The Concept of Love in 17th and 18th Century Philosophy Herman de Dijn,2007 Love is joy with the accompanying idea of an external cause Spinoza's definition of love manifests a major paradigm shift achieved by seventeenth century Europe in which the emotions formerly seen as normative forces of nature were embraced by the new science of the mind This shift has often been seen as a transition from a philosophy laden with implicit values and assumptions to a more scientific and value free way of understanding human action But is this rational approach really value free Today we tend to believe that values are inescapable and that the descriptive mechanical method implies its own set of values Yet the assertion by Spinoza Malebranche Leibniz and Enlightenment thinkers that love guides us to wisdom and even that the love of a god who creates and maintains order and harmony in the world forms the core of ethical behavior still resonates powerfully with us It is evidently an idea Western culture is unwilling to relinquish This collection of insightful essays offers a range of interesting perspectives on how the triumph of reason affected not only the scientific philosophical understanding of the emotions and especially of love but our everyday understanding as well

Meditation on the Divine Legitimacy of Man Bogdan J. Wnuk,2009-07-02 Meditation is the result of departing from and returning to Christianity It is about tasting again the salt of Jesus teachings and rejoicing in imitating him in our eternal life which for us christians begins down here on earth and will continue on in heaven The Catholic Church which I served as an altar boy from the age of 6 to the age of 18 made me a legalistic robot with little or no free will I was engulfed in guilt and despair that I will never amount to anything good spiritually One day I quit trying to become a good catholic and went on a journey of discovery of other more attractive religions only to find along the way that Jesus is the way

La Cité du Logos: L'ecclésiologie de Clément d'Alexandrie et son enracinement christologique Léon-Ferdinand Karuhije,2022-06-20 Clément d'Alexandrie 150-215 Ap J C est l'un des penseurs les plus brillants des premiers siècles chrétiens Son enseignement tout autant pénétré de la Bible que de la pensée grecque nous révèle la nature des débuts aux premières heures de l'expansion du christianisme Ce livre aborde un sujet peu étudié ce jour savoir sa pensée sur l'église C'est pourtant un sujet courant de ses ouvrages où il réfléchit longuement sur l'église

partir de l'être et la mission du Logos divin L'analyse du discours de Clément sur l'église permet donc de revisiter les intuitions principales de sa christologie tout en apportant un éclairage sur sa perception de l'identité chrétienne une époque où celle-ci est encore en construction Clement of Alexandria AD 150-215 is one of the most brilliant thinkers of the early Christian centuries His teaching steeped as much in the Bible as in Greek thought reveals to us the nature of the debates in the early days of the expansion of Christianity This book deals with a subject little studied to this day namely his thoughts on the Church Yet it is a recurring subject in his works where he reflects at length on the Church from the point of view of the being and the mission of the divine Logos Analysis of Clement's discourse on the Church therefore makes it possible to revisit the main intuitions of his Christology while shedding light on his perception of Christian identity at a time when it is still under construction
