*Theories and Texts* Walter Hölbling,2007 Theories and Texts a guide written by students for students explores the critical ideas of twelve of the most influential philosophers of the last 150 years Marx Freud Bakhtin Lacan Derrida Barthes Foucault Bhaba as well as a variety of feminist critics Kristeva

the French feminists black feminists and theological feminists New Historicists and Postcolonialists Carefully digested and then set out in lucid and easily accessible language these essays explain major ideas of each critical approach and exemplify them through practical application to one or more literary texts At a time when theory is on everybody's lips and yet is often more of a deterrent than an attraction for students of literature and culture these essays show how theories can enrich our understanding of literature facilitate our analysis of a particular text elucidate the multiple layers of meaning and thus significantly enhance the pleasure in our acts of reading

### **Barbara Kingsolver's World** Linda

Wagner-Martin, 2014-05-08 Since Barbara Kingsolver published *The Bean Trees* in 1988 her work has been of great interest to readers first American readers then British and South African readers and finally to readers the world over With incredible speed Kingsolver became one of the best known United States writers a person who collected honors and awards as if she were a much more mature literary producer From the beginning Kingsolver touched an elbow of keen interest in her readers hers was the voice of world awareness a conscientious voice that demanded attention for the narratives of the disadvantaged the politically troubled the humanly silenced By paying special attention to her non fiction essays and books this new study by renowned literary critic Linda Wagner Martin highlights the way Kingsolver has become a kind of public intellectual particularly in the 21st century It provides fresh readings of each of her novels stories and poems

Less is More Kimberly Campbell, 2007 *Less Is More* is full of powerful ideas for teaching with short provocative text This book broadens and extends our available teaching tools and materials and can help engage all students It is a valuable resource for language arts teachers Cris Tovani Language arts teachers want all of their students to love literature and embrace the novels they assign The classroom reality is that many students are not ready or motivated to immerse themselves in an entire novel In order to reach and engage all students teachers need to look beyond novels alone and embrace a richer variety of literature In *Less Is More* Kimberly Hill Campbell draws on research as well as her own classroom experiences to show how short texts engage a wide range of middle and high school students She shares her discovery of the power of short texts to support her students skills as readers writers and students of literature Kimberly shows how short texts can be integrated into the curriculum without sacrificing required novels Chapters examine different genres of short text such as short stories essays memoir and graphic novels Each chapter provides reading writing and response strategies as well as a broad selection of short text resources that have proven effective with a wide range of students

### **Barbara Kingsolver** Mary J. Demarr, 1999-08-30

Barbara Kingsolver wears the feminist mantle with joyful pride and her spirited embrace of political themes is contagious Responding to richly drawn heroines along their journeys to do right by family and community readers embrace Kingsolver's political novels making them bestsellers From the haunting Arizona landscape of Kingsolver's early trilogy of novels to the lush African jungle that sets the scene in her latest *The Poisonwood Bible* Kingsolver weaves colorful tapestries with vivid prose exceptional intelligence and unexpected humor DeMarr's comprehensive treatment covers not only Kingsolver's four

novels each with its own chapter but also discusses with considerable insight her background as a feminist as a journalist and most importantly as a humanist Introducing readers to Kingsolver DeMarr devotes a chapter to her life and work showing how the two are deeply intertwined While Kingsolver s writing is never strictly autobiographical the well researched section on politics and genre discusses how experiences in Kingsolver s own life and in her work as a political journalist have influenced her fiction writing In addition to the celebrated novels that readers have come to love *The Bean Trees* *Pigs in Heaven* *Animal Dreams* and *The Poisonwood Bible* as well as the poems and short stories DeMarr covers the nonfiction the essays and political writings A full chapter analyzes each novel in terms of plot and character development thematic content symbolism and the importance of place and language Students and fans of Kingsolver will find this work including its well organized bibliography accessible and interesting

The Natural Law of Cycles James H. Bunn, 2017-07-28 The Natural Law of Cycles assembles scientific work from different disciplines to show how research on angular momentum and rotational symmetry can be used to develop a law of energy cycles as a local and global influence Angular momentum regulates small scale rotational cycles such as the swimming of fish in water the running of animals on land and the flight of birds in air Also it regulates large scale rotation cycles such as global currents of wind and water James H Bunn introduces concepts of symmetry balance and angular momentum showing how together they shape the mobile symmetries of animals Chapter 1 studies the configurations of animals as they move in a head first direction Chapter 2 shows how sea animals follow currents and tides generated by the rotational cycles of the earth In chapter 3 Bunn explores the biomechanical pace of walking as a partial cycle of rotating limbs On a large scale angular momentum governs balanced shifts in plate tectonics Chapter 4 begins with an examination of rotational wind patterns in terms of the counterbalancing forces of angular momentum The author shows how these winds augment the flights of birds during migrations A final chapter centres on the conservation of energy as the most basic principle of science Bunn argues that in the nineteenth century the unity of nature was seen in the emergent concept of energy not matter as the source of power including the movements of animals and machines In each chapter Bunn features environmental writers who celebrate mobile symmetries This book will interest students naturalists and advocates of the environmental movement
