This Awareness of Beauty Keith W. Kinder, 2014-07-07 This Awareness of Beauty is the first book to consider the orchestral and wind band music of Canadian composer Healey Willan who was known primarily for his choral work A succinct biography accompanies historical analytical and critical investigations of Willan's instrumental music asserting Willan's seminal place in Canadian music and the significance of his orchestral and wind band music both nationally and internationally Each composition is investigated in chronological order to illustrate the composer's evolution as a creator of instrumental music from his early years in England to his later and more notable accomplishments in Canada Willan's orchestral music may be seen as both a reaction to and a stimulus for the significant improvement in Canadian orchestral performance during the 1930s and 40s a factor in the creation of his large scale compositions including two symphonies and a piano concerto Although much has been written about Willan most of it has centred on his choral work with biography and or musicology as the frame of reference this project considers his instrumental music in terms of performance provides historical context for many of the works included and corrects errors that have crept into the literature Godey's Lady's Book, 1847 Catalog of Copyright Entries Library of Congress. The *Symphonic Poem in Britain 1850-1950* aims to raise the status of the genre generally and in Britain specifically. The volume reaffirms British composers' confidence in dealing with literary texts and takes advantage of the contributors' interdisciplinary expertise by situating discussions of the tone poem in Britain in a variety of historical, analytical, and cultural contexts. This book highlights some of the continental models that influenced British composers and identifies a range of issues related to perceptions of the genre. Richard Strauss became an important figure in Britain during this time, not only in terms of the clear impact of his tone poems but the debates over their value and even their ethics. A focus on French orchestral music in Britain represents a welcome addition to scholarly debate and links to issues in several other chapters. The historical development of the genre, the impact of compositional models, issues highlighted in critical reception, as well as programming strategies, all contribute to a richer understanding of the symphonic poem in Britain. Works by British composers discussed in more detail include William Wallace's *Villon* 1909, Gustav Holst's *Beni Mora* 1909-10, Hubert Parry's *From Death to Life* 1914, John Ireland's *Mai Dun* 1921, and Frank Bridge's orchestral poems 1903-15. *Percussive Notes*, 1980 **Nature et progrès** Pierre Lagayette, 2006 **The Cosmopolitan**, 1922 *The Musician*, 1900 Notes and Queries: A Medium of Inter-Communication for Literary Men, Artists, Antiquaries, Genealogists, Etc., 1862 **The life of**
