challenged Edward Steichen to create the first artistic rather than merely documentary fashion photographs a moment that is now considered to be a turning point in the history of fashion photography As fashion changed over the next century so did the photography of fashion Steichen s modernist approach was forthright and visually arresting In the 1930s the photographer Martin Munkcsi pioneered a gritty photojournalistic style In the 1960s Richard Avedon encouraged his models to express their personalities by smiling and laughing which had often been discouraged previously Helmut Newton brought an explosion of sexuality into fashion images and turned the tables on traditional gender stereotypes in the 1970s and in the 1980s Bruce Weber and Herb Ritts made male sexuality an important part of fashion photography Today following the integration of digital technology teams like Inez Vinoodh and Mert Marcus are reshaping our notion of what is acceptable not just aesthetically but also technically and conceptually in a fashion photograph This lavishly illustrated survey of one hundred years of fashion photography updates and reevaluates this history in five chronological chapters by experts in photography and fashion history It includes more than three hundred photographs by the genre s most famous practitioners as well as important but lesser known figures alongside a selection of costumes fashion illustrations magazine covers and advertisements
