

KINSEY:

The Red Queen & The Grand Scheme

In 1948, the Institute for Sex Research at Indiana University was led by eugenicist Alfred C. Kinsey, whose sex research shook America's moral foundations and launched the 1960s Sexual Revolution. Fifty years later new revelations confirm Dr. Judith Reisman's 1981 expose of scientific fraud and criminally derived data contained in the publicly funded Kinsey Reports. Dr. Reisman revealed that Kinsey conducted human experiments in a soundproof laboratory built to his specifications at Indiana University, and that the sexual abuse of at least 317 infants and young boys was a scientific protocol for Kinsey's 1948 report. Dr. Reisman discloses for the first time the ongoing consequences to the American people and the world based on Kinsey's deliberately skewed research. Kinsey died in 1956 but his Institute endures today under the expanded title of "The Kinsey Institute for Research in Sex, Gender and Reproduction," suggesting an even more ominous threat to human rights and liberty.

Kinsey Crime Consequences:

Sexual Freedom and Its Impact on Economic Growth and Prosperity Feler Bose, 2024-12-20 Many today believe that all forms of freedom economic political and sexual are inherently beneficial However J D Unwin argues that limiting sexual freedom is crucial for cultural and economic advancement He observed that sexual freedom and economic freedom are substitutes but did not fully explain why In this book Feler Bose aims to provide a causal explanation for what he calls Unwin s thesis Unwin suggests that Pauline absolute monogamy was essential for the sustained economic growth experienced by Northwest Europe particularly England Regarding this the Protestant Reformation played a pivotal role by promoting literacy and Bible reading which helped internalize norms across a broad section of the population This cultural shift contributed to the economic takeoff in the nineteenth century The book also examines various theories on why rapid economic growth occurred in England and argues that these theories are incomplete without considering Unwin s thesis By understanding the relationship between sexual norms and economic development we can gain deeper insights into the factors that drive societal progress This exploration highlights the importance of cultural and moral frameworks in shaping economic outcomes and underscores the complex interplay between different forms of freedom

Intellectual Morons

Daniel J. Flynn, 2004-09-21 Why do well educated antiwar activists call the president of the United States the new Hitler and argue that the U S government orchestrated the September 11 attacks Why does Al Gore believe that cars pose a mortal threat to the security of every nation Why does the Princeton professor known as the father of the animal rights movement object to humans eating animals but not to humans having sex with them and why does PETA defend that position In other words why do smart people fall for stupid ideas The answer Daniel J Flynn reveals in Intellectual Morons is ideology Flynn the author of Why the Left Hates America shows how people can be so blinded to reality by the causes they serve that they espouse bizarre sometimes ridiculous and often dangerous positions The most influential social movements have spawned ideologues who do not care whether an idea is good or bad true or false but only whether it can serve their cause It is startling how many Americans and particularly how many media academic and political elites fall for bad ideas The trouble is their lies become institutionalized as truth and we all suffer as a result In Intellectual Morons Flynn reveals How rabid anti Americans simply parrot the delusional claims of a few gurus How the environmental movement spawned by a scientist whose doomsday predictions are almost always wrong has bred fanaticism stupidity and dishonesty How the hero of the animal rights crowd is a crank who promotes infanticide and euthanasia How a scientific fraud and pervert launched the sexual revolution How abortion rights activists ignore or cover up the fact that their matron saint advocated eugenics and concentration camps How our universities have become hothouses of leftist ideology How historians and journalists have airbrushed history to turn a racial separatist into a civil rights icon Filled with jaw dropping lapses in common sense from even our most celebrated opinion leaders Intellectual Morons is a welcome reality check for the glaring excesses of today s

political and cultural debates This is a sophisticated pile driver of a book guiding us through the wiles of great luminaries of the netherworld And such liveliness in the writing and such erudition I was quite fascinated by Intellectual Morons William F Buckley Jr Intellectual Morons is exceptionally aptly named The thought of all that brainpower going down the intellectual drain is sad but Daniel Flynn s description of it is hilariously on point This is must reading G Gordon Liddy Intellectual Morons is a delight a wonderful intellectual history of the past hundred years Flynn ably describes the purveyors of the bad ideas that have undermined our free society Burton W Folsom Jr professor of history Hillsdale College A famous bit of folk wisdom says You ve got to stand for something or you ll fall for anything Some of the crackpot notions now fashionable in academic circles as here documented by Daniel Flynn suggest that saying is an understatement If you want to know how crazy and scary intellectual morons can get you have to read this book M Stanton Evans author of The Theme Is Freedom contributing editor to Human Events

The Kinsey Institute Judith A. Allen, Halliameda E. Allinson, Andrew Clark-Huckstep, Brandon J. Hill, Stephanie A. Sanders, Liana Zhou, 2017-09-01 An in depth history of Alfred Kinsey s groundbreaking Institute for Sex Research and the cultural awakening it inspired in America it has no rival Angus McLaren While teaching a course on Marriage and Family at Indiana University biologist Alfred Kinsey noticed a surprising dearth of scientific literature on human sexuality He immediately began conducting his own research into this important yet neglected field of inquiry and in 1947 founded the Institute for Sex Research as a firewall against those who opposed his work on moral grounds His frank and dispassionate research shocked America with the hidden truths of our own sex lives and his two groundbreaking reports Sexual Behavior in the Human Male 1948 and Sexual Behavior in the Human Female 1953 both became New York Times bestsellers In The Kinsey Institute The First Seventy Years Judith A Allen and her coauthors provide an in depth history of Kinsey s groundbreaking work and explore how the Institute has continued to make an impact on our culture Covering the early years of the Institute through the Sexual Revolution into the AIDS pandemic of the Reagan era and on into the internet hook up culture of today the book illuminates the Institute s enduring importance to society

Histories of Sexology Alain Giami, Sharman Levinson, 2021-07-12 Histories of Sexology Between Science and Politics takes an interdisciplinary and reflexive approach to the historiography of sexology Drawing on an intellectual history perspective informed by recent developments in science and technology studies and political history of science this book examines specific social cultural intellectual scientific and political contexts that have given shape to theories of sexuality but also to practices in medicine psychology education and sexology Furthermore it explores various ways that theories of sexuality have both informed and been produced by sexologies as scientific and clinical discourses about sex in Western countries since the 19th century

Pervert's Progress Joseph Weigel, 2024-04 Why is it that we aren t supposed to be able to know what a man or woman is today and why are children being deceived about these basic categories Pervert s Progress answers these and a host of other questions This

book traces the intellectual roots of Queer Theory from Marx to more recent figures like Herbert Marcuse and Michelle Foucault and the development of sex education is explored all the way back to Alfred Kinsey and his pedophilic experiments Finally the occult origins and orientation of Social Emotional Learning SEL are examined But it doesn't end in despair By drawing from some of the most foundation works of the West including those of both Athens and Jerusalem a path of hope is provided

Vita Sexualis Ralph M. Leck, 2016-03-30 Karl Ulrichs's studies of sexual diversity galvanized the burgeoning field of sexual science in the nineteenth century But in the years since his groundbreaking activism has overshadowed his scholarly achievements Ulrichs publicly defied Prussian law to agitate for gay equality and marriage and founded the world's first organization dedicated to the legal and social emancipation of homosexuals Ralph M Leck returns Ulrichs to his place as the inventor of the science of sexual heterogeneity Leck's analysis situates sexual science in a context that includes politics aesthetics the languages of science and the ethics of gender Although he was the greatest nineteenth century scholar of sexual heterogeneity Ulrichs retained certain traditional conjectures about gender Leck recognizes these subtleties and employs the analytical concepts of modernist *vita sexualis* and traditional *psychopathia sexualis* to articulate philosophical and cultural differences among sexologists Original and audacious *Vita Sexualis* uses a bedrock figure's scientific and political innovations to open new insights into the history of sexual science legal systems and Western amatory codes

The Detransition Diaries Jennifer Lahl, Kallie Fell, 2024-02-29 We live in unprecedented times when what was known for thousands of years that we are created male and female is now up for debate It is now controversial to see that sex is binary that a man can never become a woman nor a woman a man and that men should not enter women's sports women's bathrooms and women's prisons merely for saying that they are a woman We are witnessing a rapid rise in gender confusion among young people especially among young women and girls The *Detransition Diaries* is both personal and historical It is personal in that it recounts the stories of five women and two men who felt they were born in the wrong body and believed the lie they were told by peers teachers and medical professionals that they could be their true selves by medically and surgically altering their bodies to match the opposite sex Their stories describe the short and long term harm that so called gender affirmative medicine did to their mental and physical health The book is historical because it outlines the history of the gender affirmation movement including the various individuals and organizations who have peddled the idea that the sexual binary is arbitrary The book closes with an analysis on how this dark chapter in medical abuse might end and what is needed for medicine to regain its obligation to do no harm

Moral Darwinism Benjamin Wiker, 2009-09-20 Abortion Euthanasia Infanticide Sexual promiscuity Ideas and actions once unthinkable have become commonplace We seem to live in a different moral universe than we occupied just a few decades ago Consent and noncoercion seem to be the last vestiges of a morality long left behind Christian moral tenets are now easily dismissed and have been replaced with what is curiously presented as a superior more magnanimous respectful and even humble morality How did we end up so far away from where

we began Can the decline be stopped Ben Wiker in this provocative and insightful book traces the amazing story that explains our present cultural situation Wiker finds the roots of our moral slide reaching all the way back to the ethical theory and atheistic cosmology of the ancient Greek philosopher Epicurus Christian teaching had been in contention with this worldview long before it reached its pinnacle with the rise and acceptance of Darwinism But it was Darwinism Wiker contends that provided this ancient teaching with the seemingly modern and scientific basis that captured twentieth century minds Wiker demonstrates that this ancient atomistic and materialistic philosophy supplies the guiding force behind Darwinism and powerfully propels the hedonistic bent of our society while promoting itself under the guise of pure science This book is a challenge not only to those who believe Darwinism to be purely scientific fact but to Christian who have at times inconsistently lived out their Christian moral convictions and so have failed to recognize and address the ancient corrosive underpinnings of our present moral and intellectual crisis Time for a Pure Revolution Doug Herman,2004 An exciting new angle on purity that gives parents powerful and practical encouragement to motivate their teens to take a stand against the cultural norm Doug Herman explains the challenges teens face challenges of love identity and the influence of character on sexual choices and shows the critical role parents play in creating character and purity within their teens and ultimately igniting a Pure Revolution **Indianapolis Monthly** ,2004-11 Indianapolis Monthly is the Circle City s essential chronicle and guide an indispensable authority on what s new and what s news Through coverage of politics crime dining style business sports and arts and entertainment each issue offers compelling narrative stories and lively urbane coverage of Indy s cultural landscape *Republican Gomorrah* Max Blumenthal,2010-02 Republican Gomorrah Blumenthal s remarkable muckraking debut is a bestiary of dysfunction scandal and crime from the heart of the movement that runs the Republican Party Blumenthal describes with no holds barred detail the people and the beliefs that establishment Republicans like John McCain have to kowtow to if they have any hope of running for president and how moderates have been systematically purged from party ranks He shows why the unqualified Sarah Palin was the party s only logical choice and how her most fanatical supporters will be setting the strategy for the Republican assault on the Obama administration Blumenthal warns that the Christian right will quietly exploit the widespread financial misery caused by the economic meltdown while mainstream media pundits churn out faddish and unfounded tales of the movement s death More than just an exposé Republican Gomorrah reveals that many of the movement s leading figures are united by more than political campaigns they are bound together by a shared sensibility rooted in private trauma Their lives have been stained by crisis and scandal depression mental illness extra marital affairs struggles with homosexual urges addiction to drugs and pornography serial domestic abuse and even murder For the most zealous foot soldiers of the right the crusade to cleanse the land of sin was in fact a quest to purify their souls **i missed me after the terror, during the years of unbearable sorrow:** Alan Allen,2010-04-30 Spring 2010 Local parents warned about priests and nuns who gang rape and prostitute kids tweens of ten

Darwin Day in America John G. West, 2014-04-22 At the dawn of the last century leading scientists and politicians giddily predicted that science especially Darwinian biology would supply solutions to all the intractable problems of American society from crime to poverty to sexual maladjustment Instead politics and culture were dehumanized as scientific experts began treating human beings as little more than animals or machines In criminal justice these experts denied the existence of free will and proposed replacing punishment with invasive cures such as the lobotomy In welfare they proposed eliminating the poor by sterilizing those deemed biologically unfit In business they urged the selection of workers based on racist theories of human evolution and the development of advertising methods to more effectively manipulate consumer behavior In sex education they advocated creating a new sexual morality based on normal mammalian behavior without regard to longstanding ethical and religious imperatives Based on extensive research with primary sources and archival materials John G West s captivating *Darwin Day in America* tells the story of how American public policy has been corrupted by scientistic ideology Marshaling fascinating anecdotes and damning quotations West s narrative explores the far reaching consequences for society when scientists and politicians deny the essential differences between human beings and the rest of nature It also exposes the disastrous results that ensue when experts claiming to speak for science turn out to be wrong West concludes with a powerful plea for the restoration of democratic accountability in an age of experts

Killing the Planet Rodney Howard-Browne, Paul L. Williams, 2019-11-05 In *Killing the Planet* How A Financial Cartel Doomed Mankind best selling authors Rodney Howard Browne and Paul L Williams investigate the true motives and consequences of the Pilgrim Society Early members of the Society included J P Morgan Andrew Carnegie Andrew Mellon Cornelius Vanderbilt Paul Warburg Mortimer I Schiff Otto Kahn and John D Rockefeller Although the Pilgrim Society and the powerful men involved are often praised for their philanthropic actions Howard Browne and Williams show that the Society was self serving and subjected the American people to a brutal system of economic tyranny one which is still in place today As a sequel to *The Killing of Uncle Sam* *Killing the Planet* is a thoroughly documented and

impeccably researched book with over 1 500 footnotes It shows how mankind has become enslaved within the Luciferian world system that is managed and controlled by the world s wealthiest families The book is not full of conspiracy theories but instead unfortunately for all of humanity full of gut wrenching facts **A Bush & Botox World** Saul Landau,2007 The signs are everywhere Americans are growing tired of being the suckers born every minute No Longer on Pedestals Carol A. Kuhnert,2015-01-08 Carol Kuhnert always trusted priests completely As a child growing up in a strict Catholic family clergy stood on pedestals next to God in her eyes When her brother Norman expressed a desire to become a priest and entered the seminary after eighth grade Carol had no idea that one day her daughter would reveal a shocking secret Norman was a serial pedophile Stunned and angered by what she learned Carol not only reveals how she confronted her brother and the Catholic Church but also reflects on the events that led up to that moment providing a poignant glimpse into her faith her belief that priests were infallible and her trust in the church its leaders and their assurance to her that they were handling everything But as time passed and Carol struggled to understand why molesters were being left in active ministry and victims were being ignored she details how she embarked on a purposeful crusade to prompt the church to take action and bring justice and hope to its sexual abuse victims No Longer on Pedestals shares the powerful and inspirational true story of one womans journey to the truth and her subsequent heartfelt mission to reach out to abuse survivors after she learns her brother is a pedophile priest
