New Root Formation in Plants and Cuttings M.B. Jackson,2012-12-06 The formation of roots is in some respects one of the least fundamentally understood of all plant functions Propagation by cuttings is the aspect that will occur first to most gardeners and horticulturists and it is certainly the most useful application But any observant traveller in the tropics can notice that some trees have the habit of forming roots in the air Climbers like Cissus bear long fine strings of roots hanging down Pandanus trees tend to have stout aerial roots issuing from the bases of the long branches while the tangle of roots around the trunk of many of the Ficus species is characteristic In Ficus bengalensis in particular stout cylindrical roots firmly embedded in the ground from a height of 3 to 5 meters give support to the long horizontal branches enabling them to spread still further In the big old specimen at Adyar near Madras the spread of these branches all around the tree each with a strong root growing out every few meters makes a shaded area under which meetings of almost 5000 people are sometimes held The history of how the formation of roots on stem cuttings was found to be under hormonal control is worth repeating here *Indian Muslims Against British Rule* Aijaz Ahmad,2014-01-01 This book Indian Muslims Against British Rule includes the events of the Uprising of 1857 and the participation of the Muslims particularly the theologians as their religious duty to uproot the British rule from the Indian subcontinent This work is an attempt to prove the Muslim a true patriot and the real hero of the

first war of independence and remind the readers what actually happened during the inordinate episode in 1857 and thereafter It s the work of different historical dimension with independent analysis and research in the modern context In this work I have tried to do justice to the ideologically complex topic which was the need of the time and awaken my readers about the Muslim torch bearers which always taught the lesson of love to the country and its people irrespective of caste and creed Apart from the general history of the Uprising the role of the Wahabi and Faraizi Movements also has been discussed in the context of the circumstances after a deep research and analysis The role of the personalities like Bahadur Shah Zafar General Bakht Khan Sir Syed Ahmad Khan Mirza Ghalib and other related personalities have been very widely discussed The print media or journalism of that time particularly the Urdu Press which was the main source of inspiration to the common people has also been discussed in detail I have much hope with this book that it would change the common mindset which has been developed about the Indian Muslim since the partition of India
