## High Realism In Canada:

**Canadian Culture** Elspeth Cameron, 1997 The surest way to the hearts of a Canadian audience is to inform them that their souls are to be identified with rock rapids wilderness and virgin but exploitable forest This critical statement no longer explains Canada's largely urban culture Multiculturalism feminism postmodernism and regionalism these and other vital movements jostle for expression in today's Canada Wherever there's a centre a new margin vies for attention Whenever a new voice catches the country's ear another appears to challenge it However styles form new ways of expression keep shaping themselves Nation without a narrative Yes But in the music literature painting history and popular culture of this country you can always find a soul High Realism in Canada Paul Duval, 1974 **Painting in Canada** J. Russell Harper, 1977-01-01 Since its first appearance in 1967 Russell Harper's classic study of Canadian painting has been recognized as the outstanding authority on the subject This edition provides a comprehensive survey generously illustrated of three centuries of Canadian painting from its beginnings in the seventeenth century Through a lively combination of entertaining anecdotes descriptions of the cultural background biographical accounts and critical judgement the reader comes to know intimately the artists their paintings and their environments Included are 173 reproductions 45 added since the first addition They all owe the reader to see representative works from all periods and provide a visual record of the cultural and social history of Canada The Canadian Forum, 1920 Depicting Canada's Children Loren Lerner, 2011-04-07 Depicting Canada's Children is a critical analysis of the visual representation of Canadian children from the seventeenth century to the present Recognizing the importance of methodological diversity these essays discuss understandings of children and childhood derived from depictions across a wide range of media and contexts But rather than simply examine images in formal settings the authors take into account the components of the images and the role of image making in everyday life The contributors provide a close study of the evolution of the figure of the child and shed light on the defining role children have played in the history of Canada and our assumptions about them Rather than offer comprehensive historical coverage this collection is a catalyst for further study through case studies that endorse innovative scholarship This book will be of interest to scholars in art history Canadian history visual culture Canadian studies and the history of children

*Canadian Environments* Robert C. Thomsen, 2005 Responding to the comprehensive topic Old Environments New Environments scholars from a variety of disciplines reflect the various connotations that the term environment carries in a Canadian context Whether moving within the realm of foreign policy visual arts constitutional questions tourism nature preservation or aboriginal rights these essays put the capaciousness and cohesiveness of the nation to the test by illustrating the pressures enforced upon it by multiculturalism the claims for self-determination anti-confederate agitation and globalisation The environments scrutinised are many and various but within each the linchpin remains the quest for identity on the part of the individual the group or the nation at large Individually as well as collectively the essays in this volume

constitute an important contribution to the ongoing debate on Canadianness Canada Today ,1974 **Historical Dictionary of Canada** Barry M. Gough,2010-10-28 Once on the margins of European empires notably those of France England and Spain then a focus of international rivalries and wars during the 18th century Canada is now a nation that is front and center in the world s affairs Canada s emergence as a modern industrial nation and a key player in the resource commodities and financial institutions that make up today s world shows many aspects of what ex colonial powers have gone through except that compromise and reform rather than revolution and revolt have been the cardinal historical features The second edition of the Historical Dictionary of Canada greatly expands on the first edition through a chronology an introductory essay a bibliography and over 500 cross referenced dictionary entries on important persons places events and institutions as well as on significant political economic social and cultural aspects This book is an essential guide to the history of Canada The Canada Year Book ,1975 **The Mystery of the Real** Jeffrey Meyers,2016-06-14 The work of Alex Colville O C 1920 2013 one of the great modern realist painters combines the Flemish detail of Andrew Wyeth the eerie foreboding of George Tooker and the anguished confrontations of Lucian Freud Behind the North Americans stands their common master Edward Hopper Colville s works are in many museums in Canada and Germany He has affinities with Max Beckmann and appeals to the German secondary virtues cleanliness punctuality love of order In a long life he resolutely opposed the fashionable currents of abstract and expressionistic art In contrast to Jackson Pollock s wild action painting Colville created paintings of contemplation and reflection As Jeffrey Meyers writes I spent several days with Colville on each of three visits from California to Wolfville I received seventy letters from him between August 1998 and April 2010 and kept thirty six of my letters to him He sent me photographs and slides of his work and in his eighties discussed the progress and meaning of the paintings he completed during the last decade of his life His handwritten letters precisely explaining his thoughts and feelings provide a rare and enlightening opportunity to compare my insights and interpretations with his own intentions and ideas He also discussed his family health sexuality politics reading travels literary interests our mutual friend Iris Murdoch response to my writing his work exhibitions sales of his pictures and of course the meaning of his art His letters reveal the challenges he faced during aging and illness and his determination to keep painting as health difficulties mounted He stopped writing to me when he became seriously ill two years before his death In this context the late paintings presented in colour in this book take on a new poignancy Canada Ernest Ingles,1990 **The Canadian Historical Review** ,1923 The Oxford Handbook of Canadian Literature Cynthia Conchita Sugars,2016 The Oxford Handbook of Canadian Literature provides a broad ranging introduction to some of the key critical fields genres and periods in Canadian literary studies The essays in this volume written by prominent theorists in the field reflect the plurality of critical perspectives regional and historical specializations and theoretical positions that constitute the field of Canadian literary criticism across a range of genres and historical periods The volume provides a dynamic introduction to current areas of critical interest

including 1 attention to the links between the literary and the public sphere encompassing such topics as neoliberalism trauma and memory citizenship material culture literary prizes disability studies literature and history digital cultures globalization studies and environmentalism or ecocriticism 2 interest in Indigenous literatures and settler Indigenous relations 3 attention to multiple diasporic and postcolonial contexts within Canada 4 interest in the institutionalization of Canadian literature as a discipline 5 a turn towards book history and literary history with a renewed interest in early Canadian literature 6 a growing interest in articulating the affective character of the literary including an interest in affect theory mourning melancholy haunting memory and autobiography The book represents a diverse array of interests from the revival of early Canadian writing to the continued interest in Indigenous regional and diasporic traditions to more recent discussions of globalization market forces and neoliberalism It includes a distinct section dedicated to Indigenous literatures and traditions as well as a section that reflects on the discipline of Canadian literature as a whole

**Art Et Architecture**

**Au Canada** Loren Ruth Lerner, Mary F. Williamson, 1991-01-01 Identifies and summarizes thousands of books article exhibition catalogues government publications and theses published in many countries and in several languages from the early nineteenth century to 1981

**Learning to Look** Lesley Diana Clement, 2000 In Learning to Look Lesley Clement traces the evolution of Mavis Gallant's visually evocative style through five decades of her short fictional works Gallant explores the boundaries between visible and invisible worlds as the lines shapes and colours suggested by her allusions analogies and structures challenge us as readers

Statesmen, Strategists, and Diplomats Patrice Dutil, 2023-06-15 Foreign policy is a tricky business Typically challenges and proposed solutions are perceived as disparate unless a leader can amass enough support for an idea that creates alignment And because the prime minister is typically the one proposing that idea Canadian foreign policy can be analyzed through the actions of these leaders Statesmen Strategists and Diplomats explores how prime ministers from Sir John A Macdonald to Justin Trudeau have shaped foreign policy by manipulating government structures adopting and rejecting options and imprinting their personalities on the process Contributors consider the impact of a wide range of policy decisions increasing or decreasing department budgets forming or ending alliances and pursuing trade relationships particularly as these choices affected the bureaucracies that deliver foreign policy diplomatically and militarily This innovative focus is destined to trigger a new appreciation for the formidable personal attention and acuity involved in a successful approach to external affairs

Canadian Bookman, 1927

**National Gallery of Canada** Douglas Ord, 2003-05-26 Ord looks at the gallery's historical and intellectual context from 1910 when Eric Brown became the gallery's founding director through Jean Sutherland Boggs to Shirley Thomson shedding light on its acquisitions government policy towards the arts and the public's deep rooted suspicion of avant garde art In showing how Canadian art came to be housed in a building whose architectural and ideological sources include Gothic cathedrals Islamic mosques Egyptian temples St Peter's Basilica and the squared stone facades of the Holy City of Jerusalem The National Gallery of Canada insightfully explores

the relationship of Canada's art and its National Gallery to the project of the Canadian nation state      *Anthologizing Canadian Literature* Robert Lecker, 2015-11-02 The first collection of critical essays devoted to the study of English Canadian literary anthologies brings together the work of thirteen prominent critics to investigate anthology formation in Canada and answer these key questions Why are there so many literary anthologies in Canada and how can we trace their history What role have anthologies played in the formation of Canadian literary taste How have anthologies influenced the training of students from generation to generation What literary values do the editors of various anthologies tend to support and how do these values affect canon formation in Canada How have different genres fared in the creation of literary anthologies How do Canadian anthologies transmit ideas about gender region ideology and nation Specific essays focus on anthologies as national metaphors the controversies surrounding early literary collections representations of First Nations peoples in anthologies and the ways in which various editors have understood exploration narratives In addition the collection examines the representation of women in Canadian anthologies the use of anthologies as teaching tools and the creation of some very odd Canadian anthologies along the way      *The Canadian Short Story* Reingard M. Nischik, 2007 Beginning in the 1890s reaching its first full realization by modernist writers in the 1920s and brought to its heyday during the Canadian Renaissance starting in the 1960s the short story has become Canada's flagship genre It continues to attract the country's most accomplished and innovative writers today among them Margaret Atwood Mavis Gallant Alice Munro Carol Shields and many others Yet in contrast to the stature and popularity of the genre and the writers who partake in it surprisingly little literary criticism and theory has been devoted to the Canadian short story This collection redresses that imbalance by providing the first collection of critical interpretations of a range of thirty well known and often anthologized Canadian short stories from the genre's beginnings through the twentieth century A historical survey of the genre introduces the volume and a timeline comparing the genre's development in Canada the US and Great Britain via representative examples completes it The collection is geared both to specialists in and to students of Canadian literature For the latter it is of particular benefit that the volume provides not only a collection of interpretations but a comprehensive introduction to the history of the Canadian short story Reingard M Nischik is professor and chair of American Literature at the University of Constance Germany
