Yes, we know William the Conqueror beat King Harold at the Battle of Hastings. We know George III was mad, but what else do we know about his 60-year-long reign? We know Henry VIII famously had six wives, but do we know much more about him other than he was very fat? The British monarchy is one of the oldest in the world, dating so far back that even its origins are the subject of debate: Was William the Conqueror the first king of England, or was it Alfred the Great? In this third instalment of the series that began with *The Prime Ministers* and *The Presidents*, Iain Dale charts this long history of the English and British monarchy with 64 essays by journalists, historians, and politicians on every individual to have sat on the throne, as well as some who didn't. From Alfred the Great to Charles III, each essay examines the monarch, their role, and what
