**The Official Book of King's Quest** Donald B. Trivette,1993      **Tales of the Quest** Katherine Woodbury,2016-09-28  
Ah the Quest The sight of chivalric knights setting forth on heroic tasks to win the hand of the fair princess stirs any heart This fourth installment in the Roesia Chronicles explores the dark and violent beginnings of the Quest up to its pragmatic and often humorous present Amidst all the game playing will true love and genuine respect still triumph Therein lies quite the tale      **What Is Your Quest?** Anastasia Salter,2014-11-01 What Is Your Quest examines the future of electronic literature in a world where tablets and e readers are becoming as common as printed books and where fans are blurring the distinction between reader and author The construction of new ways of storytelling is already underway it is happening on the edges of the mainstream gaming industry and in the spaces between media on the foundations set by classic games Along these margins convergent storytelling allows for playful reading and reading becomes a strategy of play One of the earliest models for this new way of telling stories was the adventure game the kind of game centered on quests in which the characters must overcome obstacles and puzzles After they fell out of fashion in the 1990s fans made strenuous efforts to keep them alive and to create new games in the genre Such activities highlight both the convergence of game and story and the collapsing distinction between reader and author Continually defying the forces of obsolescence fans return abandoned games to a playable state and treat stories as ever evolving narratives Similarly players of massive multiplayer games become co creators of the game experience building characters and creating social networks that recombine a reading and gaming community The interactions between storytellers and readers between programmers and creators and among fans turned world builders are essential to the development of innovative ways of telling stories And at the same time that fan activities foster the convergence of digital gaming and storytelling new and increasingly accessible tools and models for interactive narrative empower a broadening range of storytellers It is precisely this interactivity among a range of users surrounding these new platforms that is radically reshaping both e books and games and those who read and play with them      **Lords of the Jungle #1** Corinna Bechko,2016-03-16 Tarzan has long been the protector of his jungle stronghold but this time the fight has to be taken to his enemy s territory deep in the heart of London Half a world away and nearly a century later Sheena is battling foes of her own when she is mysteriously swept through time and space to 1930 s Africa leaving her own land unprotected Will these two Lords of the Jungle find enough common ground to join forces Or will the resulting culture clash lead to mutual destruction      *Adventure Games* Aaron A. Reed,John Murray,Anastasia Salter,2020-02-20 The genre of adventure games is frequently overlooked Lacking the constantly evolving graphics and graphic violence of their counterparts in first person and third person shooters or role playing games they are often marketed to and beloved by players outside of mainstream game communities While often forgotten by both the industry and academia adventure games have had and continue to have a surprisingly wide influence on contemporary games in categories including walking

simulators hidden object games visual novels and bestselling titles from companies like Telltale and Campo Santo In this examination of heirs to the genre's legacy the authors examine the genre from multiple perspectives connecting technical analysis with critical commentary and social context This will be the first book to consider this important genre from a comprehensive and transdisciplinary perspective Drawing upon methods from platform studies software studies media studies and literary studies they reveal the genre's ludic and narrative origins and patterns where character and the player's embodiment of a character is essential to the experience of play and the choices within a game A deep structural analysis of adventure games also uncovers an unsteady balance between sometimes contradictory elements of story exploration and puzzles with different games and creators employing a multitude of different solutions to resolving this tension **The**

**Mighty Warrior Kings** Philip J. Potter, 2020-04-30 The epic victories and struggles of nine kings from the restoration of the western Roman empire by Charlemagne to the battles of Robert the Bruce The Mighty Warrior Kings traces the history of early Europe through the biographies of nine kings who had the courage determination and martial might to establish their dominance over the fragmented remnants of the Roman Empire The book begins with Charlemagne who united large regions of current day France Germany and Italy into the Holy Roman Empire and ends with Robert the Bruce who gallantly defended Scotland against the attempted usurpation of England There are many famous warrior kings in the book including Alfred the Great of Wessex whose victories over the Vikings led to the unification of England under a single ruler William I of Normandy whose triumph at Hastings in 1066 changed the course of English history while Frederick I Barbarossa led his army to victory in Germany and Italy solidifying and expanding the lands under the suzerainty of the Holy Roman Emperor Among the lesser known monarchs discussed in the work are Cnut whose victory at the battle of Ashington won the English crown and resulted in the creation of the North Sea Empire which ruled over the kingdoms of England Denmark and Norway while during the reign of Louis IX of France the knights of Europe answered his call for the Seventh Crusade to expel the Muslims from the Holy City of Jerusalem From Charlemagne to Robert the Bruce the warrior kings created a new Europe with a centralized power base and set the stage for the following Age of Absolutism A most fascinating account Firetrench

book I liked the contrast between Van and Sang an ambitious gamer who lives to game and an aggressive agent who thinks it is a waste of time They were both likable and their banter cracked me up Grab Dante Doom s gripping LitRPG series Dragon Kings of the New World The Star Dragon The Black Dragon and The Iron Dragons are available for the first time as a boxset The Star Dragon When the real world is threatened it s up to the players in a virtual one to save it Van Vanyushin doesn t see the point in ever leaving the beautiful digital world of the game he loves and for good reason In the industrial wasteland he calls home it is often the only way people can experience life s simplest pleasures But his allegiance to the game is tested when an ambitious CIA agent named Sang Ngo calls upon him to help as she goes undercover in the game to investigate Draco the corporation responsible for creating the massively popular role playing game Dragon Kings of the New World Sang is a gifted hacker who feels nothing but contempt for those who waste their lives in what she sees as a false reality but when people start dying in the game she must find out why Van a talented gamer is her guide to navigate the world level up their newbie characters fast and get into some of the most dangerous areas of the game He dreams of becoming a pro gamer sponsored by Draco one day but his partnership with Sang threatens to expose secrets from his past that could jeopardize those plans The Black Dragon Mysteries abound as a dangerous game becomes deadly Dedicated gamer Van and his CIA agent partner Sang have successfully infiltrated Dragons Kings of the New World but the further they go the more questions arise They return to find that the in game kingdom of Silver Peak which Van once ruled as one of the most powerful players in the game has now fallen into disrepair There they recruit a mercenary party of adventurers from among Van s old comrades and venture to find the hidden realm of Bloodrock which Van suspects could hold the key to the game s mysterious origins The Iron Dragons Can two fugitives beat Draco at its own game Van and Sang are on the run forced to log on and play Dragons of the New World from a dank basement hideout with borrowed characters while the world crumbles around them Sang is losing hope after being fired by the CIA but Van s resolve is only growing
