Nott and Geo. R. Gliddon Josiah Clark Nott, 1854 **Types of mankind: or Ethnological Researches, based upon the ancient monuments, paintings, sculptures and crania of races, and upon their natural, geographical, philosophical, and biblical history: illustrated by selections from the inedited papers of Samuel George and by additional contributions from prof. L. Agassiz, LL. D.; W. Usher, M. D., and prof. H. S. Patterson M. D. by s. C. Nott and G. R. Gliddon Josiah Clark Nott, 1860 **The Primitive Races of Mankind** Max Schmidt, 1926 Last Hope: Mankind's Final Chance to Prolong Our Species by Finding New Planets to Inhabit Newnobleman, **The Kinds of Mankind** Morton Klass, Hal Hellman, 1971 Examines the concept of race explains some ways that have been used to classify groups of people asks why broad differences between groups of people exist and whether they are tied to other distinctions looks at arguments about race 3 yan xi, 2024-12-23 Su Xiao squatted on the roof of a two story villa and the night wind blew which made him feel cool Nature, Human Nature, and Human Difference Justin Smith-Ruiu, 2017-03-14 People have always been xenophobic but an explicit philosophical and scientific view of human racial difference only began to emerge during the modern period Why and how did this happen Surveying a range of philosophical and natural scientific texts dating from the Spanish Renaissance to the German Enlightenment *Nature Human Nature and Human Difference* charts the evolution of the modern concept of race and shows that natural philosophy particularly efforts to taxonomize and to order nature played a crucial role Smith demonstrates how the denial of moral equality between Europeans and non Europeans resulted from converging philosophical and scientific developments including a declining belief in human nature s universality and the rise of biological classification The racial typing of human beings grew from the need to understand humanity within an all encompassing system of nature alongside plants minerals primates and other animals While racial difference as seen through science did not arise in order to justify the enslavement of people it became a rationalization and buttress for the practices of trans Atlantic slavery From the work of Francois Bernier to G W Leibniz Immanuel Kant and others Smith delves into philosophy s part in the legacy and damages of modern racism With a broad narrative stretching over two centuries *Nature Human Nature and Human Difference* takes a critical historical look at how the racial categories

that we divide ourselves into came into being Psychology, Or, A View of the Human Soul Frederick August Rauch,1853

The Future of Mankind's End Raymond Bradley,2020-03-25 Mankind has struggled for a long time but help came The Orgs an alien race gave the Earth and mankind a second chance to move forward But Hocast and others knew that they were hiding something and they needed to stop them before they took over completely War was coming and the heroes must stand together and fight for Earth and themselves before it s too late Democracy, Equality, and Justice Matt Matravers,Lukas

Meyer,2015-04-08 In addressing democracy equality and justice together the book stimulates discussions that go beyond the sometimes increasingly technical and increasingly discrete literatures that now dominate the study of each concept The chapters fall into four categories on justice and democracy justice and equality justice and community and justice and the future Concerns of justice unite all the chapters in this volume However these concerns now manifest themselves in interesting and new directions Politically the book confronts urgent problems of democracy equality community and of how to respond to potentially catastrophic climate change The response to these problems cannot only be pragmatic and piecemeal What emerges are a number of interlinking questions and themes that together constitute the central core of contemporary political philosophy This book was previously published as a special issue of the Critical Review of Social and Political Philosophy **The Equality of Flesh** Brent Dawson,2024-06-15 The Equality of Flesh traces a new genealogy of

equality before its formalization under liberalism While modern ideas of equality are defined through an inner human nature Brent Dawson argues that the sixteenth and seventeenth centuries conceptualized equality as an ambivalent and profoundly bodily condition Everyone was made from the same lowly matter and as a result shared the same set of vulnerabilities needs and passions Responding to the political upheavals of colonialism and the intellectual turmoil of new natural philosophies leading figures of the English Renaissance including Edmund Spenser and William Shakespeare anxiously imagined that bodily commonality might undermine differences of religion race and class As the period progressed later authors developed the revolutionary possibilities of bodily equality even as new ideas of fixed racial inequality emerged Some like the utopian radical Gerrard Winstanley and the republican poet John Milton challenged political absolutism through the idea of humans as base embodied creatures Others like the heterodox philosopher Margaret Cavendish the French theologian Isaac La Peyr re and the libertine Cyrano de Bergerac offered limited yet important interrogations of racial paradigms This moment Dawson shows would pass as bodily equality was marginalized in the liberal theories of John Locke and Thomas Hobbes In its place during the Enlightenment pseudoscientific racism would come to anchor inequality in the body Contending with the lasting implications of material equality for modernity The Equality of Flesh shows how increasingly vehement notions of racial difference eclipsed a nascent sense of human commonality rooted in the basic stuff of life **Psychology; Or, A View of the Human Soul, Including Anthropology, Adapted for the Use of Colleges** Friedrich August Rauch,1841

Aristotle's Anthropology Geert Keil,Nora Kreft,2019-05-30 The first collection of essays on Aristotle s philosophy of

human nature covering the metaphysical biological and ethical works
