A high strung pastry chef's professional goals are interrupted by an unexpected career transition and the introduction of her wildly attractive nonbinary kitchen manager in this deliciously fresh and witty queer rom com. Simone Larkspur is a perfectionist pastry expert with a dream job at The Discerning Chef, a venerable cookbook publisher in New York City. All she wants to do is create the perfect loaf of sourdough and develop recipes, but when The Discerning Chef decides to bring their brand into the 21st century by pivoting to video, Simone is thrust into the spotlight and finds herself failing at something for the first time in her life. To make matters worse, Simone has to deal with Ray Lyton, the new test kitchen manager whose obnoxious cheer and outgoing personality are like oil to Simone's water. When Ray accidentally becomes a viral YouTube sensation with a series of homebrewing videos, their eccentric editor in chief forces Simone to work alongside the chipper upstart or else risk her beloved job. But the more they work together, the more Simone realizes her heart may be softening like butter for Ray. Things get even more complicated when Ray comes out at work as nonbinary to mixed reactions, and Simone must choose between the career she fought so hard for and the person who just might take the cake and her heart. Reroute the Preschool Juggernaut Chester E. Finn (Jr.), 2009. Prekindergarten is one of the most hotly contested topics in American education today. The author looks at recent social and educational changes that have brought unprecedented attention to school readiness, the hazy boundary between preschool and child care, and the extent to which American youngsters already have access to various pre-K services. He then examines the shaky state of standards and quality in this field and the largely inconclusive nature of research and evidence as to what works with young children. After reviewing two of America's most prominent examples of universal pre-K education in Florida and Oklahoma and looking at the four decade old Head Start Program, he tackles the matter of costs and benefits and the fractious issue of alternative delivery systems before offering some conclusions and ideas for the path ahead.
