Millar, 2004-03-31 The world and humanity are changing at an unprecedented rate This book explores the processes that underlie this changing but coherent canvas What is fuelling them What is driving them Can we control them Mankind has always found ways to order life so as to reduce uncertainty and has sought to enhance the wellbeing of individuals peoples and nations In the modern and postmodern world business and enterprise play a big role Their tendency towards globalization needs to be understood and harnessed not opposed out of hand or wished away particularly because the tendency has not yet fully worked itself out For sound understanding it is necessary to avoid seeing the issues through the eyes of one particular discipline Hence this book also draws on material from history anthropology development economics ICT sociology and political science to help the reader gain insight into the processes that are occurring It provides a signpost towards a new dynamic in an increasingly integrated world in which we observe an emergent form of globalization affecting the planet as a whole and the future of the people on it *Outsourcing State and Local Government Services* John

O'Looney, 1998-11-19 Should we be doing or trying to do everything ourselves or might it be better to contract some tasks out to others Could they do them better and cheaper than we can More and more state and local governments are asking these questions and while there are many answers on the Federal level these answers often don't apply lower down the line Nevertheless it is evident that contracting out is often the better strategy but how best to go about it What are the benefits and what are the hidden risks Dr O'Looney's book provides precisely the guidance that state and local managers need first how to decide to outsource a government service then step by step how to proceed Based on extensive interviews and other research O'Looney takes managers through the intricacies of contract outsourcing and administration but in doing so he makes clear that he appreciates the importance of government His book is not an argument for privatization as so many other books are rather it is an affirmation of government and the benefits of its many services Readers will find theory and advice on the services that are most suitable for contracting out a listing and review of the components of a high quality analysis including the analysis of often overlooked political organizational and functional aspects of government advice on how to go from deciding to outsource to actually designing implementing and monitoring a contract in situations that could prove hazardous to the livelihoods of government workers He also discusses the changes that need to be made in the organizational culture management and employee training as a result of the change to a contract based system of providing services the considerations in designing work specifications and other critical aspects of the government vendor relationship and how ideal contracting processes and ideal contracts can differ according to the nature of the service being contracted The result is a thorough and highly practical volume for executives and managers in the public sector and for those who hope to do business with them
