The Politics of the Crucified John C. Peet, 2021-07-30 Jesus died not peacefully in bed but on the cross the instrument of execution used by the Romans to keep potential disturbers of the established political order in their place Until the pioneering work of Jürgen Moltmann the cross has been the elephant in the room in Christian political theology This book explores the difference Jesus's crucifixion makes or should make to Christian political theology by examining the crucifixion in the theologies of the Mennonite John Howard Yoder and the liberation theologians Leonardo Boff and Jon Sobrino In the light of the cross and of the kenotic God revealed by the cross questions of political power are explored and a kenotic political ethic outlined In conclusion suggestions are made as to how the contemporary church can live out a cruciform or cross shaped political spirituality and ecclesiology

Religion and the Politics of Peace and Conflict Linda Hogan, Dylan Lee Lehrke, 2009-01-01 The connections between religion and violence are complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also

that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This collection explores aspects of this ambivalence between religion and violence It focuses on traditions of legitimation and pacifism within the three monotheistic religions Judaism Christianity and Islam and concludes with an examination of this ambivalence as it unfolds in each tradition s engagement with the politics of gender

Náyari History, Politics, and Violence Philip E. Coyle, 2016-03-04 In recent years the N yari Cora people of northwestern Mexico have experienced violence at the hands of drug producers and traffickers Although a drug economy may seem potentially lucrative to such peasants spreading violence tied to this trade threatens to destroy their community This book argues that the source of the problem lies not solely in drug trafficking but also in the breakdown of traditional political authority By studying the history of religious practices that legitimate such authority Philip Coyle shows that a contradiction exists between ceremonially based forms of political authority and the bureaucratic and military modes of power that have been deployed by outside governments in their attempts to administer the region He then shows how the legitimacy of traditional authority is renewed or undermined through the performance of ceremonies Coyle explores linkages between long term political and economic processes and changes in N yari ceremonial life from Spanish contact to the present day As a participant observer of N yari ceremonies over a ten year period he gained an understanding of the history of their ceremonialism and its connections to practically every other aspect of N yari life His descriptions of the Holy Week Festival

mitote ceremonies and other public performances show how struggles over political legitimacy are intimately tied to the meanings of the ceremonies With its rich ethnographic descriptions provocative analyses and clear links between data and theory Coyle s study marks a major contribution to the ethnography of the Indians of western Mexico and Latin America more generally It also provides unusual insight into the violence raging across the Mexican countryside and helps us understand the significance of indigenous people in a globalizing world

Jesus and the Politics of Roman Palestine Richard A. Horsley,2013-12-17 This comprehensive critical analysis of the historical Jesus examines his mission and involvement in the conflicted politics of ancient Palestine In *Jesus and the Politics of Roman Palestine* Richard A Horsley brings the context and implications of recent historical research to bear on our understanding of Jesus of Nazareth Based on a critical reconsideration of the Gospels and contemporary sources for Roman imperial rule in Judea and Galilee Horsley argues that Jesus was deeply concerned with the politics of his day Drawing on anthropological studies of peasant politics Horsley discerns how Jesus as a Moses and Elijah like prophet generated a movement of renewal in Israel that was focused on village communities Following the traditional prophetic pattern Jesus pronounced God s judgment against the rulers in Jerusalem and their Roman patrons This confrontation with the Jerusalem rulers and his martyrdom at the hands of the Roman governor however became the breakthrough that empowered the rapid expansion of his movement in the immediately ensuing decades In the broader context of this comprehensive historical construction of Jesus s mission Horsley also presents a fresh new analysis of Jesus s healings and exorcisms and his conflict with the Pharisees topics that have been generally neglected in the last several decades

The Death of Jesus and the Politics of Place in the Gospel of John Peter Claver Ajer,2016-09-01 This book s findings are rich and intriguing In his death Jesus the chief architect in the production of space in the Christian realm founds an alternative community that reorders space and creates a new reality for believers This new community which dwells in this radical new space successfully resists the domination of oppressive regimes and mindsets such as the Roman Empire Suffering is transformed here Many recent biblical studies have utilized various methodologies and historical critical viewpoints which have been helpful However drawing on theories of space and postcolonial approaches Dr Ajer breaks new ground in Johannine studies a new terrain that will yield much fruit The new understandings of space provide a key with which we may unlock more of the mysteries of the Fourth Gospel as Ajer here demonstrates with powerful new discoveries and insights into John s Passion narrative

Lived Religion and the Politics of (In)Tolerance R. Ruard Ganzevoort,Srdjan Sremac,2017-03-08 This volume explores the ways in which lived religion encourages and contributes to conflicts as well as fosters tolerance in the interlocking rural urban and virtual social spheres Through ten case studies with vast geographical and religious variation

the contributors address some of the shortcomings in analyses of the relationship between religion and in tolerance and offers a theoretically and empirically more nuanced understanding of the micro politics of in tolerance and the roles of lived religion in it The book argues that in tolerance and its connection to religion cannot be fully understood unless analyzed from below which means that the focus needs to be not only on public institutions or religio political spaces but also on in tolerance of ordinary people and their performativity practices and interests in non institutionalized spaces This showcases the ambiguous interconnectedness of lived religion and in tolerance Lived Religion and the Politics of In Tolerance will be of interest to students and scholars interested in lived religion the relationship between politics and religion and those working in cross cultural dialogue and through an anti racism and anti violence lens **Political Keywords** Roderick P. Hart, 2005

The Declaration of Independence states that all men are created equal in the United States but that statement does not hold true for words Some words carry more weight than others they seem to work harder get more done and demand more respect **Political Keywords Using Language That Uses Us** looks at eight dominant words that are crucial to American political discourse and how they have been employed during the last fifty years Based on an analysis of eleven separate studies of political language **Political Keywords** helps readers to understand what these terms mean and how they are used For example the book tracks what politics now means to modern commentators how school teachers impress certain values upon the nation s children by invoking the office of the president and why an innocent word like government sometimes makes people so upset It details how the people are referenced in political talk and how the media portray themselves The book also considers the work done by political parties political promises and political consultants because together they shed special light on modern elections Combining social science with subtle forms of cultural interpretation **Political Keywords Using Language That Uses Us** provides a fresh look at both American politics and American language It is an ideal text for undergraduate and graduate courses in political communication political language political campaigns media and politics political psychology public opinion rhetorical criticism contemporary public address and presidential rhetoric Publisher

definition is revelation or unveiling the basis from which renowned theologian Ren Girard builds his own view of Biblical apocalypse Properly understood Girard explains Biblical apocalypse has nothing to do with a wrathful or vengeful God punishing his unworthy children and everything to do with a foretelling of what future humans are making for themselves now that they have devised the instruments of global self destruction In this volume some of the major thinkers about the interpretation of politics and religion including Eric Voegelin Leo Strauss and Carl Schmitt are scrutinized by some of today's most qualified scholars all of whom are thoroughly versed in Girard's groundbreaking work Including an important new essay by Girard this volume enters into a philosophical debate that challenges the bona fides of philosophy itself by examining three supremely important philosophers of the twentieth century It asks how we might think about politics now that the attacks of 9/11 have shifted our intellectual foundations and what the outbreak of rabid religion might signify for international politics

"Landscape Imagery, Politics, and Identity in a Divided Germany, 1968-1989" Catherine Wilkins, 2017-07-05 Landscape Imagery Politics and Identity in a Divided Germany 1968-1989 explores the communicative relationship between German landscape painting and the viewing public that developed in the wake of the student revolutions of the late 1960s The book demonstrates that contrary to some historical thinking more similarities than differences characterized the sociopolitical concerns of East and West Germans during the late Cold War Era and that it was these shared issues that were reflected in the revival of the Romantic painting genre Catherine Wilkins focuses on recovering the agency of the individual artist and in revising historiography with sensitivity to narration from below Interdisciplinary in nature art historians can benefit from the study's analysis of images and artists not widely known outside of Germany Additionally the consolidation of statistics and data regarding German postwar cultural policy are relevant for political and cultural historians The author contributes to the ongoing multidisciplinary debates regarding Histoire Crois in arguing that a clear dichotomy between East Germany and West Germany did not exist but rather that the residents of both nations shared a concern over some of the same issues of the period and memory studies by using images as primary historical sources able to be employed in the recovery of potentially subversive memory and identity Issues related to gender relations environmentalism and spiritual belief are addressed by Wilkins with appeal for scholars working with those particular themes Poststructuralist and literary theorists as well can find arguments supporting an alternative means of writing history through artworks and private memories

The Crucifixion of Jesus David Tombs, 2022-11-28 Roman crucifixions sought to degrade and dehumanise their victims in ways that destroyed their dignity and stigmatised their memory Paul speaks of the cross as a scandal or stumbling block but the significance of this language has never been explored in terms of sexual violence The Crucifixion of Jesus examines crucifixion as a form of torture state terror and sexual abuse It reads recent accounts of torture alongside the presentation of crucifixion in the Passion narratives and other Greek and Roman sources Outlining compelling reasons for viewing Jesus as a victim of sexual abuse it examines why this unsettling aspect of the

narrative has remained hidden in plain sight for so long and what place it might have in discussions of rape culture past and present It also asks whether other acts of sexual violence and rape might have happened during the mockery in the praetorium or even on the cross itself It argues that although the acknowledgement of this unspeakable violence is deeply disturbing breaking the silence can nonetheless have constructive consequences In addition to offering a more historical understanding of crucifixion this book illuminates positive new aspects of resurrection making it a probing read for scholars of biblical studies and for those interested in the interplay of religion and violence

The Saturday Review of Politics, Literature, Science and Art, 1868 **Landscape Imagery, Politics, and Identity in a Divided Germany, 1968-1989**

Professor Catherine Wilkins, 2013-12-02 Landscape Imagery Politics and Identity in a Divided Germany 1968 1989 explores the communicative relationship between German landscape painting and the viewing public that developed in the wake of the student revolutions of the late 1960s The book dem The Politics of Time Guy Standing, 2023-10-26 Guy Standing's

books have over the years pieced together a necessary political and intellectual agenda His Politics of Time is a splendid and timely addition to this body of important work Yanis Varoufakis Time has always been political Throughout history how we use our time has been defined and controlled by the powerful and today is no exception But we can reclaim control and in this book the pioneering economist Guy Standing shows us how The ancient Greeks organised time into five categories work labour recreation leisure and contemplation Labour was onerous whereas leisure was *scholē* and included participation in public life and lifelong education Since the industrial revolution our time has been shaped by capitalism our jobs are supposed to provide all meaning in life our time outside labour is considered simply time off and politicians prioritise jobs above all other aspects of a good life Today we are experiencing the age of chronic uncertainty Mental illness is on the rise some people are experiencing more time freedom while many others are having more and more of their time stolen from them particularly the vulnerable and those in the precariat But there is a way forward We can create a new politics of time one that liberates us and helps save the planet through strengthening real leisure and working together through commoning We can retake control of our time but we must do it together

The Disclosure of Politics Maria Pia Lara, 2013-09-17 Maria Pia Lara explores the ambiguity of secularization and the theoretical potential of a structural break between politics and religion For Lara secularization means the translation of religious semantics into politics a transformation of religious notions into political ideas and the reoccupation of a space left void by changing political actors one that gives rise to new conceptions of political interaction Conceptual innovation redefines politics as a horizontal relationship between governments and the governed better enabling societies and political actors to articulate meaning through action
