ample supply of endearing personal anecdotes and historical peculiarities make this local history quite an entertaining read. The book also makes the jump from mere local appeal by embracing the universal nostalgia of the era we know as The Sixties. The original motive of providing a thorough demography of the Coal Region town of Shenandoah fifty years before its Sesquicentennial is achieved. However the book's scope is much more universal. It is an accurate picture of a small town America in that Golden Age of our nation's history; it takes all its readers back on a nostalgic tour of that extraordinary decade known as the Sixties. The first person narrative has two authors in one. You'll see the Sixties through the innocent eyes of the 9 year old who lived them. Gain his impressions of his education, his views on the town's diversity and its prejudices. Thrill in the childish enjoyment of life in small town America of this generation. But realize that child has grown into a 59 year old historian. Explore with him the town and county's national prominence and historical figures. Look back at the Corner Stores, the Penny Candy, the Supermarkets, the Cars, the Drinking and the Holidays. Philosophize with him over the changing times. Look back at a firsthand account of America's most memorable decade and more.

Rochester's Transportation Heritage
Donovan A. Shilling, 2003. A city's rich transportation history comes alive in Rochester's Transportation Heritage. Here the evolution of transportation in Rochester is documented in vintage images from the 1890s through the 1950s. Included are photographs of Charles Lindbergh's visit to Rochester, images of the earliest locomotives and grand railroad stations, a picture of a trotting mare racing a lady bicyclist at the old Driving Park racetrack, views of boats on the Erie Canal and shots of the city's first airplanes. Rochester's Transportation Heritage revives the horse drawn trolley car days and the lost subway era. Rare images of the Regas auto and the cars that were destroyed by Rochester's 1932 tornado complete the story.

Kings County Robin Michael Roberts, 2008. Kings County sprawling across the San Joaquin Valley south of the Kings River and encompassing the bulk of the historic Tulare Lake bed is an agricultural wonder with ranches, dairy farms, vineyards and multiple other field and orchard crops. Created in 1893 from Tulare County and expanded in 1909 from elements of Fresno County, Kings County has grown in the last century from a forgotten corner of California into a major agricultural economic force.

The Richardson Light Guard of Wakefield, Massachusetts Barry M.

Stentiford, 2013-04-26. This book traces the history of the Richardson Light Guard of Wakefield, Massachusetts from its origins in 1851 until its end in 1975. What had been an institution of community members and local elites passed to town, then state and finally federal government. During the same period, Wakefield evolved from an agrarian town to a manufacturing town and finally to a bedroom suburb, ending the practice of a handful of local elites ruling the town unchallenged. Though the rise of the National Guard was generally positive for some militia companies, inclusion in the National Guard weakened vital bonds with their communities. In the 19th century, the Richardson Light Guard thrived under generous patrons, a supportive town and a relatively wealthy state government. After becoming part of the National Guard in 1916, the links with its home community steadily weakened, finally breaking during World War II. After the war, the National Guard company had few links

to Wakefield and was reorganized out of existence in 1975
