Highway Americas Endless Dream:

Highway Jeffrey T. Brouws, Bernd Polster, Phil Patton, 1997 The growth of highways in the U S during the early 20th century marked the beginning of an unprecedented American mobility The democratic open nature of the road redefined the American way of life and forever changed the way the average American perceives this country This collection of original full color photos and historical essays examines the landscape and roadside culture of America s great highways 137 photos 100 in color

Dreamland Phil Patton, 2012-10-31 There is a place in the Nevada desert the size of Belgium that doesn't officially exist It is the airbase where test flights of our top secret experimental military aircraft are conducted and not coincidentally where the conspiracy theorists insist the Pentagon is hiding UFOs and aliens This is Dreamland or Area 51 For Phil Patton the idea of writing a travel account of a place he couldn't actually visit was irresistible What he found was a world where Chick Yeager and the secret planes of the Cold War converged with the Nevada Test Site and alien landings at Roswell A think tank for aviation engineering Dreamland can be seen from a summit outside the base's perimeter a hundred miles north of Las Vegas On Freedom Ridge groups of airplane buffs gather with their camouflage outfits and binoculars These are the Stealth chasers the Skunkers guys with code names like Agent X and Zero hoping for a glimpse of the rumored raylike shapes of planes like Black Manta and the mother ship The most mysterious craft is Aurora the successor to the legendary U 2 said to run on methane and fly as fast as Mach 6 Scanning the same horizon the UFO buffs are looking for the hovering lights and doughnut shaped contrails of alien aircraft Are they looking at something sinister and mysterious Imagined Or more terrestrial than they think Dreamland shows how much we need mystery in the information age and how the cultures of nuclear power and airpower merge with the folklores of extraterrestrials and earthly conspiracies Patton found people who found themselves in the mysteries of the place John Lear the son of aviation pioneer Bill Lear who gave his name to the jet served as a pilot for the CIA's Air America but back home he became fascinated by UFOs and eventually believed in it all the underground bases the alien human hybrids the secret treaties But was he a true believer or part of a disinformation campaign Bob Lazar seems to know when the saucers will come and has made three clear sightings at night along Dreamland's perimeter but is his story real or a vision of what's possible Dreamland is an exploration of America's most secret place the base for our experimental airplanes the fount of UFO rumors an offshoot of the Nevada Test Site How this blackspot came to exist its history its creators its spies and counterspies is Phil Patton's tale He tunnels into the subcultures of the conspiracy buffs the true believers and the aeronautic geniuses creating a novelistic tour de force destined to make us all rethink our convictions about American know how and alien inventiveness

Riley,2015-04-13 Robert Riley has been a renowned figure in landscape studies for over fifty years valued for his perceptive learned and highly entertaining articles reviews and essays Much of Riley s work originally ran in Landscape the pioneering magazine at which Riley succeeded the great geographer J B Jackson as editor The Camaro in the Pasture is the first book to collect this compelling author s writing With diverse topics ranging from science fiction fantasies to problems of academic design research the essays in this volume cover an entire half century of Riley s observations on the American landscape The essays several of which are new or previously unpublished interpret changing rationales for urban beautification the evolution and transformation of the strip the development of a global landscape of golf and resorts replacing an older search for exoticism and the vernacular landscape as wallpaper rather than quilt Ultimately Riley envisions our future landscape as a rapidly fluctuating electronic net draped over the more slowly changing and familiar land and building based system Throughout Riley emphasizes the vernacular landscape of contemporary America how we have shaped and use it what it is becoming and above all how we experience it *Signs in America's Auto Age* John A. Jakle,John A. & Keith A. Jakle &

Sculle,Keith A. Sculle,2006-08-22 Signs orient inform persuade and regulate They help give meaning to our natural and human built environment to landscape and place In Signs in America s Auto Age cultural geographer John Jakle and historian Keith Sculle explore the ways in which we take meaning from outdoor signs and assign meaning to our surroundings the ways we read landscape With an emphasis on how the use of signs changed as the nation s geography reorganized around the coming of the automobile Jakle and Sculle consider the vast array of signs that have evolved since the beginning of the twentieth century **Photography and the Non-Place** Jim Brogden,2019-01-31 This book presents a critical and aesthetic

defence of non place as an act of cultural reclamation Through the restorative properties of photography it re conceptualises the cultural significance of non place The non place is often referred to as wasteland and is usually avoided The sites investigated in this book are located where access and ownership are often ambiguous or in dispute they are places of cultural forgetting Drawing on the author s own photographic research led practice as well as material from photographers such as Ed Ruscha Joel Sternfeld and Richard Misrach this study employs a deliberately allusive intertextuality to offer a unique insight into the contested notions surrounding landscape representation Ultimately it argues that the non place has the potential to reveal a version of England that raises questions about identity loss memory landscape valorisation and perhaps most importantly how we are to arrive at a more meaningful place
