## **Kinship Community In Two Chinese Villages:**

**Kinship & Community in Two Chinese Villages** Burton Pasternak, 1972 Studies on two villages Chungshe and Tatieh in China formerly Taiwan **Kinship Organization in Late Imperial China, 1000-1940** Patricia Buckley Ebrey, James L. Watson, 2024-07-26 One of the most important questions facing scholars of China is how Chinese society is held together It is now well known that China has been marked by great diversity In the realm of social customs not only were there broad regional or class differences but also at a local level the people in one village might adopt a different set of practices from those of neighboring communities Yet the majority of these varied practices seems to have fit within a frame that was distinctly Chinese Thus scholars must also ask how people of dissimilar occupations and economic interests living in widely separated parts of the country came to recognize and act on a common set of cultural beliefs Explaining the variations in Chinese society requires minute knowledge of local conditions Explaining the uniformities requires historical understanding of the processes involved in the spread of ideas and practices and the ways by which some came to be considered standard Given the available sources on Chinese society neither of these tasks is simple The study of kinship and kinship organizations provides one of the best ways to approach the coexisting uniformities and variations of Chinese society This edited volume is the collaboration of historians and social scientists and this collaboration is required if we are to learn enough about kinship in Chinese society to explain both the uniformities and the variations The substantive papers are all written by historians but these historians have raided the stock of anthropological terms models and theories tried to use technical terms in a consistent and well defined way implicitly addressed anthropologists on the issues that seem to fascinate them and responded to the suggestions and criticisms of the anthropologists who have read their papers At the same time however they remain historians and do not ignore the types of issues such as historical context and change over time with which historians have always dealt The editors believe that this type of collaboration has distinct advantages over the more usual approach to transcending disciplinary boundaries by placing articles by historians and social scientists side by side in the same volume If we have been successful social scientists should find issues of interest in the chapters and historians should find them full of the substance of history and not too long winded in the belaboring the obvious This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986

**Two-Dimensional People** Tan Tongxue, 2022-12-30 Based on almost eight years of fieldwork in a town and a village in South China this book analyzes contradictions among various dimensions of the peasant economy social relationships popular religion and local politics in rural China Compared to many anthropological sociological and political studies of rural China which regard Chinese peasants as one dimensionally materialistic politically conservative egocentric lacking public

mindedness as in anthropologist Yan Yunxiang's notion of the uncivil individual with collapsed beliefs and thinking only of the present or the today-ness of today according to anthropologist Liu Xin this book shows that people in contemporary rural China are actually two-dimensional trying to combine the calculation of self-interest with affective networks of reciprocity but often falling into awkwardness or cynicism in a paradoxical symbiosis between nihilism and transcendence While Marcuse used the words of Benjamin to analyze one-dimensional man writing Only for the sake of the hopeless ones have we been given hope this book writes of two-dimensional people Only when the vast majority of ordinary people can find hope in everyday life can we finally be given hope This book will be of interest to scholars and students of Sociology Anthropology and East Asian Studies It will also be a great read to those who are interested in contemporary China in general

**The Cult of the Dead in a Chinese Village**, 1973-06 This study deals primarily with Ch'in-an a village in northern Taiwan whose residents belong to one ethnic group Hokkien speaking Chinese whose ancestors made the journey from the southeast coast of mainland China over 200 years ago It deals almost exclusively with the complex of institutions associated with the care and management of the dead The book covers the history of Ch'in-an and how the village is organized today making use of historical records such as lineage genealogies Sociological correlates of ancestor worship in ancestral halls and before domestic altars are examined The darker side of ancestor worship is also explored in which the dead stand out as dangerous creatures capable of harming or frightening the living Perspective is then expanded to other parts of Taiwan to consider how the form of the community affects the cult of the ancestors how different reciprocal obligations between the living the dead affect ancestor worship and in what ways people react to the obligations of ancestor worship *Chinatown No More* Hsiang-Shui Chen, 2018-03-15 No detailed description available for Chinatown No More

**Ploughshare Village** Stevan Harrell, 2014-11-01 This anthropological study of a workers village in North Taiwan makes an important contribution to the comparative literature on Chinese and Taiwanese social organization Based on fieldwork conducted in 1973 and 1978 the study is exceptional not only because of its excellent data but also because the village itself was unique Unlike villages previously studied and written about Ploughshare was neither an agricultural nor a fishing village but rather one whose inhabitants earned their living mostly from coal mining knitting and other non-agrarian activities Culture and environmental context thus shaped social organization there differently than in other Taiwanese villages This ethnography links local data to surrounding socioeconomic spheres it shows the village's relationship to its region to Taiwan as a whole and to the international economy It also captures an important point in time as Taiwan was undergoing the economic miracle that brought it into the ranks of developed countries Stevan Harrell's new preface highlights changes not only in the village over the last several decades but also in the ways that anthropologists think about culture and Taiwan Ploughshare Village with its rich descriptions and analyses will be of value to anthropologists sociologists economists and China specialists Family David Cheal, 2003 This international collection features the most influential scholarship published during the past few

decades on the concept of the family and related issues An invaluable resource for students and researchers alike the four volumes cover the following themes Vol 1 Family Groups Vol 2 Family and Gender Issues Vol 3 Family Ties Vol 4 Family and Society The scope offers an international range of material and includes key work from the USA Europe Canada Australia and Asia

**Forest and Land Management in Imperial China** N. Menzies, 1994-09-01 Although China is generally considered to have suffered continuous deforestation over most of its history forests were protected or even planted and maintained for centuries in some places This study identifies six such cases It uses historical evidence to show that individuals and communities act to manage resources sustainably for a number of reasons including economic benefit religious or symbolic purposes and that sustainability of the management system depends on the form of control exerted over the resource

**The Individualization of Chinese Society** Yunxiang Yan, 2020-08-19 Chinese society has seen phenomenal change in the last 30 years Two of the most profound changes have been the rise of the individual in both public and private spheres and the consequent individualization of Chinese society itself Yet despite China s recent dramatic entrance into global politics and economics neither of these significant shifts has been fully analysed China may indeed present an alternative model of social transformation in the age of globalisation so its path to development may have particular implications for the developing world The Individualization of Chinese Society reveals how individual agency has been on the rise since the 1970s and how this has impacted on everyday life and Chinese society more broadly The book presents a wide range of detailed case studies on the impact of economic policy patterns of kinship changes in marriage relations and the socio economic position of women the development of youth culture the politics of consumerism and shifting power relations in everyday life

**Hakka Chinese Confront Protestant Christianity, 1850-1900** Jessie Gregory Lutz, Rolland Ray Lutz, 2015-03-04 This work focuses on the 19th century mission conducted by Chinese evangelists among the Hakka an ethnic minority in south China The principal part of the text comprises the autobiographies of eight pioneer missionaries who offer insight into village life and customs of the Hakka people

**Hakka Chinese Confront Protestant Christianity, 1850-1900** Jessie G. Lutz, Rolland Ray Lutz, 1998-01-16 The Basil Society s China mission one of the more successful Protestant missions in the nineteenth century was distinguished by the fact that most of the initial proselytizing was conducted by Chinese converts in the interior rather than by Western missionaries in the treaty ports Thus the first viable protestant communities were not only established by Chinese evangelists they were established among an ethnic minority in south China the Hakka people The autobiographies of eight pioneer Chinese missionaries featured in this book offer an unusual opportunity to view village life and customs in

Guangdong during the mid nineteenth century by providing details on Hakka death and burial rituals ancestor veneration lineages and lineage feuds geomancy the status of Hakka women widespread economic hardship and civil disorder They also illustrate the appeals of Christianity the obstacles to conversion and Chinese opposition to Christianity and Western missionaries The authors commentary addresses the issue of conversion which was fueled by individual desire for solace and salvation the building of a support community amid social chaos and the possibility of social mobility through education Despite an expanding role by Western missionaries the Chinese origins the rural interior locale and the status of the Hakka as a disadvantaged minority contributed to successive generations of Christian families and to early progress toward an autonomous Hakka church

*Social Organization in South China, 1911-1949* Yuen-fong Woon, 2020-08-06 Bridging the collapse of the Confucian state and the establishment of the People's Republic of China the period 1911-49 is particularly fascinating to historians anthropologists sociologists and political scientists Unfortunately it is also a very confusing period full of shifts and changes in economic social and political organizations The social implications of these changes and the relationships between officials on the subdistrict level the unofficial leaders and the bulk of the peasantry remain inadequately known South China which nurtured the Communist Party in its formative years is a particularly interesting case In this study I use the Kuan lineage of Kai ping as a case study to show the effects of demographic economic administrative and educational changes after the Treaty of Nanking 1842 on patrilineal kinship as a principle of social organization in South China vii
