Kinship Diplomacy In The Ancient World

R. Scott Smith, Stephen M. Trzaskoma

Kinship Diplomacy In The Ancient World:

Kinship Diplomacy in the Ancient World Christopher Prestige Jones, 1999 In this study of the political uses of perceived kinship from the Homeric age to Byzantium Jones provides an unparalleled view of mythic belief in action and addresses fundamental questions about communal and national identity *Heresy and Identity in Late Antiquity* Eduard Iricinschi, Holger M. Zellentin, 2008 The papers collected in this volume shift the focus away from heretics and heresy to heresiological discourse by contextualizing the late antique Jewish and Christian groups that produced our extant literature The contributors to the volume draw from multiple literary corpora and genres bringing a variety of late antique perspective to explore the discursive construction of the Other They unravel ethnic identities and re create the multiple voices textured in the dialogue between the orthodox and heretical writers BOOK JACKET *The Oxford Handbook of Demosthenes* Gunther Martin, 2019 As a speechwriter orator and politician Demosthenes captured embodied and shaped his time This Handbook explores the many facets of his life work and time giving particular weight to his social and historical context and thereby illustrating the interplay and mutual influence between his rhetoric and the environment from which it emerged *Politics of Pasts and Futures in (Post-)Imperial Contexts* Sebastian Fahner, Christian Feichtinger, Rogier Heijden, 2024-12-02 Although empires have played a decisive role in political thinking and the orientation of political goals at all times the focus of research has so far mostly been on spatial and ideological aspects This volume on the other hand offers a multi disciplinary collection of studies that deal with the instrumentalization and ongoing impacts of perspectives on empire and their place in time Coming from archaeology history art history literary studies and social sciences the individual case studies discuss perceptions of imperial histories and imagined futures of empires both in imperial and in post imperial contexts The transcending historical significance of the imperial ideas and ideals shows the deep and long lasting effects of empire in landscapes mindscapes and social structures The diachronic cut through all epochs from antiquity to modern times is complemented by a broad global view to deepen the temporal understanding of imperial imaginaries as well as their political implications **Beyond the Second Sophistic** Tim Whitmarsh, 2020-05-05 The Second Sophistic traditionally refers to a period at the height of the Roman Empire's power that witnessed a flourishing of Greek rhetoric and oratory and since the 19th century it has often been viewed as a defense of Hellenic civilization against the domination of Rome This book proposes a very different model Covering popular fiction poetry and Greco Jewish material it argues for a rich dynamic and diverse culture which cannot be reduced to a simple model of continuity Shining new light on a series of playful imaginative texts that are left out of the traditional accounts of Greek literature Whitmarsh models a more adventurous exploratory approach to later Greek culture Beyond the Second Sophistic offers not only a new way of looking at Greek literature from 300 BCE onwards but also a challenge to the Eurocentric aristocratic constructions placed on the Greek heritage Accessible and lively it will appeal to students and scholars of Greek literature and culture Hellenistic Judaism world literature and cultural theory

The Oxford Handbook of Greek and Roman Mythography R. Scott Smith, Stephen M. Trzaskoma, 2022 Offers the first comprehensive survey of mythographical impulses and output from the archaic period up to late antiquity with further essays tracing the influence of mythography into the western Medieval Byzantine and Renaissance traditions Features essays on the intersection of mythography and other intellectual pursuits including ancient art and education Includes contributions from both established scholars and emerging voices Book jacket

Sustainable Diplomacies C. Constantinou, J. Der Derian, James Der Derian, 2010-08-11 Sustainable Diplomacies looks at how to create conditions for the reconciliation of rival ways of living the formation of durable relationships and the promotion of global peace and security The authors draw inspiration from the history of diplomatic thought as well as from environmental anthropological religious and postcolonial studies Wandering Poets and Other Essays on Late Greek Literature and Philosophy Alan Cameron, 2016 This book presents radically revised and updated versions of the most important and innovative articles published by Alan Cameron in the field of late antique Greek poetry and philosophy attempting to define pagan and Christian elements in early Byzantine literary culture The longest chapter presents a new account of the closing of the Academy of Athens and a new article discusses recent theories on the date of the epigrammatist Palladas

Lykophron's Alexandra, Rome, and the Hellenistic World Simon Hornblower, 2018 This volume takes as its subject one of the most important Greek poems of the Hellenistic period the Alexandra attributed to Lykophron probably written in about 190 BC At 1474 lines and with a riddling narrative and a preponderance of unusual vocabulary it is a notoriously challenging prospect for scholars but it also sheds crucial light on Greek religion in particular the role of women and on foundation myths and myths of colonial identity Most of the poem purports to be a prophecy by the Trojan princess Cassandra who foretells the conflicts between Europe and Asia from the Trojan Wars to the establishment of Roman ascendancy over the Greek world in the poet's own time The central section narrates in the future tense the dispersal of returning Greek heroes throughout the Mediterranean zone and their founding of new cities This section culminates in the Italian wanderings and foundational activity of the Trojan refugee Aeneas Cassandra's own kinsman Following Simon Hornblower's detailed full length commentary on the Alexandra OUP 2015 paperback 2017 this monograph asserts the poem's importance as not only a strongly political work but also as a historical document of interest to cultural and religious historians and students of myths of identity Divided into two Parts the first explores Lykophron's geopolitical world paying special attention to south Italy perhaps the bilingual poet's own area of origin Sicily and Rhodes it suggests that the recent hostile presence of Hannibal in south Italy surfaces as a frequent yet indirectly expressed concern of the poem The thematic second Part investigates the Alexandra's relation to the Sibylline Oracles and to other apocalyptic literature of the period and argues for its cultural and religious topicality The Conclusion puts the case for the 190s BC as a turning point in Roman history and contends that Lykophron demonstrates a veiled awareness of this especially of certain peculiar features of Roman colonizing policy in that decade

Between Ostrogothic and

Carolingian Italy Fabrizio Oppedisano, 2023-10-03 The victory of Justinian achieved after a lacerating war put an end to the ambitious project conceived and implemented by Theoderic after his arrival in Italy that of a new society in which peoples divided by centuries old cultural barriers would live together in peace and justice without renouncing their own traditions but respecting shared principles inspired by the values of civitas What did this great experiment leave to Europe and Italy in the centuries to come What were the survivals and the ruptures what were the revivals of that world in early medieval society How did that past continue to be recounted and how did it interact with the present especially in the decisive moment of the Frankish conquest of Italy This book aims to confront these questions and it does so by exploring different themes concerning politics and ideology culture and literary tradition law epigraphy and archaeology **The Hellenistic World** Daniel Ogden, 2002-12-31 The history of the hellenistic world has long been more popular than has widely been realized This volume seeks to contribute to that popularity Here are fourteen new perspectives on the period from a distinguished and international group of scholars Their varied papers are grouped together around five themes Structure and System King and Court Family and Kinship Landscape and People Art and Image The book is conceived as a sister volume to CPW s successful Archaic Greece New Approaches and New Evidence edited by Nick Fisher and Hans van Wees 1998 Slaves to Rome Myles Lavan, 2013-02-14 This study in the language of Roman imperialism provides a provocative new perspective on the Roman imperial project It highlights the prominence of the language of mastery and slavery in Roman descriptions of the conquest and subjection of the provinces More broadly it explores how Roman writers turn to paradigmatic modes of dependency familiar from everyday life not just slavery but also clientage and childhood in order to describe their authority over and responsibilities to the subject population of the provinces It traces the relative importance of these different models for the imperial project across almost three centuries of Latin literature from the middle of the first century BCE to the beginning of the third century CE **Paul and Sacrifice in Corinth** Martin Sanfridson , 2025-03-17 The Social Roots of Biblical Yahwism Stephen L. Cook, 2004 Sure to provoke discussion and debate as it offers a unique approach to some old and perplexing issues in the history of ancient Israel and its religion Cook s study is a bold new proposal for synthesizing the social history of Israel s religious traditions Among the many Yahwisms coexisting in ancient Israel was an initially small minority stream of theological tradition composed of geographically and socially diverse groups in northern and southern Israel These groups shared a religious commitment to a covenantal village based land oriented Yahwism that arose before the emergence of Israelite kingship It eventually rose to dominance and its theology provided robust resources for dealing with the Babylonian exile It thus came to occupy a prominent place in the present canon of the Hebrew Bible Cook combines detailed study of biblical texts with a carefully constructed social scientific method and body of data to argue for the early origins of biblical Yahwism This book is written to be accessible to lay readers and also of significant interest to Hebrew Bible students and specialists c From publisher s description Beyond the Fifth Century Ingo Gildenhard, Martin

Revermann,2010-07-30 Beyond the Fifth Century brings together 13 scholars from various disciplines Classics Ancient History Mediaeval Studies to explore interactions with Greek tragedy from the 4th century BCE up to the Middle Ages The volume breaks new ground in several ways Its chronological scope encompasses periods that are not usually part of research on tragedy reception especially the Hellenistic period late antiquity and the Middle Ages The volume also considers not just performance reception but various other modes of reception between different literary genres and media inscriptions vase paintings recording technology There is a pervasive interest in interactions between tragedy and society at large such as festival culture and entertainment both public and private education religious practice even life style Finally the volume features studies of a comparative nature which focus less on genealogical connections although such may be present but rather on the study of equivalences *Homer between History and Fiction in Imperial Greek Literature* Lawrence Kim,2010-09-23 Did Homer tell the truth about the Trojan War If so how much and if not why not The issue was hardly academic to the Greeks living under the Roman Empire given the centrality of both Homer the father of Greek culture and the Trojan War the event that inaugurated Greek history to conceptions of Imperial Hellenism This book examines four Greek texts of the Imperial period that address the topic Strabo s Geography Dio of Prusa s Trojan Oration Lucian s novella True Stories and Philostratus fictional dialogue Heroicus and shows how their imaginative explorations of Homer and his relationship to history raise important questions about the nature of poetry and fiction the identity and intentions of Homer himself and the significance of the heroic past and Homeric authority in Imperial Greek culture Colonial Geopolitics and Local Cultures in the Hellenistic and Roman East (3rd century BC - 3rd century AD) Hadrien Bru,Adrian George Dumitru,Nicholas Sekunda,2021-12-23 What changes in the material culture can we observe when a state is overwhelming a local population with soldiers katoikoi and civil officials or merchants What were the mutual influences between native and colonial cultures This collection addresses these questions and many more focusing on the Hellenistic and Roman East A *Handbook to the Reception of Classical Mythology* Vanda Zajko,Helena Hoyle,2017-04-10 A Handbook to the Reception of Classical Mythology presents a collection of essays that explore a wide variety of aspects of Greek and Roman myths and their critical reception from antiquity to the present day Reveals the importance of mythography to the survival dissemination and popularization of classical myth from the ancient world to the present day Features chronologically organized essays that address different sets of myths that were important in each historical era along with their thematic relevance Features chronologically organized essays that address different sets of myths that were important in each historical era along with their thematic relevance Offers a series of carefully selected in depth readings including both popular and less well known examples Being Greek Under Rome Simon Goldhill,2001-06-07 This book explores the cultural conflicts of the second century CE Roman Empire through the perspective of Greek writings The specially commissioned essays investigate the intellectual and social tensions in the era which gave rise to Christianity *Spartan*

Oliganthropia Timothy Doran, 2018-11-26 Sparta's dominance over other Greek states was greatly hampered and finally ended because of the impossibility of maintaining its power in the face of oliganthropia an irreversible demographic shortfall of its citizen manpower In *Spartan Oliganthropia* Timothy Doran examines the population decline of the Spartiates in the Classical and Hellenistic eras a reduction from 8 000 to fewer than 1 000 The causes and consequences of this decline are significant not only for ancient Greek history but also for population studies of pre industrial societies and population dynamics more generally This work offers a fresh survey of representative modern scholarship on this phenomenon as well as its own conclusions discussing topics such as elite under reproduction wealth polarization the link between female empowerment and low birthrates and ideological notions of eugenic exclusivity suggesting avenues for further research

Whispering the Techniques of Language: An Emotional Journey through **Kinship Diplomacy In The Ancient World**

In a digitally-driven earth where screens reign supreme and immediate connection drowns out the subtleties of language, the profound strategies and psychological nuances hidden within words usually get unheard. However, nestled within the pages of **Kinship Diplomacy In The Ancient World** a fascinating literary treasure sporting with fresh feelings, lies an exceptional quest waiting to be undertaken. Written by an experienced wordsmith, that charming opus encourages readers on an introspective trip, softly unraveling the veiled truths and profound impact resonating within the very fabric of each word. Within the psychological depths with this poignant review, we will embark upon a honest exploration of the book is key subjects, dissect their charming writing model, and succumb to the effective resonance it evokes heavy within the recesses of readers hearts.
