of theory and literary practice Apart from advocating the burgeoning development of women's writing of matrilineal narratives the author also sheds new light on further research in the area of feminist motherhood and mothering Publisher's description *Home in British Working-Class Fiction* Nicola Wilson, 2016-03-09 *Home in British Working Class Fiction* offers a fresh take on British working class writing that turns away from a masculinist work based understanding of class in favour of home gender domestic labour and the family kitchen As Nicola Wilson shows the history of the British working classes has often been written from the outside with observers looking into the world of the inhabitants Here Wilson engages with the long cultural history of this gaze and asks how home is represented in the writing of authors who come from a working class background Her book explores the depiction of home as a key emotional and material site in working class writing from the Edwardian period through to the early 1990s Wilson presents new readings of classic texts including *The Ragged Trousered Philanthropists* *Love on the Dole* and *Saturday Night and Sunday Morning* analyzing them alongside works by authors including James Hanley Walter Brierley Lewis Grassie Gibbon Buchi Emecheta Pat Barker James Kelman and the rediscovered ex mill girl novelist Ethel Carnie Holdsworth Wilson's broad understanding of working class writing allows her to incorporate figures typically ignored in this context as she demonstrates the importance of home's role in the making and expression of class feeling and identity *Medieval Maidens* Kim M. Measuring Immorality Gail Reekie, 1998-10-13 Why do conservative politicians and scholars in Britain Australia and the United States continue to view rising rates of out of wedlock births and teenage pregnancies as a threat to civilised society This book examines the process by which social science transforms a biological event a birth into a social and moral problem Drawing on Foucault s archaeology of knowledge Reekie stresses the role of statistics and other social scientific discourses in the emergence of the illegitimacy problem in the early nineteenth century and its continuing cultural significance The book illustrates the continuity in concerns about illegitimacy including pressure on the welfare system fears of racial and intellectual denigration the detrimental nature of fatherless families and the association of rising illegitimacy with the supposed selfishness of excessively independent women

The Welfare State Generation Eve Worth, 2021-12-16 Women born in mid twentieth century Britain were the welfare state generation not only were their lives fundamentally shaped by the welfare state they helped to transform it In this ground breaking work Eve Worth examines the impact of the welfare state on the life course of women whose opportunities and social experiences were formed by it in the post 1945 period Centred around an oral history study this book argues that the welfare state was so central to the lives of women born in Britain between the late 1930s and early 1950s that they should be considered the welfare state generation The post war expansion of the welfare state was one of the most transformative political changes of the twentieth century yet we know little about its development in practice nor its long term impact on those who grew up within it Using a ground breaking life history methodology to examine women from their birth in the long 1940s to retirement in the mid 2010s it includes thirty six original life history interviews alongside social surveys and the Census for wider context By deploying a cross class approach this book moves the discussion on from just looking at university educated women to include women often overlooked in gender and social studies Re conceptualising the causes of social mobility in post war Britain exploring a new understanding of work and an updated periodisation of welfare state development The Welfare State Generation offers a new approach to the history of class and gender arguing that we need to move beyond the focus on women s emotions and personal identity to consider their experiences and relationships with the state as employer educator and provider
