Play and Literacy in Early Childhood

Kathleen A. Roskos,2017-07-05 This volume brings together studies research syntheses and critical commentaries that examine play literacy relationships from cognitive ecological and cultural perspectives The cognitive view focuses on mental processes that appear to link play and literacy activities the ecological stance examines opportunities to engage in literacy related play in specific environments and the social cultural position stresses the interface between the literacy and play cultures of home community and the school Examining play from these diverse perspectives provides a multidimensional view that deepens understanding and opens up new avenues for research and educational practice Each set of chapters is followed by a critical review by a distinguished play scholar These commentaries focus is to hold research on play and literacy up to scrutiny in terms of scientific significance methodology and utility for practice A Foreword by Margaret Meek situates these studies in the context of current trends in literacy learning and instruction Earlier studies on the role of play in early literacy acquisition provided considerable information about the types of reading and writing activities that children engage in during play and how this literacy play is affected by variables such as props peers and adults However they did not deal extensively as this book does with the functional significance of play in the literacy development of individual children This volume pushes the study of play and literacy into new areas It is indispensable reading for researchers and graduate students in the fields of early childhood education and early literacy development

Multiliteracy Play Chantelle Warner, 2024-03-07 This book proposes to expand multiliteracies frameworks in second language education by recognizing that learning a new language and culture involves both designs and desires the affects and emotions that feed our responses to particular ways of making meaning Over the past two decades multiliteracies approaches to second language education have brought attention to the diversity of modes media language varieties and discourses involved in what we often shorthand as language learning A core concept in these discussions is the idea of meaning design the idea that languages are dynamic culturally shaped systems of resources for engaging with and making

sense of the world Building on these discussions and drawing inspiration and practical examples from a variety of modern language classes in higher education in the USA the book demonstrates how poetic and playful language can be embedded in multiliteracies pedagogy in ways that foster learners and teachers awareness of designs while also making space for desires that are harder to script or plan for In addition to building a conceptual map around poetics and play for researchers and teachers in language education the book offers concrete examples of what a multiliteracies approach emphasizing designs and desires can look like in classrooms and curricula
