Unjustifiable Risk? Simon Thompson, 2012-03-06 To the impartial observer Britain does not appear to have any mountains Yet the British invented the sport of mountain climbing and for two periods in history British climbers led the world in the pursuit of this beautiful and dangerous obsession *Unjustifiable Risk* is the story of the social economic and cultural conditions that gave rise to the sport and the achievements and motives of the scientists and poets parsons and anarchists villains and judges ascetics and drunks that have shaped its development over the past two hundred years The history of climbing inevitably reflects the wider changes that have occurred in British society including class gender nationalism and war but the sport has also contributed to changing social attitudes to nature and beauty heroism and death Over the years increasing wealth leisure and mobility have gradually transformed climbing from an activity undertaken by an eccentric and privileged minority into a sub division of the leisure and tourist industry while competition improved technology and information and increasing specialisation have helped to create climbs of unimaginable difficulty at the leading edge of the sport But while much has changed even more has remained the same Today s climbers would be instantly recognisable to their Victorian predecessors with their desire to escape from the crowded complexity of urban society and willingness to take unjustifiable risk in pursuit of beauty adventure and self fulfilment *Unjustifiable Risk* was shortlisted for the Boardman Tasker prize in 2011

My Father, Frank Tony

Smythe,2015-02-05 Biography of a seminal but often unheralded figure in high altitude climbing Written by his son Tony Frank Smythe was himself a prolific author Important addition to Mountaineer Books Legends and Lore series Frank Smythe like Eric Shipton is associated with early Everest explorations and was a member of three expeditions to the mountain At a time when it was ungentlemanly to make a living by climbing Smythe wrote more than a dozen popular books based upon his travels to high places one of them being the first ascent of Kamet 25 447 feet in 1931 which was the first time any climber had gone beyond 25 000 feet Two years later he reached the highest point climbed on Everest 28 200 feet He also climbed in Britain the Alps Canada and Alaska He and Graham Brown established two new routes on the Brevna face of Mont Blanc In short he has serious climbing credentials As the title hints this is a biography by Frank s son Tony but it isn t based solely on personal memories Frank was away from home for long periods and died when Tony was only fourteen Instead this book is based on thirteen years of research Frank s parents meeting and marriage Frank s early school years his first climbs his training for various jobs his gradual rise to fame and fortune his friendships his war years and his sudden death are all covered Like his father Tony has a strong understanding of how to tell a story that appeals to both climbers and general lovers of nonfiction adventures

Resistance Halik Kochanski,2022-05-24 WINNER OF THE 2023 WOLFSON HISTORY PRIZE New Yorker Best Books of 2022 This is the most comprehensive and best account of resistance I have read It addresses the story with scholarly objectivity and an absolute lack of sentimentality So much romantic twaddle is still published it is marvelous to read a study of such breadth and depth which reaches balanced judgments Max Hastings The Sunday Times UK Resistance is the first book of its kind a monumental history that finally integrates the many resistance movements against Nazi hegemony in Europe into a single sweeping narrative of defiance To resist therefore But how when

and where There were no laws no guidelines no precedents to show the way Dutch resister Herman Friedhoff In every country that fell to the Third Reich during the Second World War from France in the west to parts of the Soviet Union in the east a resistance movement against Nazi domination emerged And every country that endured occupation created its own fiercely nationalist account of the role of homegrown resistance in its eventual liberation Halik Kochanski s panoramic prodigiously researched work is a monumental achievement the first book to strip these disparate national histories of myth and nostalgia and to integrate them into a definitive chronicle of the underground war against the Nazis Bringing to light many powerful and often little known stories Resistance shows how small bands of individuals took actions that could lead not merely to their own deaths but to the liquidation of their families and their entire communities As Kochanski demonstrates most who joined up were not supermen and superwomen but ordinary people drawn from all walks of life who would not have been expected least of all by themselves to become heroes of any kind Kochanski also covers the sheer variety of resistance activities from the clandestine press assistance to Allied servicemen evading capture and the provision of intelligence to the Allies to the more violent manifestations of resistance through sabotage and armed insurrection For many people resistance was not an occupation or an identity but an activity a person would deliver a cache of stolen documents to armed partisans and then seamlessly return to their normal life For Jews under Nazi rule meanwhile the stakes at every point were life and death resistance was less about national restoration than about mere survival Why resist at all Who is the real enemy What kind of future are we risking our lives for These and other questions animated those who resisted With penetrating insight Kochanski reveals that the single quality that defined resistance across borders was resilience despite the constant arrests and executions resistance movements rebuilt themselves time and time again A landmark history that will endure for decades to come Resistance forces every reader to ask themselves yet another question this distinct to our own times What would I have done Those Who Dared Richard Nelsson, 2012-06-05 Throughout their history the Guardian and the Observer have avidly reported the worlds of exploration and adventure travel In the 19th century they covered the British and European explorers who were trying to fill in the blanks on the map crossing deserts racing to the poles searching for the source of the Nile and trying to be the first to master the peaks of the Alps and later the Himalaya By the turn of the 20th century interest turned to Everest the third pole to the deserts that needed to be conquered and also to the new ways of exploring that opened up a whole new world of adventure airships over the North Pole and Citroen driving across the Sahara in the 1920s to name but two In the post war period explorers upped the ante who would be the first to row across the great oceans Travel unsupported to the Poles Climb Everest without oxygen Add to this the vogue for recreating great voyages the most famous being the Kon Tiki and Vinland expedition to Greenland and soon the newspapers were brimming with tales of derring do This collection draws together a unique collection of first person accounts news reports and inevitably obituaries that demonstrate the awe inspiring lengths to which explorers and

adventurers have gone to push back the boundaries of human endeavour Gordon Laing's doomed journey to Timbuctoo in 1828 Captain Webb's epic swim across the English Channel in 1875 Wilfrid Thesiger's 1940s crossing of the Rub al Khali Aron Ralston's harrowing experience in 2003 when he amputated his lower right arm in order to free himself from a rockfall Capturing not only the adrenaline rush the adventurers feel when stepping out into the unknown but also the fear and trepidation that set in when things start to go wrong *Those Who Dared* is an adventure anthology that will satisfy the yearnings of the hardened explorer and armchair traveller alike *The War Against the Seals* Briton Cooper Busch, 1987 Concentrates on the fur seals of the Bering Sea and the harp seals of the Newfoundland hunt Reveals the consequences of an industry's killing of more than 50 000 000 seals in a century and a half *Summit Magazine*, 1980 *The Publishers Weekly*, 1980 *Mountain*, 1980 *Shipton and Tilman* Jim Perrin, 2013-03-07 Using unpublished diaries Jim Perrin the acclaimed author of *The Villain and Menlove* tells the story of the greatest exploring partnership in British history In the 1930s Tilman and the younger Shipton pioneered many routes in Africa and the Himalayas and found the key to unlocking Everest They crossed Africa by bicycle explored China with Spender and Auden journeyed down the Oxus River to its source and with no support opened up much of the Nepalese Himalaya In the words of Jim Perrin The journeys of discovery undertaken through two decades by this pair of venturesome ragamuffins are unparalleled in the annals of mountain exploration Jim Perrin writes of his source material These unpublished diaries journals and extensive correspondence have not previously been used to present a portrait of the most productive friendship in the history of mountain exploration What they reveal is in Shipton's phrase a random harvest of delight gathered by two uniquely bold and engaging characters from the great mountain ranges of the world during the golden era of their first western exploration Between geographical excitement the nature of arduous travel in difficult and uncharted terrain throughout a lost epoch and the quirkiest and most stimulating of friendships the theme is a gift and one that has long been waiting for adequate treatment **Careers in Fact and Fiction**, 1985 Provides an annotated list of fiction and nonfiction books that depict careers *Bookseller and the Stationery Trades' Journal*, 1980 ***The Alpine Journal***, 1892 ***Appalachia*** Charles E.
