Learning to Love Form 1040 Lawrence Zelenak,2013-03-29 No one likes paying taxes much less the process of filing tax returns For years would be reformers have advocated replacing the return based mass income tax with a flat tax federal sales tax or some combination thereof Congress itself has commissioned studies on the feasibility of a system of exact withholding But might the much maligned return based taxation method serve an important yet overlooked civic purpose In *Learning to Love Form 1040* Lawrence Zelenak argues that filing taxes can strengthen fiscal citizenship by prompting taxpayers to reflect on the contract they have with their government and the value or perceived lack of value they receive in exchange for their money Zelenak traces the mass income tax to its origins as a means for raising revenue during World War II Even then debates raged over the merits of consumption based versus income taxation as well as whether taxes should be withheld from payroll or paid at the time of filing The result is the income tax system we have today a system whose maddening complexity intended to accommodate citizens in widely different circumstances threatens to outweigh any civic benefits If sitcoms and political cartoons are any indication public understanding of the income tax is badly in need of a corrective Zelenak clears up some of the most common misconceptions and closes with suggestions for how the current system could be substantially simplified to better serve its civic purpose

when the joke is not just a joke Having a good sense of humor generally means being able to take a joke without getting offended laughing even at a taboo thought or at another s expense The insinuation is that laughter eases social tension and creates solidarity in an overly politicized social world But do the stakes change when the jokes are racist In *The Souls of White Folk* Ral P rez argues that we must genuinely confront this unsettling question in order to fully understand the persistence of anti black racism and white supremacy in American society today W E B Du Bois s prescient essay *The Souls of White Folk* was one of the first to theorize whiteness as a social and political construct based on a feeling of superiority over racialized others a kind of racial contempt P rez extends this theory to the study of humor connecting theories of racial formation to parallel ideas about humor stemming from laughter at another s misfortune Critically synthesizing scholarship on race humor and emotions he uncovers a key function of humor as a tool for producing racial alienation dehumanization exclusion and even violence P rez tracks this use of humor from blackface minstrelsy to contemporary contexts including police culture politics and far right extremists Rather than being harmless fun this humor plays a central role in reinforcing and mobilizing racist ideology and power under the guise of amusement *The Souls of White Folk* exposes this malicious side of humor while also revealing a new facet of racism today Though it can be comforting to imagine racism as coming from racial hatred and anger the terrifying reality is that it is tied up in seemingly benign even joyful everyday interactions as well and for racism to be eradicated we must face this truth

The Play World Patricia Anne Simpson,2020-09-21 *The Play World* chronicles the history and evolution of the concept of play as a universal part of childhood Examining texts and toys coming out of Europe between 1631 and 1914 Patricia Anne Simpson argues that German material literary and pedagogical cultures were central to the construction of the modern ideas and realities of play and childhood in the transatlantic world With attention to the details of toy manufacturing and marketing Simpson considers prescriptive texts about how children should play treat their possessions and experience adventure in the scientific exploration of distant geographies She illuminates the role of toys among them a mechanical guillotine yo yos hybridized dolls and circus figures as agents of history Using an interdisciplinary approach that draws from postcolonial childhood and migration studies she makes the case that these texts and toys transfer the world of play into a space in which model childhoods are imagined and enacted as German With chapters on the Protestant play ethic enlightened parenting Goethe as

an advocate of play colonial fantasies children s almanacs ethnographic play and an empire of toys Simpson s argument follows a compelling path toward understanding the reproduction of religious gendered ethnic racial national and imperial identities emanating from German speaking Europe that collectively construct a global imaginary This foundational and deeply original study connects German speaking communities across the Atlantic as they collectively engender the epistemology of the play world It will be of particular interest to German studies scholars whose research crosses the Atlantic
