L. Bierbrier, 2024-07-15 The period of Egypt's Ramesside empire is best known for its foreign wars and monumental buildings but the chronological history of many of its rulers and pre-eminent priests and their genealogies was poorly understood While it was not possible to fix the chronology exactly a combination of known dates or date ranges such as for the accession of Ramesses II and the determination of family trees that extended over a large period enabled Bierbrier to present a much closer definition of the span of individual dynasties and their key figures than had been possible previously That volume is reissued here in facsimile An important source of information is the genealogical references on funerary statues and tomb paintings though vocabulary

used is limited and often ambiguous There are also several types of statuary set up by individuals for different purposes most frequently by sons or descendants to cause the name of the deceased to live on many of which may have been created before the death of the individual commemorated Taking into account these and other difficulties Bierbrier's painstaking research proved groundbreaking in elucidating the chronology sequences of events and family connections of the period from the official families of the XIXth Dynasty through those of the XXVth

Library,1918 **Reading Food in Modern Japanese Literature** Tomoko Aoyama,2008-09-30 Literature like food is in Terry Eagleton's words endlessly interpretable and food like literature looks like an object but is actually a relationship. So how much do we and should we read into the way food is represented in literature? Reading Food explores this and other questions in an unusual and fascinating tour of twentieth century Japanese literature. Tomoko Aoyama analyzes a wide range of diverse writings that focus on food eating and cooking and considers how factors such as industrialization urbanization nationalism and gender construction have affected people's relationships to food nature and culture and to each other. The examples she offers are taken from novels shosetsu and other literary texts and include well known writers such as Tanizaki Jun ichiro Hayashi Fumiko Okamoto Kanoko Kaiko Takeshi and Yoshimoto Banana as well as those who are less widely known Murai Gensai Nagatsuka Takashi Sumii Sue and Numa Shozo. Food is everywhere in Japanese literature and early chapters illustrate historical changes and variations in the treatment of food and eating. Examples are drawn from Meiji literary diaries children's stories peasant and proletarian literature and women's writing before and after World War II. The author then turns to the theme of cannibalism in serious and popular novels. Key issues include ethical questions about survival colonization and cultural identity. The quest for gastronomic gratification is a dominant theme in gourmet novels. Like cannibalism the gastronomic journey as a literary theme is deeply implicated with cultural identity. The final chapter deals specifically with contemporary novels by women some of which celebrate the inclusiveness of eating and writing while others grapple with the fear of eating. Such dread or disgust can be seen as a warning against what the complacent gourmet boom of the 1980s and 1990s concealed the dangers of a market economy environmental destruction and continuing gender biases. Reading Food in Modern Japanese Literature will tempt any reader with an interest in food literature and culture. Moreover it provides appetizing hints for further savoring digesting and incorporating textual food.
