Laclau And Mouffe The Radical Democratic Imaginary:

Laclau and Mouffe Anna Marie Smith, 2012-10-12 Laclau and Mouffe The Radical Democratic Imaginary is the first full length overview of the important work of Ernesto Laclau and Chantal Mouffe Anna Marie Smith clearly shows how Laclau and Mouffe's work has brought Gramscian poststructuralist and psychoanalytic perspectives to revitalize traditional political theory With clarity and insight she shows how they have constructed a highly effective theory of identity formation and power relations that carefully draws from the criticism of political theory from postmodern anti foundationalist political theory Why Democracy? Paul Fairfield, 2009-01-08 Reexamines the normative justification for democratic politics **Key Thinkers from Critical Theory to Post-Marxism** Simon Tormey, Jules Townshend, 2006-07-07 Tormey and Townshend have succeeded not only in making accessible the notoriously evasive ideas of Post Marxist thinkers they have begun the vital work of critically examining their contribution to Marx's project of overcoming capitalism James Martin Goldsmiths University of London Excellent textbook critical challenging and thoroughly engaging Richard White Sheffield Hallam University In language which is clear without being simplistic Tormey and Townshend help readers think about ways to live with and without Marx in the wake of Marxism's historical failures as well as its continuing relevance to life under globalizing capitalism Mark Rupert Syracuse University **Key Thinkers in Critical Theory to Post Marxism** is a comprehensive introduction to perhaps the most key intellectual trend in contemporary critical theory In jargon free language it seeks to unpack explain and review many of the key figures behind the rethinking of the legacy of Marxism in theory and practice Key thinkers covered include Cornelius Castoriadis Jean Francois Lyotard Deleuze and Guattari Laclau and Mouffe Agnes Heller Jacques Derrida Jürgen Habermas and post Marxist feminism Each chapter covers a key thinker or contribution and thus can be read as a stand alone introduction to the principal aspects of their approach Each chapter is followed by a summary of key points with a guide to further reading Underlying the text is also the central question What is Post Marxism Instead of viewing Post Marxism as an ideology movement or tradition of theorizing the authors advocate Post Marxism as a loose appellation describing those who have problematised Marx's approach to understanding and challenging contemporary capitalism As such the book also offers an engaging commentary on some of the key political developments of our time including for example the anti globalisation movement **Key Thinkers in Critical Theory to Post Marxism** provides an ideal introduction to a hitherto complex subject and will be essential reading for students of contemporary social and political inquiry

Hegemony and Education Deb J. Hill, 2007-01-01 Hegemony and Education explores how the educational insights implicit in Antonio Gramsci's historical materialist outlook have been reconciled to the post Marxist theory of radical democracy The author argues that there is an urgent need to redefine the dynamics of hegemony as a theory centering on the problem of cognitive and moral relational and valuational submissiveness that is a problem indicative of the pathologies of capitalism with respect to democratic theorizing Anti-Zionism and Antisemitism Alvin H. Rosenfeld, 2019-01-09 Seventeen essays by

scholars examining the links between anti-Semitism and attitudes toward Israel in the current political climate How and why have anti-Zionism and antisemitism become so radical and widespread This timely and important volume argues convincingly that today's inflamed rhetoric exceeds the boundaries of legitimate criticism of the policies and actions of the state of Israel and conflates anti-Zionism with antisemitism The contributors give the dynamics of this process full theoretical political legal and educational treatment and demonstrate how these forces operate in formal and informal political spheres as well as domestic and transnational spaces They offer significant historical and global perspectives of the problem including how Holocaust memory and meaning have been reconfigured and how a singular and distinct project of delegitimization of the Jewish state and its people has solidified This intensive but extraordinarily rich contribution to the study of antisemitism stands out for its comprehensive overview of an issue that is both historical and strikingly timely

Post-Truth, Fake News and Democracy Johan Farkas, Jannick Schou, 2019-08-23 Western societies are under siege as fake news post truth and alternative facts are undermining the very core of democracy This dystopian narrative is currently circulated by intellectuals journalists and policy makers worldwide In this book Johan Farkas and Jannick Schou deliver a comprehensive study of post truth discourses They critically map the normative ideas contained in these and present a forceful call for deepening democracy The dominant narrative of our time is that democracy is in a state of emergency caused by social media changes to journalism and misinformed masses This crisis needs to be resolved by reinstating truth at the heart of democracy even if this means curtailing civic participation and popular sovereignty Engaging with critical political philosophy Farkas and Schou argue that these solutions neglect the fact that democracy has never been about truth alone it is equally about the voice of the democratic people *Post Truth Fake News and Democracy* delivers a sobering diagnosis of our times It maps contemporary discourses on truth and democracy foregrounds their normative foundations and connects these to historical changes within liberal democracies The book will be of interest to students and scholars studying the current state and future of democracy as well as to a politically informed readership

Gender under Construction Ewa Glapka, Barbara Braid, 2018-03-27 Gender performativity its variances depending on their historical social and cultural contexts and the rituals representations and institutions involved in gender performances are some of the issues the authors addressed in this collection *Gender under Construction* takes a non essentialist view of gender and provides illustrative examples of gender constructive processes by pursuing them in various contexts and by means of diverse methodologies In so doing the book demonstrates that it is unfeasible to consider gender as a fixed biological trait Instead the authors propose to look at gender performance as ongoing processes in which femininities and masculinities enter multiple and dynamic intersections with a myriad of categories including those of nationality ethnicity class sexuality and age Contributors are Iqbal Akthar Renata uk Ewa Glapka Deirdre Hynes Borja Ibaseta Martin King Ana Cristina Moreira Lima Mervi Patosalmi Marcia Bastos de S Andr a Costa da Silva Vera Helena Ferraz de Siqueira Christi van der Westhuizen and Isabelle V Zinn

Discourse Theory and

Critical Media Politics L. Dahlberg, S. Phelan, 2011-10-12 A systematic examination of the relationship between post Marxist discourse theory and media studies This volume interrogates discourse theory as read via the work of Ernesto Laclau and Chantal Mouffe through an engagement with major approaches to critical media politics and a range of issues in contemporary media politics

Visions of Statesmanship David Hansen, 2024-03-12 In *Visions of Statesmanship* A Statesman's Imagination and Autonomy David Hansen provides a critical examination of the figure of the statesman as it has been presented in the philosophical reflections of three key thinkers Plato Yannis Markrygiannis and Cornelius Castoriadis In the course of the analysis the chapters broadly investigate and assess the complex reception history that obtains among this particular configuration of intellectual history by offering authors activists and texts linked to critical political and social theory in German French and Anglo American contexts The focus falls on the imagination variously conceived and notions of autonomy and how these ideals potentially confront specific conditions of political and social reality What emerges across the millennia is an episodic account of dialectical encounters between freedom and unfreedom how philosophical endeavors discern alternatives that raise consciousness of societal possibilities that challenge realities with the aim of changing practices of domination oppression and exploitation Rather than regard intellectual and literary labor as ideological reflections of the material base Hansen considers to what extent these free works of the imagination offer concrete visions that would increase justice communal harmony and global peace historical contingencies and limitations

Democratizing Biblical Studies Elisabeth Schüssler Fiorenza, 2009-01-01 Schüssler Fiorenza addresses such questions as What are the educational practices and procedures that are advocated by traditional educational models and how can they be changed What kinds of educational and communicative practices do biblical studies need to develop in order to fashion an emancipatory democratizing rhetorical space and a forum of many voices To envision articulate debate and practice a radical democratic ethos of biblical studies she identifies emerging didactic models that can foster such a radical democratic style of learning Pbk cover

In the Space of Theory Matthew Sparke, 2005 How is the meaning of the hyphen in nation state changing in the context of globalization and proliferating political struggles How can we investigate the transformation of the nation state by marking the normally unmarked hyphen in geography Debunking deterritorialization both as a discourse and as an antiessentialist abstraction Matthew Sparke offers answers to these questions by examining the contemporary geographies of the United States and Canada In *In the Space of Theory* details the territorial implications of the Iraq war NAFTA welfare reform constitutional reform cross border regional development and the legal battles of First Nations In using antiessentialist arguments to elucidate the complexity of these developments Sparke seeks to ground and critique postfoundational theory itself He shows how the postfoundational arguments of Homi Bhabha Arjun Appadurai Timothy Mitchell Ernesto Laclau Chantal Mouffe Michael Hardt and Antonio Negri obscure politically important processes of reterritorialization at the same time they deterritorialize diverse theoretical assumptions about the nation state Engaged with

theory and grounded in close study of cultural political and economic change In the Space of Theory explores the geographies of struggle that at once underlie and undermine the hyphen in contemporary nation states Matthew Sparke is associate professor of geography and international studies at the University of Washington *Hegemony and Heteronormativity* María do Mar Castro Varela, 2016-04-22 This book reflects on the political in queer theory and politics by revisiting two of its key categories hegemony and heteronormativity It explores the specific insights offered by these categories and the ways in which they augment the analysis of power and domination from a queer perspective whilst also examining the possibilities for political analysis and strategy building provided by theories of hegemony and heteronormativity Moreover in addressing these issues the book strives to rethink the understanding of the term queer so as to avoid narrowing queer politics to a critique of normative heterosexuality and the rigid gender binary By looking at the interplay between hegemony and heteronormativity this ground breaking volume presents new possibilities of reconceptualizing the political from a queer perspective Investigating the effects of queer politics not only on subjectivities and intimate personal relations but also on institutions socio cultural processes and global politics this book will be of interest to those working in the fields of critical theory gender and sexuality queer theory postcolonial studies and feminist political theory Encyclopedia of Critical Political Science Clyde W. Barrow, 2024-03-14 An indispensable and exemplary reference work this Encyclopedia adeptly navigates the multidisciplinary field of critical political science providing a comprehensive overview of the methods approaches concepts scholars and journals that have come to influence the discipline s development over the last six decades **The Oxford Handbook of British Politics** Matthew Flinders, Andrew Gamble, Colin Hay, Michael Kenny, 2009-07-16 The study of British politics has been reinvigorated in recent years as a generation of new scholars seeks to build upon a distinct disciplinary heritage while also exploring new empirical territory and finds much support and encouragement from previous generations in forging new grounds in relation to theory and methods It is in this context that The Oxford Handbook of British Politics has been conceived The central ambition of the Handbook is not just to illustrate both the breadth and depth of scholarship that is to be found within the field It also seeks to demonstrate the vibrancy and critical self reflection that has cultivated a much sharper and engaging and notably less insular approach to the terrain it seeks to explore and understand In this emphasis on critical engagement disciplinary evolution and a commitment to shaping rather than re stating the discipline The Oxford Handbook of British Politics is consciously distinctive In showcasing the diversity now found in the analysis of British politics the Handbook is built upon three foundations The first principle that underpins the volume is a broad understanding of the political It covers a much broader range of topics themes and issues than would commonly be found within a book on British politics This emphasis on an inclusive approach also characterises the second principle that has shaped this collection namely diversity in relation to commissioned authors The final principle focuses on the distinctiveness of the study of British politics Each chapter seeks to

reflect on what is distinctive both in terms of the empirical nature of the issue of concern and the theories and methods that have been deployed to unravel the nature and causes of the debate The result is a unique volume that draws upon the intellectual strengths of the study of British politics reflects the innate diversity and inclusiveness of the discipline isolates certain distinctive issues and then reflects on their broader international relevance and finally looks to the future by pointing towards emerging or overlooked areas of research

It will also introduce key ideas and debates within deconstruction to undergraduates and postgraduate students across the social sciences

Deconstruction and Democracy Alex Thomson, 2007-12-15 No democracy without deconstruction
Deconstruction and Democracy evaluates and substantiates Derrida's provocative claim assessing the importance of this influential and controversial contemporary philosopher's work for political thought. Derrida addressed political questions more and more explicitly in his writing yet there is still confusion over the politics of deconstruction. Alex Thomson argues for a fresh understanding of Derrida's work which acknowledges both the political dimension of deconstruction and its potential contribution to our thinking about politics. The book provides cogent analysis and exegesis of Derrida's political writings, explores the implications for political theory and practice of Derrida's work and brings Derrida's work into dialogue with other major strands of contemporary political thought. Deconstruction and Democracy is the clearest and most detailed engagement available with the politics of deconstruction and is a major contribution to scholarship on the later works of Jacques Derrida, most notably his *Politics of Friendship*.
Creating Destruction, 2011-01-01 This volume offers new and fascinating insights into some of the most urgent and relevant dimensions of violence in our time. Specialists from a broad range of disciplines explore some of the reasons and ways in which humans choose to harm one another. The two sections of the book engage a common theme: namely, how ideological constructions influence, facilitate and shape the understanding of our own involvement in violence. Whilst the first section focuses on one specific form of violence, namely genocide, the second explores our construction of violent images verbally, visually, aurally, legally, socially, imaginally. This book should be required reading for anyone who wants to understand the multi-faceted and complex dimensions of violence in our contemporary global world.

Democracy, Dialectics, and Difference Brian C. Lovato, 2015-12-07 It has been nearly two centuries since Marx famously turned Hegel on his head in order to repurpose dialectics as a revolutionary way of thinking about the internal contradictions of our social relations. Despite critiques from post-structuralists, post-colonialists and others, there has been a resurgence of dialectical thought among political theorists as of late. This resurgence has coincided with a rise in the mention of words like class warfare, socialism and communism among the general public on the streets of Seattle in 1999, in Cairo's Tahrir Square in the actions of the Greek anarchists and the Spanish indignados and in the rallying cry of 'we are the 99%' of the Occupy Movement and in academia. This book explores how it is that dialectical thought might respond to the critiques brought forth by those on the left who are critical of Marxism's universalizing and authoritarian legacy. Brian C. Lovato singles out Ernesto Laclau and Chantal Mouffe as the key interlocutors in this ongoing conversation between Marxism and post-structuralism. Laclau and Mouffe argue that Marxist theory is inherently authoritarian, cannot escape a class reductionist theory of revolutionary subjectivity and is bound by a closed Hegelian ontology. Lovato argues the opposite by turning to two heterodox Marxist thinkers, Raya Dunayevskaya and C. L. R. James, in order to construct a radically democratic, dynamic and open conceptualization of dialectical thought. In doing so, he advances a vision of Marxist theory that might

serve as a resource to scholars and activists committed not only to combatting capitalism but also to fighting against colonialism patriarchy white supremacy and heteronormativity The writings of Dunayevskaya and James allow for Marxism to become relevant again in these tumultuous early years of the 21st century
