Architectures of Hiding Rana Abughannam,Émélie Desrochers-Turgeon,Pallavi Swaranjali,Federica Goffi,2024-01-31 Architecture manifests as a space of concealment and unconcealment lethe and al theia enclosure and disclosure where its making and agency are both hidden and revealed With an urgency to amplify narratives that are overlooked silenced and unacknowledged in and by architectural spaces histories and theories this book contends the need for a critical study of hiding in the context of architectural processes It urges the understanding of inherent opportunities power structures and covert strategies whether socio cultural geo political environmental or economic as they are related to their hideoscapes the constructed landscapes of our built environments participating in the architectures of hiding Looking at and beyond the intentions and agency that architects possess architectural spaces lend themselves as apparatuses for various forms of hiding and un hiding The examples explored in this book and the creative works presented in the interviews enclosed in the interludes of this publication cover a broad range of geographic and cultural contexts discursively disclosing hidden aspects of architectural meaning The book investigates the imaginative intrigue of concealing and revealing in design processes along with moral responsibilities and ethical dilemmas inherent in crafting concealment through the making and reception of architecture

Journal of the Franklin Institute ,1923

Theological Dictionary of the Old Testament G. Johannes Botterweck,Helmer Ringgren,Heinz-Josef Fabry,1974 This multivolume work is still proving to be as fundamental to Old Testament studies as its companion set the Kittel Friedrich Theological Dictionary of the New Testament has been to New Testament studies Beginning with father and continuing through the alphabet the TDOT volumes present in depth discussions of the key Hebrew and Aramaic words in the Old Testament Leading scholars of various religious traditions including Roman Catholic Lutheran Reformed Anglican Greek Orthodox and Jewish and from many parts of the world Denmark France Germany Great Britain Greece Israel Italy the Netherlands Norway Sweden Switzerland and the United States have been carefully selected for each article by editors Botterweck Ringgren and Fabry and their consultants George W Anderson Henri Cazelles David Noel Freedman Shemaryahu Talmon and Gerhard Wallis The intention of the writers is to concentrate on meaning starting from the more general everyday senses and building to an understanding of theologically significant concepts To avoid artificially restricting the focus of the articles TDOT considers under each keyword the larger groups of words that are related linguistically or semantically The lexical work includes detailed surveys of a word s occurrences not only in biblical material but also in other ancient Near Eastern writings Sumerian Akkadian Egyptian Ethiopic Ugaritic and Northwest Semitic sources are surveyed among others as well as the Qumran texts and the Septuagint and in cultures where no cognate word exists the authors often consider cognate ideas TDOT s emphasis though is on Hebrew terminology and on biblical usage The contributors employ philology as well as form critical and traditio historical methods with the aim of understanding the religious statements in the Old Testament Extensive bibliographical information

adds to the value of this reference work This English edition attempts to serve the needs of Old Testament students without the linguistic background of more advanced scholars it does so however without sacrificing the needs of the latter Ancient scripts Hebrew Greek etc are regularly transliterated in a readable way and meanings of foreign words are given in many cases where the meanings might be obvious to advanced scholars Where the Hebrew text versification differs from that of English Bibles the English verse appears in parentheses Such features will help all earnest students of the Bible to avail themselves of the manifold theological insights contained in this monumental work **Tears of America** Fella,2019-06-24

This story is set in modern time South Carolina and along the east coast of America It is inspired by true events that are both bone chilling and promising The scenes in the story are also enhanced by the author s imagination A young man named Jillian is set on chasing a high by any means necessary and starts a journey on becoming a martyr to some and a symbol of hate and racism to the rest of America At the same time in Charleston South Carolina an innocent child s life has been turned upside down by the loss of his mother leaving him in the care of his drug addicted aunt who is at odds with the only person who would truly care for him his mother s best friend Losing her mother to a drug overdose a young child symbolic to love is overshadowed by her hateful father who contradicts everything she holds dear her mother s words As the severe changes in their life lead them in opposite directions from the way they were raised and as they fight their circumstances to remain steadfast hate racism police brutality inequality drug abuse child neglect and many other evils affect their lives in drastic ways and leave many others at a crossroad in their own lives When one outrageous act rips through the country and with the peaking happenings in America will the people unite and overcome these tragic times or will it be the beginning of the next civil war *Paint, Oil and Chemical Review* ,1923 **Lossless Information Hiding in Images** Zhe-Ming Lu,Shi-Ze

Guo,2016-11-14 Lossless Information Hiding in Images introduces many state of the art lossless hiding schemes most of which come from the authors publications in the past five years After reading this book readers will be able to immediately grasp the status the typical algorithms and the trend of the field of lossless information hiding Lossless information hiding is a technique that enables images to be authenticated and then restored to their original forms by removing the watermark and replacing overridden images This book focuses on the lossless information hiding in our most popular media images classifying them in three categories i e spatial domain based transform domain based and compressed domain based Furthermore the compressed domain based methods are classified into VQ based BTC based and JPEG JPEG2000 based Focuses specifically on lossless information hiding for images Covers the most common visual medium images and the most common compression schemes JPEG and JPEG 2000 Includes recent state of the art techniques in the field of lossless image watermarking Presents many lossless hiding schemes most of which come from the authors publications in the past five years
