Origins of Kingship Traditions and Symbolism in the Great Lakes Region of Africa Birgitta Farelus, 2025-08-04 Much has hitherto been written about the people in the Great Lakes region all of which is important when seen from various perspectives This book has made use of earlier recorded observations However no history of a people or their lifestyle and thought patterns is static which means that there will always be room for further investigation at all levels The text presented

in this study seeks to be a further contribution to a fuller and more meaningful understanding of the cultural history of the Great Lakes region from the inside The author s Karagwe grass roots experience has opened up a rich cultural network exposing aspects of regional history that cut across local boundaries The Bishop Reformed Anna Trumbore Jones,2017-03-02 In the period following the collapse of the Carolingian Empire up to the Fourth Lateran Council 1215 the episcopate everywhere in Europe experienced substantial and important change brought about by a variety of factors the pressures of ecclesiastical reform the devolution and recovery of royal authority the growth of papal involvement in regional matters and in diocesan administration the emergence of the crowd onto the European stage around 1000 and the proliferation of autonomous municipal governments the explosion of new devotional and religious energies the expansion of Christendom s borders and the proliferation of new monastic orders and new forms of religious life among other changes This socio political religious economic and cultural ferment challenged bishops often in unaccustomed ways How did the medieval bishop unquestionably one of the most powerful figures of the Middle Ages respond to these and other historical changes Somewhat surprisingly this question has seldom been answered from the bishop s perspective This volume of interdisciplinary studies drawn from literary scholarship art history canon law and history seeks to break scholarship of the medieval episcopacy free from the ideological stasis imposed by the study of church reform and episcopal lordship The editors and contributors propose less a conventional socio political reading of the episcopate and more of a cultural reading of bishops that is particularly concerned with issues such as episcopal self representation conceptualization of office and authority cultural production images texts material objects space and ecclesiology ideology They contend that ideas about episcopal office and conduct were conditioned by and contingent upon time place and pastoral constituency What made a good bishop in one time and place may not have sufficed for another time and place and imposing the absolute standards of prescriptive ideologies medieval and modern obfuscates rather than clarifies our understanding of the medieval bishop and his world **The Laws And Acts Of Parliament Made by King James the First, and His Royal Successors, Kings and Queens Of Scotland** ,1683 **A Catalogue of the Harleian Collection of Manuscripts, Purchased by Authority of Parliament, for the Use of the Publick; and Preserved in the British Museum.
