The Christians of Phrygia from Rome to the Turkish Conquest Stephen Mitchell, 2023-07-10 The towns and villages of Phrygia a predominantly rural region of inner Asia Minor provide richer documentation of their early Christian communities than any other part of the Roman empire This includes the earliest lengthy Christian funerary text coin types depicting Noah and the Flood introduced by Christians at the Phrygian emporium of Apamea the famous Christians for Christians inscriptions and more than a hundred other pre Constantinian grave monuments The abundant evidence for the Christian presence up the Turkish invasions throws new light on continuity between Late Antiquity and the Middle Byzantine period and on the warfare between the Byzantines and Turks in the 11th century This is the first exhaustive regional study since 1897 **Edmond Warre, D.D., C.B., C.V.O** Charles Robert Leslie Fletcher, 1922 *The Great Agrarian Conquest*

Neeladri Bhattacharya, 2019-09-01 This book examines how over colonial times the diverse practices and customs of an existing rural universe with its many forms of livelihood were reshaped to create a new agrarian world of settled farming While focusing on Punjab India this pathbreaking analysis offers a broad argument about the workings of colonial power the fantasy of imperialism it says is to make the universe afresh Such radical change Neeladri Bhattacharya shows is as much conceptual as material Agrarian colonization was a process of creating spaces that conformed to the demands of colonial rule It entailed establishing a regime of categories tenancies tenures properties habitations and a framework of laws that made the change possible Agrarian colonization was in this sense a deep conquest Colonialism the book suggests has the power to revisualize and reorder social relations and bonds of community It alters the world radically even when it seeks to preserve elements of the old The changes it brings about are simultaneously cultural discursive legal linguistic spatial social and economic Moving from intent to action concepts to practices legal enactments to court battles official discourses to folklore this book explores the conflicted and dialogic nature of a transformative process By analyzing this great conquest and the often silent ways in which it unfolds the book asks every historian to rethink the practice of writing agrarian history and reflect on the larger issues of doing history **Lords and Communities in Early Medieval East Anglia** Andrew

Wareham, 2005 This text is an investigation of the changing power structures of the English aristocracy in medieval England The author uses the organization of the aristocracy in East Anglia as a case study to explore the issue *Political Culture in the Latin West, Byzantium and the Islamic World, c.700-c.1500* Catherine Holmes, Jonathan Shepard, Jo van Steenbergen, Björn Weiler, 2021-08-26 This comparative study explores three key cultural and political spheres the Latin west Byzantium and the Islamic world from Central Asia to the Atlantic roughly from the emergence of Islam to the fall of Constantinople These spheres drew on a shared pool of late antique Mediterranean culture philosophy and science and they had monotheism and historical antecedents in common Yet where exactly political and spiritual power lay and how it was exercised differed This book focuses on power dynamics and resource allocation among ruling elites the legitimisation of

power and property with the aid of religion and on rulers interactions with local elites and societies Offering the reader route maps towards navigating each sphere and grasping the fundamentals of its political culture this set of parallel studies offers a timely and much needed framework for comparing the societies surrounding the medieval Mediterranean

The Publishers' Trade List Annual, 1974 *Religious Patronage in Anglo-Norman England, 1066-1135* Emma Cownie, 1998

Although the Norman Conquest of 1066 swept away most of the secular and ecclesiastical leaders of pre Conquest England it held some positive aspects for English society such as its effects on Anglo Saxon monastic foundations which this study explores The first part deals in depth with five individual case studies Abingdon Gloucester Bury St Edmunds St Albans and St Augustine s Canterbury as well as Fenland and other houses showing how despite mixed fortunes the major houses survived to become the richest in England The second part places the experiences of the houses in the context of structural changes in religious patronage as well as within the social and political nexus of the Anglo Norman realm Dr Cownie analyses the pattern of gifts to religious houses on both sides of the Channel looking at the reasons why they were made EMMA COWNIE gained her Ph D from the University of Wales at Cardiff she currently holds a research fellowship at King s College London

The New Alinement of Life Ralph Waldo Trine, 1914 Alien Rule Michael Hechter, 2013-10-31 This book argues that alien rule can become legitimate to the degree that it provides governance that is both effective and fair Governance is effective to the degree that citizens have access to an expanding economy and an ample supply of culturally appropriate collective goods Governance is fair to the degree that rulers act according to the strictures of procedural justice These twin conditions help account for the legitimation of alien rulers in organizations of markedly different scale The book applies these principles to the legitimation of alien rulers in states the Republic of Genoa nineteenth and twentieth century China and modern Iraq colonies Taiwan and Korea under Japanese rule and occupation regimes as well as in less encompassing organizations such as universities academic receivership corporations mergers and acquisitions and stepfamilies Finally it speculates about the possibility of an international market in governance services
