2021 Foreword INDIES Book of the Year Award in the Education Category Democracy and higher education are inextricably linked universities not only have the ability to be key arbiters of how democracy is advanced but they also need to reflect democratic values in their practices objectives and goals Framed by the COVID 19 pandemic and the ongoing crisis of structural racism Higher Education for Democracy explores academe's role in advancing democracy by using a cross national comparison of Los Angeles New Delhi and Hong Kong to develop strategies that universities can employ to strengthen democracy and resist fascism William G Tierney argues that if academe is to be a progenitor in the advancement of democracy then we need to consider five areas of change that have been significant across national contexts amid both globalization and neoliberalism inequality privatization the public good identity and academic freedom Taking a comparative approach and drawing on scholarly literature archival research and interviews Higher Education for Democracy aims to understand these changes and their implications and to position higher education in defense of democracy in a globalized economy framed by fascism **Higher Education and Democracy** John

Saltmarsh, Edward Zlotkowski, 2011-01-28 A masterful collection of essays on the democratic potential of education

Higher Education for American Democracy United States. President's Commission on Higher Education, 1947 **"To Serve a Larger Purpose"** John Saltmarsh, Matthew Hartley, 2011-05-20 To Serve a Larger Purpose calls for the reclamation of the original democratic purposes of civic engagement and examines the requisite transformation of higher education required to achieve it The contributors to this timely and relevant volume effectively highlight the current practice of civic engagement and point to the institutional change needed to realize its democratic ideals Using multiple perspectives To Serve a Larger Purpose explores the democratic processes and purposes that reorient civic engagement to what the editors call democratic engagement The norms of democratic engagement are determined by values such as inclusiveness collaboration participation task sharing and reciprocity in public problem solving and an equality of respect for the knowledge and experience that everyone contributes to education knowledge generation and community building This book shrewdly rethinks the culture of higher education **Democracy, Civic Engagement, and Citizenship in Higher**

Education Adam Weinberg, 2019-05-24 Twenty five leaders from the higher education and service learning sectors provide insight into what works in building citizenship through civic engagement on their campuses and communities From small colleges to large universities these strong voices demonstrate that American democracy is very much active and prepared for

the 21st century **College for the Commonwealth** Michael T. Benson, Hal R. Boyd, 2018-10-29 In the past decade states across the nation have cut higher education spending per student by more than 15 percent Kentucky has experienced some of the largest cuts in the country leading many to claim that higher education is in a state of crisis In spite of this turmoil however Kentucky's remarkable institutions of higher education stand more capable than ever to prepare new generations for the challenges and opportunities of their time College for the Commonwealth A Case for Higher Education in American Democracy illustrates how colleges and universities are the sustaining lifeblood of civil society and that when these vital institutions are underfunded both the community and economy suffer Michael T Benson and Hal R Boyd examine the historical origins of higher education in America and analyze the benefits of postsecondary education through the lens of Kentucky Presented as a practical yet persuasive look at why America needs thoughtful reinvestment in its colleges and universities this study details how helping students can help sustain a healthy democratic social fabric while bolstering the modern economy Gathering examples and offering solutions for postsecondary institutions this work serves as a call to action and a roadmap for educators administrators and government officials **Higher Education for American Democracy**, 1979 **Democracy's Education** Harry C. Boyte, 2015-02-01 Today Americans feel powerless in the face of problems on every front Such feelings are acute in higher education where educators are experiencing an avalanche of changes cost cutting new technologies and demands that higher education be narrowly geared to the needs of today's workplace College graduates face mounting debt and uncertain job prospects and worry about a coarsening of the mass culture and the erosion of authentic human relationships Higher education is increasingly seen and often portrays itself as a ticket to individual success a private good not a public one Democracy's Education grows from the American Commonwealth Partnership a year long project to revitalize the democratic narrative of higher education that began with an invitation to Harry Boyte from the White House to put together a coalition aimed at strengthening higher education as a public good The project was launched at the beginning of 2012 to mark the 150th anniversary of the Morrill Act which created land grant colleges Beginning with an essay by Harry C Boyte Reinventing Citizenship as Public Work which challenges educators and their partners to claim their power to shape the story of higher education and the civic careers of students the collection brings world famous scholars senior government officials and university presidents together with faculty students staff community organizers and intellectuals from across the United States and South Africa and Japan Contributors describe many constructive responses to change already taking place in different kinds of institutions and present cutting edge ideas like civic science civic studies citizen professionalism and citizen alumni Authors detail practical approaches to making change from new faculty and student roles to changes in curriculum and student life and strategies for everyday citizen empowerment Overall the work develops a democratic story of education urgently needed to address today's challenges from climate change to growing inequality **Leaning into Politics** Abraham Goldberg, Carah Ong Whaley, 2024-06-01 Democratic decline in the United

States and globally a lack of confidence in political institutions and an increasingly violent and divisive political climate raise many questions for the state of political learning and civic engagement A decade ago a task force commissioned by the United States Department of Education called on colleges and universities to affirm their missions to educate for democracy Relatively few have made the investment though dozens of higher education associations and organizations have publicly committed their support to prepare students to address the persistent public issues they are inheriting While there has been a recent upward spike in rote civic knowledge and historically high youth voting rates the United States has seen a decline in political rights and civil liberties and has been listed as a backsliding democracy Since 2010 state legislatures have passed laws making it harder to vote with access to the ballot increasingly dependent on which party controls the state legislature Meanwhile substantial dysfunction and hyperpartisanship in Congress concerns over the impartiality of the judiciary and limited accountability and oversight of the executive branch have contributed to the loss of institutional capacity to address public problems and to declining public confidence in political institutions These trends coincide with problematic rhetoric and growing scrutiny from public officials on how colleges and universities educate students on public issues particularly those centered on class race ethnicity and social justice Issues of free speech and expression have been further nationalized following a high profile hearing of the House Committee on Education and the Workforce that questioned the presidents of Harvard Massachusetts Institute of Technology and University of Pennsylvania about antisemitism on their campuses and as campus protests regarding the Israeli Palestinian conflict have been met with heavy handed responses These episodes serve as loud warning shots to colleges and universities across the country Academic freedom and freedom of speech core tenets of a liberal education are at risk Can higher education step up and meet the moment Collectively contributors to this volume who come from a broad range of institutions experiences and perspectives provide critical research and analyses as well as innovative approaches for how higher education can fulfill its public role and contribute to building the democratic societies we need

Higher Education and Modern Democracy Martin Meyerson, 1967 **The Proper Role of Higher Education in a Democratic Society** Bowhay, Vincent, 2021-06-25 American higher education has served to prepare students to be active participants in a democratic society During a time of great civil upheaval following the tumultuous elections of 2016 and 2020 the outbreak of the COVID 19 pandemic and mass demonstrations following the murders of George Floyd and Breonna Taylor higher education may be the only institution left to be both responsible for and responsive to society at large Public trust in the federal government is at near record lows but confidence in higher education has decreased more than any other U S institution since 2015 In a time where public opinion is quickly changing for the better or the worse higher education must respond to this decline in trust in it as an institution but also the decline in the belief that a college degree is worth the time and cost Higher education was founded on the idea that colleges would prepare citizens for a life of public service but they have quickly changed to a business model that largely puts profits over people Practitioners

of higher education must respond to this lack of trust and the pressures of preparing a 21st century workforce while battling the threats of a pandemic declining enrollment budget destabilization and increased regulation The Proper Role of Higher Education in a Democratic Society reexamines the purpose of higher education during rapidly changing times offers practical advice and best practices to reclaim higher education s most fundamental mission and argues that if higher education is called to prepare students to serve a government by the people the people must be prepared to govern effectively This book provides resources and suggestions for restoring the public faith in higher education by connecting the educational experience with civic engagement outcomes Diverse perspectives presented in this book challenge traditional notions that civic engagement is handled by one office on a college campus and is only discussed during a presidential election Covering everything from civic engagement to diversity perspectives this book is ideal for higher education practitioners and those interested in promoting civic engagement and democratic participation improving assessment or accreditation standards using a civic engagement perspective and infusing civic engagement to diversity conversations on campus

Shaffer,Nicholas V. Longo,2023-07-03 We live in divisive and polarizing times often remaining in comfortable social bubbles and experiencing few genuine interactions with people who are different or with whom we disagree Stepping out and turning to one another is difficult but necessary For our democracy to thrive at a time when we face wicked problems that involve tough trade offs it is vital that all citizens participate fully in the process We need to learn to listen think and act with others to solve public problems This collaborative task begins with creating space for democracy This book provides a guide for doing so on campus through deliberation and dialogue At the most basic level this book describes collaborative and relational work to engage with others and co create meaning Specifically dialogue and deliberation are processes in which a diverse group of people moves toward making a collective decision on a difficult public issue This primer offers a blueprint for achieving the civic mission of higher education by incorporating dialogue and deliberation into learning at colleges and universities It opens by providing a conceptual framework with leading voices in the dialogue and deliberation field providing insights on issues pertinent to college campuses from free speech and academic freedom to neutrality and the role of deliberation in civic engagement Subsequent sections describe a diverse range of methods and approaches used by several organizations that pioneered and sustained deliberative practices outline some of the many ways in which educators and institutions are using dialogue and deliberation in curricular co curricular and community spaces including venues such as

student centers academic libraries and residence halls All of the chapters including a Resource Section provide readers with a starting point for conceptualizing and implementing their own deliberation and dialogue initiatives This book intended for all educators who are concerned about democracy imparts the power and impact of public talk offers the insights and experiences of leading practitioners and provides the grounding to adopt or adapt the models in their own settings to create educative spaces and experiences that are humanizing authentic and productive It is an important resource for campus leaders student affairs practitioners librarians and centers of institutional diversity community engagement teaching excellence and service learning as well as faculty particularly those in the fields of communication studies education and political science A Co Publication with AAC U and Campus Compact
