Dickhaut, 2013-07-03 In *Building a Community of Interpreters* Walter Dickhaut argues that the practice of reading and by extension listening is no less creative than the practice of writing and speaking readers and hearers just as much as writers and speakers are producers of meaning Hence the work of biblical interpretation is the work the calling of a community Focused on the experience of the reader or hearer of biblical texts he explores such questions as What happens when the author disappears What happens when a reader opens a book to meet the author What happens when a book is

read What happens when the reader changes spectacles Into discussion of such issues as the reader s angle of vision when texts open and close the reader s expectations the reader s meeting up with the text and the functions of filters and lenses in the practice of reading and hearing the author introduces mystery surprise and expectation as hermeneutical lenses that can enlarge what may be seen in biblical texts In addition to some homiletical samples the author concludes with a suggested teaching plan for building a community of interpreters

The Life and Ideas of James Hillman Dick Russell,2023-05-30 James Hillman who died in 2011 at the age of eighty five has been described by poet Robert Bly as the most lively and original psychologist of the twentieth century Based on author Dick Russell s interviews with Hillman and dozens of people who knew him Volume Two of *The Life and Ideas of James Hillman* takes up Hillman s mid life when he set about returning psychology to its Soul rich roots in Greek mythology and Renaissance esotericism From his base teaching at Zurich s Jung Institute we follow Hillman s growing international

prominence as a maverick in the field coinciding with his relationship and eventual marriage to Patricia Berry. They would be instrumental in formulating Archetypal Psychology along with a group of young compatriots in what became known as Spring House. The new ideas taking shape moved psychology away from the dominant scientific medical model with its focus on treating the isolated individual expanding into the fertile realm of culture and the imagination. Amid prodigious writings and lectures Hillman made mythology and even alchemy relevant to our times. Delivering the prestigious Terry Lectures at Yale and being nominated for a Pulitzer Prize, Hillman returned to America after living primarily in Europe for thirty years. To the surprise of many he settled in Dallas and helped found an Institute of Humanities and Culture while taking up how to re-imagine city planning. Equally surprising was Hillman's subsequent move to rural Connecticut where he and Pat Berry resided in a nineteenth-century farmhouse. Starting in the mid 80s Hillman became a pioneering teacher in the mythopoetic men's movement alongside Robert Bly and Michael Meade where deep talk about fathers and sons and male/female relationships offered a new kind of group therapy, a cultural therapy. As Thomas Moore said of Hillman, he possessed a genius for taking any theme and shedding serious, fresh light on it. Along the way Hillman's insights came to encompass all of the arts, a poetic basis of mind that connected him to many of the most influential artists and thinkers of the modern era.

Leading Without Command Joe Mutizwa, 2015-03-10 *Leading Without Command* offers practicing and aspiring leaders in business and other disciplines a new way to lead in a world defined by volatility, uncertainty, complexity, and ambiguity. The compelling argument in this book is that leading through command, control, and deployment of raw positional power can no longer guarantee superior organizational performance on a sustainable basis. A new leadership model based on a humane perspective anchored on people-centred principles and supported by a set of appropriate skills and behaviours is put forward. This book is essential reading for anyone in a position of authority or influence over people and for anyone who needs to come to terms with the demands of a globally integrated and hypercompetitive world driven by digital technology, knowledge, and the redistribution of power from leaders to followers in organizations, nations, and societies.

The Poetics of Grammar and the Metaphysics of Sound and Sign Sergio La Porta, David Dean Shulman, 2007 Recognizing the seemingly universal notion of a grammatical cosmos, this volume addresses the question of how grammar and culturally encoded sounds and signs provide cognitive maps of reality in a variety of great civilizations.

The Courage to Lead R. Brian Stanfield, 2012-05-02 To transform society we first need to transform ourselves. *The Courage to Lead* starts from this premise and delivers a strong, simple message: if you relate authentically to life, to yourself, to the world, and to society, you start the process of social change. Grounded in more than fifty years of in-depth research and practical experience in over thirty nations, *The Courage to Lead* uses a large canvas to paint a vivid picture of leadership in its many forms: personal, family, work, organization, community. Activist stories from around the world demonstrate the profound premise and inspire a deep understanding of leadership. This is a book that changes lives. These days the complexity of life tends to leave us paralyzed.

The Courage to Lead will help people move out of their paralysis and invite them to join the ranks of those social pioneers who create what is needed for the 21st century This book speaks to you in a strange language that you do not at first remember but that you will eventually recognize as your mother tongue David Patterson CEO Northwater Capital Management The Courage to Lead provided me with a great deal of guidance and support at a time when I needed to make significant life decisions It also provided me with a framework and a language to better understand who I am where I needed to be and where I wanted to go I recommend this course to anyone who is open to a transformative experience in which one brings many important life questions into focus Garret Keown Teacher in Training Lakehead University 325 University Health Network UHN staff have participated in The Courage to Lead study program over the last five years The fundamental principles in the book align with our belief that everyone can lead from where they stand We think that leadership is not about a formal role or job title but about a philosophy values and attitude in how one approaches life This program has helped staff tap into the leader within themselves and in doing so has supported our mission to deliver excellent patient centered care Irene Wright Senior Development Manager Human Resources University Health Network

interconnected Central to this reimagining is an examination of the place of language in human life and art and in the worldview that the prophetic religions Judaism Christianity and Islam presuppose If human language is experienced only as a subset of a vastly more than human whole then it is not only humans who speak but also God and the world with all its creatures If humans internal poetry and creative imaginations are part of a greater conversation then language can have the vital power to transform the human soul and the soul of the world itself
