Identity and Ritual in a Japanese Diving Village D. P. Martinez, 2004-04-30 Through her detailed description of a particular place Kuzaki cho at a particular moment in time the 1980s D P Martinez addresses a variety of issues currently at the fore in the anthropology of Japan the construction of identity both for a place and its people the importance of ritual in a country that describes itself as nonreligious and the relationship between men and women in a society where gender divisions are still very much in place Kuzaki is for the anthropologist both a microcosm of modernity and an attempt to bring the past into the present But it must also be understood as a place all of its own In the 1980s it was one of the few villages where female divers ama still collected abalone and other shellfish and where some of its inhabitants continued to make a living as fishermen Kuzaki was also a kambe or sacred guild of Ise Shrine the most important Shinto shrine in modern Japan home to Amaterasu the sun goddess Kuzaki s rituals affirmed a national identity in an era when attitudes to modernity and Japaneseness were being challenged by globalization Martinez enhances her fascinating ethnographic description of a single diving village with a critique of the way in which the anthropology of Japan has developed The result is a sophisticated investigation by a senior scholar of Japanese studies that while firmly grounded in empirical data calls on anthropological theory to construct another means of understanding Japan both as a society in which the collective is important and as a place where individual ambitions and desires can be expressed Folk Art Potters of Japan Brian Moeran, 2013-12-19 This is a study of a group of potters living in a small community in the south of Japan and about the problems they face in the production marketing and aesthetic appraisal of a kind of stoneware pottery generally referred to as mingei or folk art It shows how different people in an art world bring to bear different sets of values as they negotiate the meaning of mingei and try to decide whether a pot is art folk art or mere craft At the same time this book is an unusual monograph in that it reaches beyond the mere study of an isolated community to trace the origins and history of folk art in general By showing how a set

of aesthetic ideals originating in Britain was taken to Japan and thence back to Europe and the United States as a result of the activities of people like William Morris Yanagi So etsu Bernard Leach and Hamada Sho ji this book rewrites the history of contemporary western ceramics

Marriage in Changing Japan Joy Hendry,2010-10-18 This book approaches its subject from two angles First there is a detailed and descriptive analysis of the social organisation of and place of marriage in one community in Kyushu To this extent the study is a regional one and provides valuable ethnographic information The second angle however is to analyse this material in the light of other historical ethnographical writings on Japan which puts the regional material in a national context and brings together a great deal of information about Japanese marriage hitherto unpublished in English

Culture and Public Action

Vijayendra Rao, Michael Walton, 2004 Led by Amartya Sen Mary Douglas and Arjun Appadurai the distinguished anthropologists and economists in this book forcefully argue that culture is central to development and present a framework for incorporating culture into development discourse For further information on the book and related essays please visit www.cultureandpublication.org **Lineages of the Feminine** Emmanuel Todd, 2023-06-06 We are experiencing an

anthropological revolution We see it in the MeToo movement in the denunciation of femicide and in an increasingly vociferous critique of patriarchal domination Why this sudden rise of an antagonistic conception of the relationship between men and women at the very moment when progress is accelerating and when the goals of first and second wave feminism seem on the verge of being achieved In this book the anthropologist and historian Emmanuel Todd while not underestimating the importance of crucial inequalities that remain argues that the emancipation of women has essentially already taken place but that it has given rise to new tensions and contradictions As women gain more freedom they also gain access to traditional male social pathologies economic anxiety the disorientation of anomie and individual and class resentment But because they remain women with the ability to bear children their burden as human beings although richer is now more difficult to bear than that of men In order to understand our current condition Todd retraces the evolution of the male female relationship through the long history of the human species from the emergence of Homo sapiens a hundred thousand years ago to the present He also conducts a broad empirical study of the convergence between men and women today and of the differences that still separate them in education in employment and in relation to longevity suicide and homicide electoral behaviour and racism He explores the relations between women's liberation and other changes in contemporary societies such as the collapse of religion the decline of industry the decline of homophobia the rise of bisexuality and the transgender phenomenon and the decline in a sense of the collective life And he shows how and why Western countries and especially the Anglo American world Scandinavia and France are in their new feminist revolution perhaps less universal than they think

Lineages of Modernity Emmanuel Todd, 2019-06-10 In most developed countries there is a palpable sense of confusion about the contemporary state of the world Much that was taken for granted a decade or two ago is being questioned and there is a widespread urge to try and understand how we reached our present situation and where we are heading In this major new book the leading sociologist historical anthropologist and demographer Emmanuel Todd sheds fresh light on our current predicament by reconstructing the historical dynamics of human societies from the Stone Age to the present Eschewing the tendency to attribute special causal significance to the economy Todd develops an anthropological account of history focusing on the long term dynamics of family systems and their links to religion and ideology what he sees as the slow moving unconscious level of society in contrast to the conscious level of the economy and politics He also analyses the dramatic changes brought about by the spread of education This enables him to explain the different historical trajectories of the advanced nations and the growing divergence between them a divergence that can be observed in such phenomena as

the rise of the Anglosphere in the modern period the paradox of a Homo americanus who is both innovative and archaic the startling electoral success of Donald Trump the lack of realism in the will to power shown by Germany and China the emergence of stable authoritarian democracy in Russia the new introversion of Japan and the recent turbulent developments in Europe including Brexit This magisterial account of human history brings into sharp focus the massive transformations taking place in the world today and shows that these transformations have less to do with the supposedly homogenizing effects of globalization and the various reactions to it than with an ethnic diversity that is deeply rooted in the long history of human evolution

From Paddy Field to Ski Slope Okpyo Moon, 1989 *Marriage and the Family among the Yako in South-Eastern Nigeria* Darryl Forde, 2021-01-07 Originally published in 1951 this book analyses the social values and institutions involved in the establishment and maintenance of marital relationships Most of the data is derived from Umor the largest of the five Yak villages As well as considering the conventions through which marital values are expressed the relation of marital status to the general structure of Yak society is also discussed The book also determines the extent to which the values posited by the Yak themselves are actually operative and discusses the changing conditions which have modified traditional standards of marital behaviour

Crested Kimono Matthews Masayuki Hamabata, 1991-08 Matthews Hamabata got off to an unpromising start when he first arrived in Japan to study influential business families An unmarried third generation Japanese American graduate student he was there to learn about business executives in their roles as male principals and heads of households Some Japanese were less than hospitable and often downright rude to him and the souvenirs bearing the Harvard University emblem that he had brought along for gifts proved to be inappropriate within the highly ritualized system of Japanese gift giving In this engaging and personal narrative we watch Hamabata in the first disappointing six months of his fieldwork as he attempts to map the boundaries of culture class and sexuality I became my own biggest fieldwork problem he writes Was I inside or out When I thought I was in I was actually out but when I acknowledged the fact that I was out I was let in He soon recognized the importance of marital and filial relations in transmitting power in the business world and he began to direct his study to examining the social and emotional lives of all members of the Japanese ie household and the way they affect business activity and ownership He takes us behind the scenes of the family enterprise to see how the multiple layers of reality biological social religious emotional and symbolic relate and cause dilemmas for ie members Names locations and other details have been altered for the sake of anonymity We meet the Moriuchis the Itoos the Okimotos people who must constantly balance their own personal desires against the good of the ie Many telling vignettes illustrate a central tension in their lives their need for love power and emotional expression versus the constraints of traditional attitudes toward their ancestors public honor the economic enterprise and the obligation to continue the ie over time A grandfather stubbornly refuses to hand over the reins of succession to the next generation creating an impossible situation that eventually tears apart an economic empire as well as the fabric of various interrelated

families Economic familial and religious factors figure in a clash for succession between the person who possesses the ancestral tablets and the head of the enterprise A daughter must reconcile personal love with arranged marriage Ambitions for the son in line for succession war with the realization that this spoiled incompetent young man may well ruin the ie A fascinating portrait of everyday life told with vibrant sensitivity as well as humor this book is full of the vitality of common concerns life choices love and commitment confrontations with death It is about very real people trying to make sense of their lives trying to reconcile the roles and duties dictated by custom and tradition with rapidly changing expectations in the international milieu of contemporary Japan *Land Tenure in Ibo Village in South-Eastern Nigeria* M.
