Lake Superior Story And Spirit:

Lake Superior John Mahan, Ann Mahan, 1997-01

Lake Superior John Mahan, Ann Mahan, Jack Vallentyne, 1998

Lake Superior John Mahan, Ann Mahan, 1996 Through the use of stunning photography and evocative prose the authors tell the whole story of Lake Superior the world's largest body of fresh water Their encompassing work explores the beauty the fragility and the spirit of this national treasure In a narrative of incredible depth John and Ann Mahan take us from the formation of the lake through its countless years of development and its role in human history right up to the precarious ecological position it holds today Complete with 136 brilliant full color photos Comprehensive text Full color time line Locator map An authoritative work of unparalleled scope the text makes clear exactly what it is that threatens the ecological balance of the Great Lake and better yet what we can do to halt this march toward a world resembling that depicted in Rachel Carson's *Silent Spring* Focus on International Joint Commission Activities, 1995 *Independent Publisher*, 1998

Technoscientific Angst Raphael Sassower, What responsibility do the Manhattan Project scientists have for the atomic devastation of Hiroshima The Krupps scientists for the crematoriums at Auschwitz Disturbing questions like these are at the heart of this book a sobering exploration of scientific and intellectual responsibility In a world in which daily technological developments from the space shuttle to genetic engineering raise complex political and economic questions *Technoscientific Angst* provides a framework for assessing the social impact and ethical implications of scientific work **Great Lakes and Midwest Catalog** Partners Book Distributing, 2006 **What Jane Knew** Maureen Konkle, 2024-04-09 The children of an influential Ojibwe Anglo family Jane Johnston and her brother George were already accomplished writers when the Indian agent Henry Rowe Schoolcraft arrived in Sault Ste Marie in 1822 Charged by Michigan's territorial governor with collecting information on Anishinaabe people he soon married Jane discovered the family's writings and began soliciting them for traditional Anishinaabe stories But what began as literary play became the setting for political struggle Jane and her family wrote with attention to the beauty of Anishinaabe narratives and to their expression of an Anishinaabe world that continued to coexist with the American republic But Schoolcraft appropriated the stories and published them as his own writing seeking to control their meaning and to destroy their impact in service to the civilizing interests of the United States In this dramatic story Maureen Konkle helps recover the literary achievements of Jane Johnston Schoolcraft and her kin revealing as never before how their lives and work shed light on nineteenth century struggles over the future of Indigenous people in the United States *The Memory of Nature in Aboriginal, Canadian and American Contexts* Françoise Besson, Claire Omhòvère, Héliane Ventura, 2014-06-12 This volume engages the reader's interest in the relationship that binds man to nature a relationship which makes itself manifest through certain literary or visual artefacts produced by Native or non Native writers and artists It ranges from the study of literatures mainly from Canada including Quebec and Acadia but also from Britain the United States of America France Turkey and Australia to the exploration of films photographs paintings and sculptures produced by

Aboriginal artists from North America Thanks to a relational paradigm founded on spatial and temporal enlargement it reimagines the critical outlook on indigenous production by instigating a dialogue between endogenous and exogenous scholars novelists and artists and by weaving together interdisciplinary approaches spanning anthropology geology ecocriticism and the study of myths From the writings by Scott Momaday to those by Tomson Highway from Pauline Johnson to Louise Erdrich or from the photographs by William McFarlane Notman and Edward Burtynsky or the films by Randy Redroad to the paintings by Emily Carr it explores art as the sedimentation of nature It simultaneously interrogates the representation of nature and the nature of representation as a geological and generic process inscribed in the history of mankind Without eclipsing differences and imposing a reified Eurocentric critical discourse upon indigenous productions this volume does not colonize indigenous texts or indulge in cultural appropriation of works of art but looks for historical mythological or geological traces of the past a past characterized by the intimacy between man and animal man and rock or man and plant a past which is allowed to resurface through the creative and critical outlooks that are bestowed upon its subjacent or subterranean existence It resurfaces not as nostalgic memory but as an interactive fertilization giving the present a new life in which the non human provides a key to the understanding of the human bond to nature The Historical Society of Michigan Newsletter Historical Society of Michigan (1874-),1998 **The Christian Work and the Evangelist** ,1907 *The Song of Hiawatha* Henry Wadsworth Longfellow,1890 **The Poetical Works** H.W. Longfellow,2022-05-06 Reprint of the original first published in 1868 **The song of Hiawatha, with illustr. from designs by F. Remington** Henry Wadsworth Longfellow,1895 The Poetical Works of W. H. Longfellow [sic]. Illustrated by F. Gilbert Henry Wadsworth Longfellow,1868 **The Oxford Handbook of the Archaeology and Anthropology of Rock Art** Bruno David,Ian J. McNiven,2018 Rock art is one of the most visible and geographically widespread of cultural expressions and it spans much of the period of our species existence Rock art also provides rare and often unique insights into the minds and visually creative capacities of our ancestors and how selected rock outcrops with distinctive images were used to construct symbolic landscapes and shape worldviews Equally important rock art is often central to the expression of and engagement with spiritual entities and forces and in all these dimensions it signals the diversity of cultural practices across place and through time Over the past 150 years archaeologists have studied ancient arts on rock surfaces both out in the open and within caves and rock shelters and social anthropologists have revealed how people today use art in their daily lives The Oxford Handbook of the Archaeology and Anthropology of Rock Art showcases examples of such research from around the world and across a broad range of cultural contexts giving a sense of the art s regional variability its antiquity and how it is meaningful to people in the recent past and today including how we have ourselves tended to make sense of the art of others replete with our own preconceptions It reviews past present and emerging theoretical approaches to rock art investigation and presents new cutting edge methods of rock art analysis for the student and professional researcher alike
