Land Reform and Structural Adjustment in Sub-Saharan Africa Jean-Philippe Platteau,1992-01-01 **Land Reform and Structural Adjustment in Sub-Saharan Africa** Jean-Philippe Platteau,1992 **Land Reform and Structural Adjustment in Subsaharan Africa** Jean-Philippe Platteau,1990 *Land Reform and Structural Adjustment in Sub-Saharan Africa* Jean-Philippe Platteau,1992 *The Politics of Land Reform in Africa* Doctor Ambreena Manji,2013-07-04

Across Africa land is being commodified private ownership is replacing communal and customary tenure Farms are turned into collateral for rural credit markets Law reform is at the heart of this revolution The Politics of Land Reform in Africa casts a critical spotlight on this profound change in African land economy The book illuminates the key role of legislators legal consultants and academics in tenure reform These players exert their influence by translating the economic and regulatory interests of the World Bank civil society groups and commercial lenders in to questions of law Drawing on political economy and actor network theory The Politics of Land Reform in Africa is an indispensable contribution to the study of agrarian change in developing countries *Agricultural Taxation Under Structural Adjustment* Alexander Sarris,1994-01-01

Contested Lands in Southern and Eastern Africa Robin H. Palmer,1997 Questions of land tenure and land reform and their impact on poor and vulnerable communities are of vital importance throughout Southern and Eastern Africa From the vast literature on the subject Robin Palmer has selected and summarized more than 300 recent books articles academic theses and reports of conferences and workshops This survey includes studies of Angola Botswana Kenya Lesotho Malawi Mozambique Namibia Rwanda South Africa Swaziland Tanzania Uganda Zambia and Zimbabwe In addition to major sections on economic and legal issues special sections feature studies of Land and Pastoralism and Land and Women **Land Tenure Reform in Asia and Africa** S. Holden,K. Otsuka,K. Deininger,2013-08-30 Rural poverty remains widespread and persistent in South Asia and Sub Saharan Africa A group of leading experts critically examines the impact of land tenure reforms on poverty reduction and natural resource management in countries in Africa and Asia with highly diverse historical contexts **The state of food and agriculture** ,1994 *African Land Questions, Agrarian Transitions and the State* Sam Moyo,2008 This empirically grounded study provides a critical reflection on the land question in Africa research on which tends to be tangential conceptually loose and generally inadequate It argues that the most pressing research concern must be to understand the precise nature of the African land question its land reforms and their effects on development To unravel the roots of land conflicts in Africa requires thorough understanding of the complex social and political contradictions which have ensued from colonial and post colonial land policies as well as from Africa s development and capital accumulation trajectories especially with regard to the land rights of the continent s poor The study thus questions the capacity of emerging neo liberal economic and political regimes in Africa to deliver land reforms which address growing inequality and poverty It equally questions the understanding of the nature of popular demands for land reforms by African states and their

ability to address these demands under the current global political and economic structures dictated by neo liberalism and its narrow regime of ownership The study invites scholars and policy makers to creatively draw on the specific historical trajectories and contemporary expression of the land and agrarian questions in Africa to enrich both theory and practice on land in Africa

State Capture and Rent-Seeking in Benin François Bourguignon, Romain Houssa, Jean-Philippe Platteau, Paul Reding, 2023-11-23 Benin is a small slow growing economy whose development relies on two sources of rent that are controlled by self centred elites cotton export and illegal cross border trade with Nigeria Patrimonialism governs Beninese society as a forceful struggle for political power takes place between the oligarchs who control these sources and use them as formidable levers of power State Capture and Rent Seeking in Benin argues that this struggle causes the instability and unpredictability of economic policies resulting in institutional problems that make economic diversification and growth difficult Based on a thorough account of the economic social and political development of Benin this institutional diagnostic provides a detailed analysis of its critical institution and development sensitive areas such as electoral campaign finance state capture by business and elites management of the cotton sector the tax effort the informal trading between Benin and Nigeria and the political economy of land reform

Varieties of Capitalism in History, Transition and Emergence Martha Prevezer, 2017-03-27 Economics tends to teach that developed countries have good institutions while developing countries do not and that this is the factor that constrains the latter s growth However the picture is far messier than this explanation suggests Building on the varieties of capitalism framework this book brings together the tools of institutional economics with historical analyses of institutional evolution of different kinds of property rights and legal systems protected by different kinds of state giving rise to distinct corporate governance structures It constructs institutional development histories across leading liberal capitalisms in Britain and the United States compared with continental capitalisms in France and Germany and contemporary transitional capitalisms in China and Tanzania This volume is innovative in combining both historical and economic insights and in combining developed country with developing country institutional emergence dispelling the prevailing sense of complacency about the inevitability of the path of institutional development for the developed areas of the world and the paths that developing

statist notions of property are fit for purpose in a time of human mobility and environmental disruption State centric property laws construct legal fictions of sovereign control over land notwithstanding the persistent reality of informal settlements in many parts of the Global South In a world affected by catastrophic disasters this book develops a vision of adaptive governance for property in land based on a critical re assessment of state centric property law This book will appeal to a broad readership with interests in legal theory property law adaptive governance international development refugee studies postcolonial studies and natural disasters
