only as good as its principal This quip forms the thesis of *Better Principals* as it provides a bird's eye view on the enactment of Haberman's eleven core functions of a star principal *Better Principals* is imperative for two main reasons First the achievement gap between 20 million children in poverty and their mainstream counterparts is continuing to become even wider Many students are constantly subjected to inequality of educational opportunity which limits their future opportunities Second Haberman is one of the most prolific producers of administrators of the twentieth century and into the twenty first century He reminds us that quality school systems with quality leaders benefit our society Haberman explained that there is often selection blindness when it comes to identifying school leaders and this deficiency has many negative consequences for education in general and learners in particular Haberman has generated theories training programs and tools to engender substantive changes needed to produce better schools Each chapter in this volume contains reflection questions for discussion to remind us all why selecting quality principals must be paramount when hiring school leaders These illustrative book chapters emphasize the execution of Haberman's star principal ideology Praise for *Better Principals* *Better Schools* Not every educator is suited to leading or teaching in the most challenging urban schools Yet nowhere else is excellence in leading and teaching more critical to the success of students This volume based on the pioneering work of Martin Haberman offers a practical response to those who say the task of instructional leadership is beyond the capability of principals The authors offer concrete examples of how successful urban school leaders find the time and capacity to inspire and manage learning under difficult conditions Just as important the authors ground their examples in a set of clear justifiable principles that can be used by others to guide their own practice Dr Philip Hallinger Professor Chulalongkorn University Thailand If great teaching and more of it are the key ingredients for any successful school then great leadership is the critical path *Better Principals* *Better Schools* turns this theory into model lessons for all current and aspiring school leaders Mike Feinberg Co founder KIPP Schools **Our Paper** ,1894 **Farmer's Weekly** ,1927 *Victoria [Cop's Daughter 1]* Laura Marie, BookStrand Romantic Suspense Homicide Detective Danny Mardullo is brutally murdered and when it comes to finding his killer no one seems to be more capable or more determined than his own daughter Taking the matter into her own hands Victoria an investigative reporter will do anything to solve the case Work undercover for the DEA and FBI No problem Date the man suspected of murdering her father She can do it Victoria is determined and she's willing to give up her life and lie to her own family After all she just lost her father and she's already lost her one true love Steven to the war in Iraq when he was listed as MIA She's got nothing to lose until her one true love shows up very much alive and intent on starting up things exactly where the two of them left off But she has a role to play and she's willing to risk it all for justice Note This book was previously published by a different publisher A BookStrand Mainstream Romance **Hey!
