Stalin's Falcons Dmitry Zubov, 2024-05-31 In this stunning expos Dmitry Zubov reveals the dark truth of the terrible losses suffered by Soviet flyers the inferiority of the Russian aircraft on World War II s Eastern Front and the almost slave like conditions in which those aircraft were made The Soviet history of the Second World War written under the conditions of a totalitarian regime reflected all its features with the result that it includes solid sets of patriotic fables that have no connection with reality Many of the events of the war were distorted beyond recognition or even made up from beginning to end Archives containing original documents were available only to selected specially verified KGB historians who presented only the version of the war that was acceptable to the Soviet regime After the collapse of the Soviet Union the process of declassifying archives and gaining wide access to information gradually began to reveal the terrible truth of the crimes of the Soviet regime One of which of course was the incompetent leadership of the Red Army which led to massive loss of life across the military and civilians alike However the consequences of decades of Soviet propaganda had a strong impact on both Russian and world historical science Because of this not only Russian but unfortunately many European and American historians found themselves repeating the Soviet myths they had been fed The history of Soviet fighter aircraft did not escape this fate The tale of Stalin s so called Falcons who allegedly shot down dozens and even hundreds of Luftwaffe aircraft was persistently drummed into the heads of many generations of Russian people These heroes supposedly flew Soviet fighters whose technical characteristics were many times superior to their German counterparts with the result that Luftwaffe aces were reportedly afraid of meeting them in the air These primitive propaganda clich s became a model for describing the actions of Stalin s fighter aircraft In this stunning expos Stalin s Falcons reveals the stark and dark truth of the terrible losses suffered by Soviet flyers the inferiority of the Russian aircraft and the almost slave like conditions in which those aircraft

Eric J. Goldberg, 2020-10-16 Eric J Goldberg traces the long history of early medieval hunting from the late Roman Empire to the death of the last Carolingian king Louis V in a hunting accident in 987 He focuses chiefly on elite men and the changing role that hunting played in articulating kingship status and manhood in the post Roman world While hunting was central to elite lifestyles throughout these centuries the Carolingians significantly altered this aristocratic activity in the later eighth and ninth centuries by making it a key symbol of Frankish kingship and political identity This new connection emerged under Charlemagne reached its high point under his son and heir Louis the Pious and continued under Louis's immediate successors Indeed the emphasis on hunting as a badge of royal power and Frankishness would prove to be among the Carolingians most significant and lasting legacies Goldberg draws on written sources such as chronicles law codes charters hagiography and poetry as well as artistic and archaeological evidence to explore the changing nature of early medieval hunting and its connections to politics and society Featuring more than sixty illustrations of hunting imagery found in mosaics stone sculpture metalwork and illuminated manuscripts *In the Manner of the Franks* portrays a vibrant and dynamic culture that encompassed red deer and wild boar hunting falconry ritualized behavior female spectatorship and complex forms of specialized knowledge that united kings and nobles in a shared political culture thus locating the origins of courtly hunting in the early Middle Ages *The British Cyclopædia of Natural History* Charles Frederick Partington, 1835
