Kingdom Of Horror:

Kingdom of Horror J. H. Brennan, 1985 **Horror Film** Murray Leeder, 2018-01-25 An introduction to the horror film genre **Kingdom of Fear** Tim Underwood, Chuck Miller, 1986 Theology of Horror Ryan G. Duns, SJ, 2024-10-15

Theology of Horror explores the dark reaches of popular horror films bringing to light their implicit theological and philosophical themes Horror films scare and entertain us but there s more to be found in their narratives than simple thrills Within their shadows an attentive viewer can glimpse unexpected flashes of orthodox Christian belief In Theology of Horror Ryan G Duns SJ invites readers to undertake an unconventional pilgrimage in search of these buried theological insights Duns uses fifteen classic and contemporary horror films including The Blair Witch Project A Nightmare on Elm Street Candyman and The Purge as doorways to deeper reflection Each chapter focuses on a single film teasing out its implicit philosophical and theological themes As the reader journeys through the text a surprisingly robust theological worldview begins to take shape as glimmers of divine light emerge from the darkness Engaging and accessible Theology of Horror proves that rather than being the domain of nihilists or atheists the horror film genre can be an opportunity for reflecting on things visible and invisible as Christians profess in the Nicene Creed Grail Quest J. H. Brennan, 1985 **The Modern British Horror Film** Steven Gerrard, 2018-02-05 When you think of British horror films you might picture the classic Hammer Horror movies with Christopher Lee Peter Cushing and blood in lurid technicolor Yet British horror has undergone an astonishing change and resurgence in the twenty first century with films that capture instead the anxieties of post Millennial viewers Tracking the revitalization of the British horror film industry over the past two decades media expert Steven Gerrard also investigates why audiences have flocked to these movies To answer that question he focuses on three major trends hoodie horror movies responding to fears about Britain s urban youth culture great outdoors films where Britain s forests caves and coasts comprise a terrifying psychogeography and psychological horror movies in which the monster already lurks within us Offering in depth analysis of numerous films including The Descent Outpost and The Woman in Black this book takes readers on a lively tour of the genre s highlights while provocatively exploring how these films reflect viewers gravest fears about the state of the nation Whether you are a horror buff an Anglophile or an Anglophobe The Modern British Horror Film is sure to be a thrilling read **Transnational Horror Across Visual Media** Dana Och, Kirsten Strayer, 2013-10-15 This volume investigates the horror genre across national boundaries including locations such as Africa Turkey and post Soviet Russia and different media forms illustrating the ways that horror can be theorized through the circulation reception and production of transnational media texts Perhaps more than any other genre horror is characterized by its ability to be simultaneously aware of the local while able to permeate national boundaries to function on both regional and international registers The essays here explore political models and allegories questions of cult or subcultural media and their distribution practices the relationship between regional or cultural networks and the legibility of international horror

iconography across distinct media The book underscores how a discussion of contemporary international horror is not only about genre but about how genre can inform theories of visual cultures and the increasing permeability of their borders

Landscape of Fear Tony Magistrale,1988 One of the very first books to take Stephen King seriously Landscape of Fear originally published in 1988 reveals the source of King s horror in the sociopolitical anxieties of the post Vietnam post Watergate era In this groundbreaking study Tony Magistrale shows how King s fiction transcends the escapism typical of its genre to tap into our deepest cultural fears that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction that our technologies have progressed to the point at which the individual has now become expendable and that our fundamental social institutions school marriage workplace and the church have beneath their veneers of respectability evolved into perverse manifestations of narcissism greed and violence Tracing King s moralist vision to the likes of Twain Hawthorne and Melville Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature Like his literary forbears King gives us characters that have the capacity to make ethical choices in an imperfect often evil world Yet he inscribes that conflict within unmistakably modern settings From the industrial nightmare of Graveyard Shift to the breakdown of the domestic sphere in The Shining from the techno horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie Magistrale charts the contours of King s fictional landscape in its first decade
