The Greenhouse and Hoophouse Grower's Handbook Andrew Mefferd, 2017. The Greenhouse and Hoophouse Grower's Handbook shares best practices for both large and small-scale production of the eight most profitable crops: tomatoes, eggplant, cucumbers, peppers, leafy greens, lettuce, herbs, and microgreens. Every year, more growers are turning to protected culture to deal with unpredictable weather and to meet out-of-season demand for local food, but many end up spinning their wheels, wasting time and money on unprofitable crops grown in ways that don't make the most of their precious greenhouse space. This book levels the playing field with a decision-making framework that goes beyond a list of simple dos and don'ts. With comprehensive chapters on temperature control and crop steering, pruning, and trellising, grafting, and more, Andrew Mefferd's book is full of techniques and strategies that can help farms stay profitable, satisfy customers, and become an integral part of relocalizing our food system. From seed to sale, this book is the indispensable resource for protected growing. **COVER**

The term digital libraries covers the creation and distribution

of all types of information over networks ranging from converted historical materials to kinds of information that have no analogues in the physical world In some ways digital libraries and traditional libraries are very different yet in other ways they are remarkably similar People still create information that has to be organized stored and distributed and they still need to find and use information that others have created An underlying theme of this book is that no aspect of digital libraries can be understood in isolation or without attention to the needs of the people who create and use information Although the book covers a wide range of technical economic social and organizational topics the focus is on the actual working components of a digital library

Converging Destinies Stuart Dauermann, 2017-03-14 While all have reason to celebrate the greening of Christian Jewish relations since the Shoah and the promulgation of Nostra Aetate 4 few will deny that much work remains to be done by Christians and Jews seeking the best way forward that they might best serve God s purposes in the world the mission of God This book addresses that need by first surveying how each community has historically conceived of its own mission and from that stance assigned an identity to the other The text illuminates how such construals have often impeded progress and therefore need to be upgraded and supplemented But how shall this be done Converging Destinies proposes an eschatological vision and practical suggestions to summon Jews and Christians to prepare for that day when each will be both commended and reproved by the judge of all sounding a call for more determined action greater humility and cooperative effort as together Jews and Christians serve the mission of God accountable to him for how they have served him and each other in the world that he has created according to his will
