Artificial Structures and Shorelines H. Jesse Walker, 2012-12-06 This volume is the result of an initiative of the Commission on the Coastal Environment of the International Geographical Union The initial concept from which the plan has proceeded was presented at the 24th International Geographical Congress in Japan in 1980 AUTHORSHIP AND COVERAGE All of the articles in this volume have been written by specialists familiar with the coastal segment discussed Nearly all have been prepared by citizens of the country and for that matter even each subregion considered In the case of exceptions e g Suriname the authors have conducted fieldwork on the coast of the country they treat In order to preserve the on the spot integrity of the volume it was decided not to fill in the blanks along the world s coastline with library researched chapters Thus coverage is variable Nearly every coastal country in Europe is represented whereas for Africa and South America there are major gaps In addition there are 2 instances of overlap In the case of England with a shoreline of nearly 3 000 km a complementary chapter on Lincolnshire with a shoreline of only 155 km is included The other case is the general article on the Baltic Coast of the USSR which is supported by chapters on Estonia and Lithuania Water Levels and Artesian Pressure in Observation Wells in the United States in 1949 ,1951 Geological Survey Water-supply Paper ,1954

Scientific American ,1887 Current and Future Trends in Bridge Design, Construction and Maintenance 2: Safety, Economy, Sustainability and Aesthetics Institute of Civil Engineers, Highways Agency and International Association for Bridge Maintenance and Safety, 2001-12-14 The Institution of Civil Engineers has organised a series of conferences to celebrate at the start of the New Millennium the enormous achievements made in the field of bridge engineering in recent years This volume of papers from the second of these conferences held in Hong Kong encompasses the state of the art in bridge design construction maintenance and safety assessment It includes papers on major bridge schemes both completed and under construction and on innovative approaches used in various parts of the world It also looks at local and regional projects and bridge related issues The wealth of information contained in this publication will be of interest to bridge consultants and contractors practising engineers researchers and bridge owners both local and international Report Commonwealth Shipping Committee, 1909 Covid, Biopolitics and the Suspension of the Nomos William Watkin, 2025-06-20 This book considers how during the unprecedented global lockdown due to the Covid 19 pandemic the normal order of everyday life of the rule of law of power itself was interrupted and hence the nomos of this earth was suspended Employing the term herd

immunity from vaccination science and global lockdown policy as a guiding theme the book considers two central aspects of the pandemic These are the function of herding and collecting as a definition of ontology after Alain Badiou and the concept of immunity as a suspension of oppositional differences in the work of Roberto Esposito It then considers how herd immunity not only disrupts the nomos but also suspends its significance as a guiding principle of state sanctioned legal norms and perhaps permanently Providing critical readings of masking social distancing compliance vulnerability bubbles immunity breathing anti vaxxers nudge theory cocooning lockdown patient zero and the many other terms that became commonplace between 2020 and 2022 the book traces a suspension of legal and social norms a manipulation of our compliance using false science and a reconfiguring of the social nomos in light of the threats of the virus In a highly original mix of contemporary and post war continental philosophy biopolitical theory set theoretical mathematics extensional logic and the most up to date science in the area it argues that lockdown was not some global biopolitical power grab but actually a weakening of power of nomos This book will appeal to scholars and others in a range of disciplinary areas with interests in the legacy of Covid but especially those working in the areas of continental philosophy contemporary legal theory and biopolitics

Surveyor and Municipal and County Engineer ,1908 **Mariners Weather Log** ,1969 November issue includes abridged index to yearly volume *Construction and Maintenance of Artisanal Fishing Harbours and Village Landings* J. A. Sciortino, Food and Agriculture Organization of the United Nations, 1995-01-01 This manual is the latest in the training series of the Fishing Technology Services of FAO It was conceived as a result of the increasing demand in many developing countries for safer better and cleaner facilities for fishing vessels particularly for the smaller craft used by small scale artisanal fishermen and women It describes the equipment and methods used in the construction of harbours and landing places and gives advice on how to maintain them so that they can function efficiently First published in 1994 This reprint 2003 Water-supply Paper ,1948 Engineering ,1917 Proceedings of the Second Pan American Scientific Congress ,1917
