*The Kindergarten Survival Handbook* Allana Elovson, 1993. Written to help parents understand what their children need to know before they start kindergarten, this volume, bound separately in English and Spanish, is intended to help parents become their children's best as well as their first and most important teachers. The first part of the book, the before-school checklist, is divided into eight sections, each about different skills children need to know. The eight sections are: 1. things they need to know, the basics; 2. understanding and being understood; 3. self-help and social skills; 4. large movement skills; 5. small movement skills; 6. using all their senses; 7. recognizing pictures; and 8. words and letters. The second part of the book, a guide for parents, shows parents how to help their children learn the things they need to know. This part is also divided into eight sections that show simple things parents can do at home or anywhere without special equipment or materials on a daily basis. Following an introduction that offers parents general guidelines for helping their children, the guide covers the skills listed in the before-school checklist in eight sections. A final section discusses why the parent is always the most important person in a child's education. TJQ
