Out of Love for My Kin Amy Livingstone,2011-02-23 In *Out of Love for My Kin*, Amy Livingstone examines the personal dimensions of the lives of aristocrats in the Loire region of France during the eleventh and twelfth centuries. She argues for a new conceptualization of aristocratic family life based on an ethos of inclusion. Inclusivity is evident in the care that medieval aristocrats showed toward their families by putting in place strategies, practices, and behaviors aimed at providing for a wide range of relatives. Indeed, this care and, in some cases, outright affection for family members is recorded in the documents themselves as many a nobleman and woman made pious benefactions out of love for my kin. In a book made rich by evidence from charters which provide details about life events including birth, death, marriage, and legal disputes over property, Livingstone reveals an aristocratic family dynamic that is quite different from the fictional or prescriptive views offered by literary depictions or ecclesiastical sources or from later historiography. For example, she finds that there was no single monolithic mode of inheritance that privileged the few and that these families employed a variety of inheritance practices. Similarly, aristocratic women long imagined to have been excluded from power exerted a strong influence on family life, as Livingstone makes clear.

in her gender conscious analysis of dowries the age of men and women at marriage lordship responsibilities of women and contestations over property The web of relations that bound aristocratic families in this period of French history she finds was a model of family based on affection inclusion and support not domination and exclusion
