Catalogue of English Prose Fiction Public Library of Brookline,1901 *The Persian Alexander* ,2017-10-27 Alexander the Great 356 333 BC was to capture the imagination of his contemporaries and future generations His image abounds in various cultures and literatures Eastern and Western and

spread around the globe through oral and literary media at an astonishing rate during late antiquity and the early Islamic period. The first Iskandarnama or The Book of Alexander now held in a private collection in Tehran is the oldest prose version of the Alexander romance in the Persian tradition. Thought to have been written at some point between the eleventh and fourteenth centuries by an unknown author, the lively narrative recasts Alexander as Iskandar, a Muslim champion, a king and prophet, albeit flawed but heroic and remarkably appropriated to Islam, though the historic Alexander lived and died some 1 000 years before the birth of the faith. This new English translation of the under studied text is the first to be presented unabridged and sheds fresh light onto the shape and structure of this vital document. In so doing it invites a reconsideration of the transformation of a Western historical figure and one time mortal enemy of Persia into a legendary hero adopted by Iranian historiographic myth. Making Evangelos Venetis the translator also offers a textual analysis providing much needed context and explanations on both content and subsequent reception. This landmark publication will be invaluable to students and scholars of classical Persian literature, ancient and medieval history and Middle East studies as well as to anyone studying the Alexander tradition.

The Complete Story of the Grail Chrétien (de Troyes), 2015 The mysterious and haunting Grail makes its first appearance in literature in Chrétien de Troyes' Perceval at the end of the twelfth century. But Chrétien never finished his poem, leaving an unresolved story and an incomplete picture of the Grail. It was, however, far too attractive an idea to leave. Not only did it inspire quite separate works, his own unfinished poem was continued and finally completed by no fewer than four other writers. The Complete Story of the Grail is the first ever translation of the whole of the rich and compelling body of tales contained in Chrétien's poem and its four Continuations, which are finally attracting the scholarly attention they deserve. Besides Chrétien's original text, there are the anonymous First Continuation translated here in its fullest version, the Second Continuation attributed to Wauchier de Denain, and the intriguing Third and Fourth Continuations, probably written simultaneously with no knowledge of each other's work by Manessier and Gerbert de Montreuil. Two other poets were drawn to create preludes explaining the background to Chrétien's story, and translated here also are their works The Elucidation Prologue and Bliocadran. Only in this The Story of the Grail's complete form can the reader appreciate the narrative skill and invention of the medieval poets and their surprising responses to Chrétien's theme, not least their crucial focus on the knight as a crusader. Equally, Chrétien's original poem was almost always copied in conjunction with one or more of the Continuations, so this translation represents how most medieval readers would have encountered it.
