Congress. House. Committee on Appropriations. Subcommittee on Interior, Environment, and Related Agencies,2007 *The New Environmental Governance* Cameron Holley,Neil Gunningham,Clifford Shearing,2013-07-04 A bold and profoundly new way of governing environmental problems is palpable around the globe and aims to overcome the limitations of the interventionist state and its market alternative to offer more effective and legitimate solutions to today s most pressing environmental problems The new environmental governance NEG emphasises a host of novel characteristics including participation collaboration deliberation learning and adaptation and new forms of accountability While these unique features have generated significant praise from legal and governance scholars there have been very few systematic evaluations of NEG in practice and it is still unclear whether NEG will in fact work and if so when and how This book offers one of the most rigorous research investigations into cutting edge trends in environmental governance to date Focusing its inquiry around some of the most central controversial and or under researched characteristics of NEG the book offers fresh insights into the conditions under which we can best achieve successful

collaboration effective learning and adaptation meaningful participatory and deliberative governance and effective forms of accountability The book synthesizes its findings to identify seven key pillars of good NEG that are central to its success and will provide useful guidance for policymakers and scholars seeking to apply new governance to a wide range of environmental and non environmental policy contexts The book also advances our understanding of State governance and will be a valuable reference for scholars researchers and students working in law and regulation studies especially in the field of environmental law *Journal of the House of Representatives of the United States* United States.
