## **High-resolution Electron Microscopy For Materials Science:**

High-Resolution Electron Microscopy for Materials Science Daisuke Shindo, Hiraga Kenji, 2012-12-06 High resolution electron microscopy HREM has become a most powerful method for investigating the internal structure of materials on an atomic scale of around 0.1 nm. The authors clearly explain both the theory and practice of HREM for materials science. In addition to a fundamental formulation of the imaging process of HREM, there is a detailed explanation of image simulation indispensable for interpretation of high resolution images. Essential information on appropriate imaging conditions for observing lattice images and structure images is presented and methods for extracting structural information from these observations are clearly shown including examples in advanced materials. Dislocations, interfaces and surfaces are dealt with and materials such as composite ceramics, high T<sub>c</sub> superconductors and quasicrystals are also considered. Included are sections on the latest instruments and techniques such as the imaging plate and quantitative HREM. *High-Resolution Electron Microscopy for Materials Science* Daisuke Shindo, Hiraga Kenji, 1998-09-01

**In-situ Electron Microscopy At High Resolution** Florian Banhart, 2008-07-29 In situ high resolution electron microscopy is a modern and powerful technique in materials research, physics and chemistry. In situ techniques are hardly treated in textbooks of electron microscopy. Thus there is a need to collect the present knowledge about the techniques and achievements of in situ electron microscopy in one book. Since high resolution electron microscopes are available in most modern laboratories of materials science, more and more scientists or students are starting to work on this subject. In this comprehensive volume, the most important techniques and achievements of in situ high resolution electron microscopy will be reviewed by renowned experts. Applications in several fields of materials science will also be demonstrated
