## **L'affaire Coffin:**

, L'affaire Diane Johnson, 2004-08-31 Johnson is more droll than Henry James to whom she's been compared and she's as witty as a modern day Voltaire. Vraiment L'affaire c'est irresistible. Publishers Weekly. Amy Hawkins, a Palo Alto girl who made herself a dot com fortune, goes to France to get a sheen of sophistication and perhaps to have an affair that will ruffle her all too steady heart. She starts her quest in a glamorous resort in the French Alps amid an assortment of aristocrats and ski enthusiasts. But when two of the hotel's guests are swept away by an avalanche, Adrian's children, young and old, legitimate and illegitimate, assemble to protect their interests, feuding under the competing laws of the British, American, and French systems. Amy already suspects because she is American, steps in to assist and unintentionally sets in motion a series of events that spotlight ancient national differences, customs, and laws. Filled with love, sex, death, and travel, L'affaire is a National Book Award finalist. Diane Johnson at her very best. **Historic Parallels to L'affaire Dreyfus** Edgar Sanderson, 1900 Canadian

Mysteries of the Unexplained John Marlowe, 2009-08-06 A vast country spanning an entire continent, Canada is a land of many secrets. Canadian Mysteries of the Unexplained is a compelling exploration into some of the country's most baffling events, creatures, and personages. From the chilling fate of the Franklin Expedition to the brutal murder of magnate Harry Oakes and the repeated sightings of the enigmatic Sasquatch, author John Marlowe delves into the supernatural, the unsolved, and the inexplicable. Stories include The Flesh-Hungry Wendigo, The Massacre of the Donnellys, The Final Voyage of the Mary Celeste, The Execution of Wilbert Coffin, The Shag Harbour UFO. These hair-raising tales of ghosts, vampires, and fearful apparitions are redolent of the unspoken fears that walk with us down dark alleys or through misty parks late at night.

**L'affaire Famille** Tim Parise, 2013-04-22 A supertanker goes missing in the Mozambique Channel. A month later it is rediscovered far out at sea by the Bourbon-Busset family descendants of thirty kings and at least one pope who just happen to be yachting in the neighborhood. Over the objections of their own crew and the American government, the Bourbon-Bussets carry the tanker into Mauritius, claim a quarter of its value in admiralty court, and win the case. After the president of Togo disappears from his mistress's bed in the middle of the night and is mysteriously restored to her before morning, he subsequently makes major alterations to Togo's annual budget and foreign policy. Fortunately, he doesn't have to push them through alone. The other key men in his government also appear to have something to hide and thus something to gain by following his lead. Although they may be more forthcoming about exactly what they are hiding with the Chinese ambassador in central Africa, British reporter Tony Henderson has stumbled onto something unusual: revolutionaries who not only don't want publicity for their cause, they actually go to great lengths to avoid it. He is gently but firmly shooed away from potential hot spots and told to go report on local agricultural complaints instead. Much to his chagrin, the Ugandan government may be on the verge of collapse with a massive popular movement to restore the traditional kingdoms underway, and no one will tell him about it. On the other side of the world, Dr. Robert Saul, a clever biochemist with a beautiful but vapid wife and a taste for

ignoring patients and perjuring himself in his spare time is being courted by a major pharmaceutical firm His unpleasant personality is canceled out by one very important consideration he has developed a revolutionary antiviral called VIPER which not only cures the common cold but also HIV and everything in between The clinical trials look promising In another twenty years AIDS will have been consigned to the history books However the Bourbon Bussets have other ideas In their opinion twenty years is too long to wait and any price too high to pay for public access to the vaccine Armed with a ready supply of cash and a creative approach to private property and with their machinations stretching from Swaziland to Rome to Ciudad Juarez they go after Dr Saul themselves They want him to release the patent for the antiviral into the public domain And if he proves uncooperative well then they will have to find a way to persuade him The price of failure is twenty million dead Or more
