Hellas Rome The Civilisation Of Class:

A history of Greece for junior classes, with an appendix giving a sketch of the history from the Roman conquest to the present day, by A. Gennadios Leonhard Schmitz,1875 The Historians' History of the World: Greece to the Roman conquest Henry Smith Williams,1904 , **The Hindustan Review** ,1925 **Russia and America: A**

Philosophical Comparison W.J. Gavin,J.E. Blakeley,2012-12-06 In this year of bicentennial celebration there will no doubt take place several cultural analyses of the American tradition This is only as it should be for without an extensive broad based inquiry into where we have come from we shall surely not foresee where we might go Nonetheless most cultural analyses of the American context suffer from a common fault the lack of a different context to use for purposes of comparison True American values and ideals were partly inherited from the European tradition But that tradition is in many ways an inadequate mode of comparison Without going too far afield let us note two points first European culture was the proud inheritor of the Renaissance tradition and going back still further of classical culture second the European countries are compact Their land masses are such that the notion of frontier simply would not have arisen in the same way as it did in America On the other side of the globe however there does exist a country capable of serving as a suitable mirror We speak of course of Russia That country also came relatively late onto the cultural horizon and was not privy to the Renaissance tradition Furthermore her land mass is such as to be experimentially infinite in character not unlike the American frontier It is hoped that much can be learned about the present cultural context by comparing the two countries in their youthful stages

Woman and Labour Olive Schreiner,2013-08-29 First published in 1911 this acclaimed and influential feminist classic is one of the most important of the twentieth century *Woman and Labour* Olive Schreiner,1911 *History of the Byzantine Empire, from DCCXVI to MLVII.* George Finlay,1906 South Africa, Greece, Rome Grant Parker,2017-08-31 How have ancient Greece and Rome intersected with South African histories This book canvasses architecture literature visual arts and historical memory Some of the most telling manifestations of classical reception in South Africa have been indirect for example neo classical architecture or retellings of mythical stories Far from being the mere handmaiden of colonialism and later apartheid classical antiquity has enabled challenges to the South African establishment and provided a template for making sense of cross cultural encounters Though access to classical education has been limited many South Africans black and white have used classical frames of reference and drawn inspiration from the ancient Greeks and Romans While classical antiquity may seem antithetical to post apartheid notions of heritage it deserves to be seen in this light Museums historical sites and artworks up to the present day reveal juxtapositions in which classical themes are integrated into South African pasts History of the Byzantine Empire from 716 to 1057 George Finlay,1853 **Library Catalog of the Metropolitan Museum of Art, New York** Metropolitan Museum of Art (New York, N.Y.). Prasanna Sengupta,1925 **Cyclopædia of biblical literature, abridged [by J. Taylor] from the larger work [ed.] by J. Kitto** John Kitto,1849 *General History of Western Nations from 5000 B.C. to 1900 A.D.* Emil Reich,1908 *Manual of Classical Literature* Johann Joachim Eschenburg,1836 *Notes on Books* ,1860 **The Historians' History of the World Vol.2 (of 25) (Illustrations)** Henry Smith Williams, Many a nation has walked God s earth has long enjoyed its good things has come into being and passed away without our knowing anything of its history or even whether it had a history at all For no nation has a history except one that makes history that is to say that influences the course of human development It is with races as with individuals none is kept in mind by posterity save those who have distinguished themselves by ideas that have modified the life of mankind or which comes to the same thing have been pioneers in fresh fields of action The greater the spiritual gain a nation has brought to the rest of the world the longer and more steadily its life has flowed in the channels it was the first to make the longer is its history told among them The nations of history are those which have put forward in one fashion or another their claim to the dominion of the world Thus we may fitly ask what claim it is that is made upon our interest by the history of the Jewish nation And the answer will be that nothing which excites our attention or stirs us to admiration or imitation in the history of other nations is here present in any large measure Israel was always a small nay a petty nation settled in a narrow space never of any considerable importance in the political history of the East it never brought forth a Ramses II a Sargon an Esarhaddon an Assurbanapal a Nebuchadrezzar or a Cyrus to bear its banner into distant lands Yet for all this the history of Israel has for us an interest quite different from that of those other nations of antiquity And if as we see Israel is far surpassed in martial glory by the peoples of the great empires and by the Romans in their influence on the development of law there are yet other points in which it must yield unquestioned precedence to other nations of antiquity We do not find in Israel the same feeling for beauty as among the Greeks who like no nation before them or after showed forth the laws of beauty in every sphere of intellectual life and to this day in such matters stand forth in a perfection which has never again been attained far less excelled Among the Hebrews there is nothing analogous nothing comparable to what we admire in the Hellenic people It has no epic nothing that can be compared with the Iliad and the Odyssey against which the Germans set the Nibelungen Lied and the Finns the Kalewala it has not the slightest rudiments of a drama the Song of Songs and Job are not dramas There is a school of lyrical poetry unsurpassed for all time and the music that corresponds to it But the bent towards science which actuates the Greeks is wholly lacking wholly lacking the bent towards 2 philosophy Nor was it ever eminent in ancient days in the walks of commerce enterprise and invention by which also a nation may conquer the world its intellectual life is absolutely one sided a one sidedness that produces on us the effect of extreme singularity But the attraction it has for us does not lie in this singularity It is due rather to the circumstance that this small nation has exerted a far greater influence over the course of the history of the whole human race than the Greeks or Romans that to us it has become typical in many more respects than they Our present modes of thought and feeling our

lives and actions are far more profoundly influenced by the world of thought and feeling which Israel brought to the birth than by that of Greece or Rome Our whole civilisation to day is saturated with tendencies and impulses which have their origin in Israel To be continue in this ebook **Catalogue** Baltimore Peabody inst, libr,1883 *Greece to the Roman conquest* Henry Smith Williams,1907
