Hein Stolle Architect Furniture Designer And Story Teller:

Bruno Mathsson Dag Widman, Bruno Mathsson, Karin Winter, Nina Stritzler-Levine, Åke E:son Lindman, 2006-01-01 A complete survey of the life and work of master designer Bruno Mathsson whose archetypal Modernist chair is admired worldwide The sensuously undulant lines of Bruno Mathsson s furniture designs made him one of the leading figures of Swedish modernism in the 1930s Chairs that adapted to their occupant with graceful natural curves became his trademark and have been in continuous production for more than fifty years In his less familiar architectural work Mathsson 1907 1988 applied the same principles of innovative comfortable living Throughout his work the connections between design and ergonomics aesthetics and innovative materials energy saving and environmental concerns resonate for designers today This book surveys Mathsson s output as an architect and designer as well as his relationships with American architects and designers including Frank Lloyd Wright Charles and Ray Eames and Hans Knoll Extensive illustrations include unpublished photographs of his Mathsson s work in situ *Mies Van Der Rohe* Ludwig Mies van der Rohe, 2010 German architect Ludwig Mies van der Rohe is without doubt one of the pioneering masters of modern architecture The modern city with its towers of glass and steel can be at least in part attributed to his influence Equally significant if smaller in scale is Mies daring design of furniture pieces that exhibit an unerring sense of proportion as well as minimalist forms and exquisitely refined details After an apprenticeship with furniture designer Bruno Paul in Berlin he joined the office of architect Peter Behrens where he met Le Corbusier and Walther Gropius In the mid 1920s he began to design furniture pieces that he conceived and created for particular interiors Mies van der Rohe s furniture is known for fine craftsmanship a mix of traditional luxurious fabrics like leather combined with modern chrome frames and a distinct separation of the supporting structure and the supported surfaces His modern furniture pieces using new industrial technologies like the Barcelona chair and table 1929 and the Brno chair 1930 have become acclaimed icons of twentieth century design **Mies Van Der Rohe, Furniture and Interiors** Werner Blaser, 1982 The texts were written by a single person complemented by a report from a user the photographs reproduced in duotone all come from the same lens using an approach repeated again and again Both attempt to show the objective state of affairs of Mies van der Rohe s solitary buildings with carefully collected and organized materials An inner confrontation over decades opened up access to Mies oeuvre for Werner Blaser and thus to this publication The legacy of Mies van der Rohe s most fruitful intentions is thus visually assessed with in part unpublished picture material Those with a more critical attitude should also be creatively confronted with the roots of good architecture through the intensity of the presentation which will hopefully provide new stimulus BOOK JACKET Hein Stolle, architect meubelontwerper verteller Hein Stolle, Wiet Hekking, 2004
